Smart executives realize that leadership communication isn't a matter of making nice, but a strategic necessity. Organized around an original model defining the important communication roles a leader must fill, The Leader as Communicator examines roles as diverse as trust-builder and critic, renewal champion and navigator, learning advocate and provocateur. The book presents case studies of organizations including Cadillac, Emerson,

and Saturn, plus dozens of other examples. Packed with strategies and tactics showing how leaders can shape the communications climate of their organizations, the book culminates with assessment exercises that let readers measure their own communication skills. The Greatest Communicator Dick Wirthlin, 2007-08-24 The outpouring of grief and heartfelt tributes following Ronald Reagan's death demonstrated the love and admiration people still have for our nation's 40th president. Now, in this affectionate memoir, Reagan's chief political strategist and friend for 36 years offers a fascinating close-up portrait of the Great Communicator. Taking us inside the 1980 and 1984 presidential campaigns and beyond, Dick Wirthlin shares illuminating anecdotes, off-the-record remarks, and private moments that reveal the true Ronald Reagan. Through it all, Wirthlin points out the unique qualities and talents that made Reagan such a strong leader--and such a great communicator. For anyone who has fond memories of the late president, this admiring reminiscence brilliantly conjures up the strong values, gregarious charm, and all-American optimism that made Ronald Reagan

great.

The Compelling Communicator Tim Pollard, 2017-05-22 You attend numerous presentations and meetings a year--filled with the typical dense and disorganized PowerPoint decks--and leave most of them thinking, Well, that's an hour of my life I'll never get back. But out of this sea of mediocrity, a rare few rise up, captivating you and driving you to action. What makes these few so special? Despite what most people think, it's not because they were delivered well. It's because they were crafted in a way that deeply aligned with how your brain wants to consume information. The presentations that failed did so precisely because they violated the largely unknown natural laws of learning. In *The Compelling Communicator*, you will learn a proven process for designing presentations that touch your audience in a highly impactful way by:

- * Building around a small number of big ideas that will lead to action
- * Keeping content within the audience's brain bandwidth
- * Developing logical narrative structure
- * Anchoring communication in the listener's priorities
- * Creating mind-sticky storytelling and visuals
- * Producing handouts that allow your presentation to live on after the handshakes

Filled with examples of exceptional--and not so exceptional--presentations and clear explanations of why they do and don't work, this comprehensive guidebook provides every tool you need to become a standout presenter whose message is certain to leave a powerful, lasting impression.
