Fox, 2009-10-06 A practical four-step cognitive therapy program for overcoming self-doubt and fear?from leading experts in the field.

Long-time associates of the Beck Institute, Drs. Sokol and Fox share their practical, four-step cognitive therapy program for overcoming self-doubt and fear, building confidence, and maximizing potential in all areas of life. Their unique program

enables the reader to identify and examine those areas where self-doubt gets triggered and interferes with their potential. As the self-doubt becomes more externalized, readers are shown step-by-step how to determine if their fear is valid, and if not, how to overcome it. Readers will learn how to develop confidence and to base their actions on a new, more positive belief structure, resulting in a true and lasting form of solid self-esteem and confidence.

The Confident Woman Marjorie Hansen Shaevit,2012-01-04

How Confident Are You? Marjorie Hansen Shaevit has won national awards for her work in women's health and has enjoyed the success some people only dream of: a prosperous professional life; a long, happy marriage; two Stanford-educated children; and a bestselling book, *The Superwoman Syndrome*, which coined a term for a generation of women. Despite all of her accomplishments, however, she struggled with the issue of confidence. After conducting extensive research, she found that she was far from alone: Many women experience the paradox of enjoying success in their business and personal lives while lacking confidence in themselves. *The Confident Woman* focuses on the issues that women face in growing up as girls in this society. Using a series of seven steps, complete with techniques and questions, Shaevit

presents an accessible and proven program that helps women regain their confidence. It is written for women of all ages, ending with an epilogue for mothers who want practical tips for raising confident daughters. In clear, concise prose -- filled with anecdotes and humor -- *The Confident Woman* focuses on what women say they want: practical advice that they can use now.

Perfectly Confident Don A. Moore, 2020-05-26 An expert on the psychology of decision making at Berkeley's Haas School of Business helps readers calibrate their confidence, arguing that some confidence is good, but overconfidence can hinder growth. A surge of confidence can feel fantastic—offering a rush of energy, even a dazzling vision of the future. It can give us courage and bolster our determination when facing adversity. But if that self-assurance leads us to pursue impossible goals, it can waste time, money, and energy. Self-help books and motivational speakers tell us that the more confident we are, the better. But this way of thinking can lead to enormous trouble. Decades of research demonstrates that we often have an over-inflated sense of self and are rarely as good as we believe. *Perfectly Confident* is the first book to bring together the best psychological and economic studies to explain exactly what confidence is, when it can be helpful, and

when it can be destructive in our lives. Confidence is an attitude that takes into account both personal feelings and the facts. Don Moore identifies the ways confidence behaves in real life and raises thought-provoking questions. How optimistic should you be about an uncertain future? What justifies your confidence in something amorphous and subjective like your attractiveness or sense of humor? Moore reminds us that the key to success is to avoid being both over- and under-confident. In this essential guide, he shows how to become perfectly confident—how to strive for and maintain the well-calibrated, adaptive confidence that can elevate all areas of our lives.

The Confident Woman Joyce Meyer,2006-09-05 What keeps women from being their best? Joyce has been helping women better themselves by helping identify emotional barriers and physical, mental, and spiritual obstacles in their lives for years. Now she provides another answer-confidence. Our society has an insecurity epidemic, women in particular. Compensating by pretending to be secure-a common response-only leads to feelings of shame. Lack of self-confidence causes great difficulty in relationships of all kinds, and in marriage instances can even lead to divorce. In *THE CONFIDENT WOMAN*, Joyce explores the seven characteristics of a woman with confidence, which include a woman who knows she is loved, who refuses to live in fear, and who does not live by comparisons. Joyce explains that confidence stems from being positive in your actions and living honestly, but

most importantly from having faith, in God and in ourselves.
