*We Need to Talk* Celeste Headlee,2017-09-19 “WE NEED TO TALK.” In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication “We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother.” (Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist--and offers simple tools that can improve anyone’s communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. HIDE YOUR PHONE. Don’t just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you’re struggling to communicate with your kid’s teacher at school, an employee at work, or the people you love the most--Headlee offers smart strategies that can help us all have conversations that matter.

*The Conversation* Robert Livingston,2021-02-02 A FINANCIAL TIMES BEST BOOK OF THE YEAR • An essential tool for individuals, organizations, and communities of all sizes to jump-start dialogue on racism and bias and to transform well-intentioned statements on diversity into concrete actions--from a leading Harvard social psychologist. FINALIST FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD • LONGLISTED FOR THE PORCHLIGHT BUSINESS BOOK AWARD “Livingston has made the important and challenging task of addressing systemic racism within an organization approachable and achievable.”--Alex Timm, co-founder and CEO, Root Insurance Company How can I become part of the solution? In the wake of the social unrest of 2020 and growing calls for racial justice, many business leaders and ordinary citizens are asking that very question. This book provides a compass for all those seeking to begin the work of anti-racism. In *The Conversation*, Robert Livingston addresses three simple but profound questions: What is racism? Why should everyone be more concerned about it? What can we do to eradicate it? For some, the existence of systemic racism against Black people is hard to accept because it violates the notion that the world is fair and just. But the rigid racial hierarchy created by slavery did not collapse after it was abolished, nor did it end with the civil rights era. Whether it’s the composition of a company’s leadership team or the composition of one’s neighborhood, these racial divides and disparities continue to show up in every facet of society. For Livingston, the difference between a solvable problem and a solved problem is knowledge, investment, and determination. And the goal of making organizations more diverse, equitable, and inclusive is within our capability. Livingston’s lifework is showing people how to turn difficult conversations about race into productive instances of real change. For decades he has translated science into practice for numerous organizations, including Airbnb, Deloitte, Microsoft, Under Armour, L’Oreal, and JPMorgan Chase. In *The Conversation*, Livingston distills this knowledge and experience into an eye-opening immersion in the science of racism and bias. Drawing on examples from pop culture and his own life experience, Livingston, with clarity and wit, explores the root causes of racism, the factors that explain why some people care about it and others do not, and the most promising paths toward profound and sustainable progress, all while inviting readers to challenge their assumptions. Social change requires social exchange. Founded on principles of psychology, sociology, management, and behavioral economics, *The Conversation* is a road map for uprooting entrenched biases and sharing candid, fact-based perspectives on race that will lead to increased awareness, empathy, and action.

*Reclaiming Conversation* Sherry Turkle,2016-10-04 “In a time in which the ways we communicate and connect are constantly changing, and not always for the better, Sherry Turkle provides a much needed voice of caution and reason to help explain what the f\*\*\* is going on.” --Aziz Ansari, author of *Modern Romance* Renowned media

scholar Sherry Turkle investigates how a flight from conversation undermines our relationships, creativity, and productivity—and why reclaiming face-to-face conversation can help us regain lost ground. We live in a technological universe in which we are always communicating. And yet we have sacrificed conversation for mere connection. Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years. Long an enthusiast for its possibilities, here she investigates a troubling consequence: at work, at home, in politics, and in love, we find ways around conversation, tempted by the possibilities of a text or an email in which we don't have to look, listen, or reveal ourselves. We develop a taste for what mere connection offers. The dinner table falls silent as children compete with phones for their parents' attention. Friends learn strategies to keep conversations going when only a few people are looking up from their phones. At work, we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work. Online, we only want to share opinions that our followers will agree with – a politics that shies away from the real conflicts and solutions of the public square. The case for conversation begins with the necessary conversations of solitude and self-reflection. They are endangered: these days, always connected, we see loneliness as a problem that technology should solve. Afraid of being alone, we rely on other people to give us a sense of ourselves, and our capacity for empathy and relationship suffers. We see the costs of the flight from conversation everywhere: conversation is the cornerstone for democracy and in business it is good for the bottom line. In the private sphere, it builds empathy, friendship, love, learning, and productivity. But there is good news: we are resilient. Conversation cures. Based on five years of research and interviews in homes, schools, and the workplace, Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation. The most human—and humanizing—thing that we do. The virtues of person-to-person conversation are timeless, and our most basic technology, talk, responds to our modern challenges. We have everything we need to start, we have each other. Turkle's latest book, *The Empathy Diaries* (3/2/21) is available now.

**Topics of Conversation** Miranda Popkey, 2020-02-27 'If you're a fan of Sally Rooney's work, then you can't go wrong by picking up a copy of *Topics Of Conversation* ... She's a fresh voice, and one that it's certainly worth listening to.' *Vogue* 'Miranda Popkey's debut explores the paradox of longing to assert control and longing to lose it ... She depicts what it feels like to exist, actually live, at that intersection, which can so often bring about paralysis.' *New Yorker* What is the shape of a life? Is it the things that happen to us? Or is it the stories we tell about the things that happen to us? From the coast of the Adriatic to the salt spray of Santa Barbara, the narrator of *Topics of Conversation* maps out her life through two decades of bad relationships, motherhood, crisis and consolation. The novel unfurls through a series of conversations – in private with friends, late at night at parties with acquaintances, with strangers in hotel rooms, in moments of revelation, shame, cynicism, envy and intimacy. Sizzling with enigmatic desire, Miranda Popkey's debut novel is a seductive exploration of life as a woman in the modern world, of the stories we tell ourselves and of the things we reveal only to strangers.

**The Conversation** Angelo E. Volandes, Angelo Volandes, M.D., M.D., 2015-01-13 There is an unspoken dark side of American medicine--keeping patients alive at all costs. Two thirds of Americans die in healthcare institutions tethered to machines and tubes, even though research indicates that most prefer to die at home in comfort, surrounded by loved ones. The question How do you want to live? must be posed to the seriously ill because they deserve to choose. If doctors explain options--including the choice to forego countless medical interventions that are often of little benefit--then patients can tell doctors how they wish to spend the remainder of their lives. A doctor's heroic efforts to prolong a life can instead prolong that patient's death, and these traumatic measures also bankrupt the healthcare system. One third of the Medicare budget is spent on the last six months of life, often on technological interventions that are not helpful and inflict more suffering. Through the stories of six patients and six very different end-of-life experiences, Volandes explores the trajectory of events and treatments that occur with and without this essential conversation. He argues for a radical re-envisioning of the patient-doctor relationship--including videos to spark discussions--and offers ways for patients and their families to talk about this difficult issue to ensure that patients will be at the center and in charge of their medical care--Provided by publisher.

**Making Conversation** Fred Dust, 2020-12-01 A former Senior Partner and Global Managing Director at the legendary design firm IDEO shows how to design conversations and meetings that are creative and impactful. Conversations are one of the most fundamental means of communicating we have as humans. At their best, conversations are unconstrained, authentic and open—two or more people sharing thoughts and ideas in a way that bridges our individual experiences, achieves a common goal. At their worst, they foster misunderstanding, frustration and obscure our real intentions. How often do you walk away from a conversation feeling really heard? That it moved the people in it forward in some important way? You're not alone. In his practice as a designer, Fred Dust began to approach conversations differently. After years of trying to broker communication between colleagues and clients, he came to believe there had to be a way to design the art of conversation itself with intention and purpose, but still artful and playful. *Making Conversation* codifies what he learned and outlines the seven elements essential to successful exchanges: Commitment, Creative Listening, Clarity, Context, Constraints, Change, and Create. Taken together, these seven elements form a set of resources anyone can use to be more deliberate and purposeful in making conversations work.

**The Age of Conversation** Benedetta Craveri, 2006-08-01 Now in paperback, an award-winning look at French salons and the women who presided over them In the seventeenth and eighteenth centuries, between the reign of Louis XIII and the Revolution, French aristocratic society developed an art of living based on a refined code of good manners. Conversation, which began as a way of passing time, eventually became the central ritual of social life. In the salons, freed from the rigidity of court life, it was women who dictated the rules and presided over exchanges among socialites, writers, theologians, and statesmen. They contributed decisively to the development of the modern French language, new literary forms, and debates over philosophical and scientific ideas. With a cast of characters both famous and unknown, ranging from the Marquise de Rambouillet to Madame de Staël, and including figures like Ninon de Lenclos, the Marquise de Sevigne, and Madame de Lafayette, as well as Pascal, La Rochefoucauld, Diderot, and Voltaire, Benedetta Craveri traces the history of this worldly society that carried the art of sociability to its supreme perfection—and ultimately helped bring on the Revolution that swept it all away.

**How We Talk** N. J. Enfield,2017-11-14 An expert guide to how conversation works, from how we know when to speak to why huh is a universal word We all had teachers who scolded us over the use of um, uh-huh, oh, like, and mm-hmm. But as linguist N. J. Enfield reveals in How We Talk, these bad words are fundamental to language.Whether we are speaking with the clerk at the store, our boss, or our spouse, language is dependent on things as commonplace as a rising tone of voice, an apparently meaningless word, or a glance -- signals so small that we hardly pay them any conscious attention. Nevertheless, they are the essence of how we speak. From the traffic signals of speech to the importance of um, How We Talk revolutionizes our understanding of conversation. In the process, Enfield reveals what makes language universally -- and uniquely -- human.

**Talking Voices** Deborah Tannen,2007-10-18 Written in readable, vivid, non-technical prose, this book, first published in 2007, presents the highly respected scholarly research that forms the foundation for Deborah Tannen's best-selling books about the role of language in human relationships. It provides a clear framework for understanding how ordinary conversation works to create meaning and establish relationships. A significant theoretical and methodological contribution to both linguistic and literary analysis, it uses transcripts of tape-recorded conversation to demonstrate that everyday conversation is made of features that are associated with literary discourse: repetition, dialogue, and details that create imagery. This second edition features a new introduction in which the author shows the relationship between this groundbreaking work and the research that has appeared since its original publication in 1989. In particular, she shows its relevance to the contemporary topic 'intertextuality', and provides a useful summary of research on that topic.
