

Coollest

Mark Wish,Elizabeth Coffey

The Coolest Race on Earth John Hanc, 2009 Chronicling the world's most difficult race through the eyes of one who ran it, this vivid and humorous memoir shares the adventures of inspiring contestants—including a wheelchair-bound runner and three record-breaking grandmothers—as they trek across the daunting terrain of extinct volcanoes, craggy mountain peaks, and the turbulent Drake passage, all in a quest to complete the Antarctica Marathon. Revealing the runners' struggles against melting glaciers and hostile skuas, the narrative also recounts their unique experiences with curious penguins and whale sightings. Spotlighting the people and the place that make this annual event so remarkable, this account not only reflects why marathons are so successful but also presents a deeply funny meditation on what makes people run.

Coolest American Stories 2023 Mark Wish, Elizabeth Coffey, 2023-01-10 America's most talented storytellers share their most interesting, engaging, unputdownable work in a collection made for story lovers. Praised early on by numerous award-winning and bestselling authors, COOLEST AMERICAN STORIES 2023 is the second volume of the annual short story anthology whose guiding philosophy is that a collection of widely appealing short stories can make for common ground that could unite rather than divide Americans. Toward this end, COOLEST AMERICAN STORIES 2023 features a previously uncollected heartbreaking story by Morgan Talty, nationally bestselling author and PEN award winner of *Night of the Living Rez*; a witty story about growing up fast by widely published crime writer Nikki Dolson; and a candid tale about motherhood in the wake of tragedy by T.E. Wilderson. And since interesting storytelling—rather than a bunch of publishing credits—matters most to story-hungry readers, COOLEST AMERICAN STORIES 2023 also includes a page-turner about celebrity stalking written by brand new author Georgia Smith; a previously unpublished and sensual story about love versus the American Dream by up-and-coming author Patricia García Luján; and R.C. Goodwin's striking tale about a dying parent's wish—among others in this treasure trove of unputdownable, sharply written, sometimes comic, sometimes frightening, always suspenseful stories loaded with twists and turns.

The Coolest Monsters Megan Baxter, 2020-02-24 The pieces in this collection range in setting from the small towns of New England to the deserts of the Southwest. Grounded in personal experience these essays ask through narrative what it means to be a rebel girl, a rebel teenager, and a rebel woman in a world that seems to offer no real alternative to traditional roles. Infused with lyrical and figurative language, this collection combines the swiftness of the prose poem with the power of the personal essay resulting in writing that pulls the ground out from under the reader again and again. The collection is organized chronologically in a way that charts the development of a woman as she attempts to adapt to the world around her through stories of love, heartbreak, and adventure. The essays travel with the narrator from a summer camp in Maine, to opal mining in Nevada, to the story of a deadly thunderstorm in Vermont, to hunting for ginseng, asking the questions about belonging, expectation and, ultimately, if there is a chance for real happiness.

COOLEST AMERICAN STORIES 2022 Mark Wish,Elizabeth Coffey,2022-01-10 America's most talented storytellers share their most courageous, compelling, unputdownable work in a collection made for story lovers. Praised early on by Billy Lynn's Long Halftime Walk author Ben Fountain and The Weight of Blood author Laura McHugh, COOLEST AMERICAN STORIES is a new annual short story anthology whose guiding philosophy is that a collection of interesting full meal short stories could, as one @JustCoolStories Twitter follower put it, make America cool again. Toward this end, COOLEST AMERICAN STORIES 2022 features a previously unpublished story by the multi-major-book-award-winning author of Blacktop Wasteland S. A. Cosby; the timeless, previously unpublished short story that led Tina Brown to sign Frances Park's When My Sister Was Cleopatra Moon; and Pulitzer Prize finalist Lee Martin's heartfelt rendering of married life that apparently was too startling for the editors of several university-affiliated literary magazines. And since interesting storytelling rather than a list of publishing credits matters most to story-hungry readers, COOLEST AMERICAN STORIES 2022 also includes a page-turner about dating in Hollywood written by MFA student Megan Ritchie; Brooklyn native D.Z. Stone's very first published fiction, a hilarious love story that celebrates the power of women; a heartbreaking account of adult siblinghood authored by David Ebenbach among others in this treasure trove of unputdownable, sharply written, sometimes comic, sometimes frightening, always suspenseful stories loaded with twists and turns. Coolest American Stories 2022 is a helluva lot of fun. These stories bump and brim with rambunctious energy and show that the American short story is alive and well. Many thanks to Mark Wish and Elizabeth Coffey for this breath or let's call it a gale of fresh literary air. --Ben Fountain, winner of the PEN/Hemingway Award and the National Book Critics' Circle Award, author of Billy Lynn's Long Halftime Walk Extraordinarily rich storytelling from fresh, vibrant voices Coolest American Stories promises to be an annual force. --Laura McHugh, internationally bestselling author of The Weight of Blood and What's Done in Darkness Love short stories? This collection is for you. Not yet sure how to feel about short stories? This collection is definitely for you. Whoever you are, wherever you are: read these stories! --Lori Ostlund, Flannery

Be the Coolest Dad on the Block Simon Rose, Steve Caplin, 2008-11-26 An all-encompassing guide to entertaining, amazing, and possibly even educating children, *Be the Coolest Dad on the Block* provides the perfect excuse to stand on a balloon, play with grated cheese in the microwave, and unroll an entire roll of toilet paper, all in the name of spending time with your kids. Written by a comedy writer and a cartoonist with thirty years' combined experience as dads, *Be the Coolest Dad on the Block* is a cornucopia of practical parenting advice, like how to skip stones or teach a kid to ride a bike. It has answers to the pesky questions kids love, such as "Why is the sky blue?" or "Where do babies come from?" And it can help dads entertain large groups of kids with slapstick gags ("burp the alphabet") or cool tricks ("the hole in the head"). *Be the Coolest Dad on the Block* also contains spooky myths for telling around the campfire and loads of quizzes and jokes for rainy days or endless car rides. With a range of ideas to suit all situations and sensibilities, *Be the Coolest Dad on the Block* gives any dad the right stuff to be the wackiest and smartest guy in the room.

The Coolest Nerd Curtis Easley, 2003-10 Some people say it is impossible for a skinny, nerdy kid to hook up with a beautiful and stylish girl. Chuck thought so as well, but his big mouth and all of his pride got him into a situation that he could not turn away from. The nerdy Chuck must accompany the beautiful Shannon to the biggest dance of the school year, or pay up on a bet and face the ridicule of his adoring friends. Chuck knows deep down inside that Shannon wouldn't walk with him in public, let alone be his date for a big dance. With this knowledge, Chuck knows he must un-nerd himself, and step into the world of cool-dom in order to date his queen. He must accomplish his task while being pestered for homework assignments by the abnormally big and menacing bully known as Jack.

The Coolest Inventor Alison Eldridge, Stephen Eldridge, 2014-01-01 Icy cold air conditioning is very common in many people's lives, but there was a time when this popular luxury did not exist. People had to think of other ways to keep cool on hot, humid days. It was also too hot in factories and

hospitals, theaters and cars. Willis Carrier changed all that. Authors Alison and Stephen Eldridge explore how his love of science and fixing things led to a lifetime of adventure, research, and the discovery of air conditioning.
