Chocolate Ross F. Collins, 2022-06-01 Chocolate is nearly always with us—when celebrating or mourning, in love or alone, healthy or sick, happy or sad. This book offers a comprehensive look at how an exotic food grew to play such a central role in our lives. No food in the world can offer as storied a history as chocolate. *Chocolate: A Cultural Encyclopedia* focuses on cocoa's history from ancient Mesoamerican beginnings as a symbol of ritual, life, and death, to its omnipresence in Europe, North America, and the rest of the world. In 10 thematic chapters covering chocolate in society and culture, 80 shorter entries, recipes, and a comprehensive timeline, this new book takes a closer look at how chocolate has served as a medicine, an indulgence, a symbol of decadence, a door to romance, a tempting taboo, a means of survival, and a snack for children and adults alike. Why did popes and kings so fear their chocolate? Who invented milk chocolate, and why was its formula kept secret? Why did soldiers in World War II despise their chocolate rations? Who makes the most chocolate today? Find out the answers to these questions and more as this book tells you everything you wanted to know—and a lot you didn't even know existed—about the seed from the world's favorite fruit tree.

On peut maintenant se les procurer dans les boutiques spécialisées, parfois au prix fort, mais on peut également les fabriquer à la maison, à peu de frais et en quelques minutes seulement. Dans ce troisième ouvrage, Sylvie Fortin, la pionnière des cosmétiques maison au Québec, nous propose 50 recettes de produits de soins pour le visage et le corps : dentifrices, déodorants, shampoings, masques capillaires, savons de rasage, produits pour l'heure du bain, en plus de 30 recettes ultra simples de cosmétiques minute qui se préparent en un éclair pour une utilisation immédiate. Les cosmétiques non toxiques solides se composent de quelques ingrédients usuels, le plus souvent locaux et comme ils ne contiennent pas d'eau, ils se conservent longtemps et sans ajout d'agents de conservation.

Varinia Michalun, 2010 Milady's Skin Care and Cosmetic Ingredients Dictionary, third edition, is a multi-purpose resource for cosmetic professionals and consumers alike. Surnuméraires Michel Mesrouze, 2023-03-07 Vision romancée et peut-être futuriste de notre société, Surnuméraires mêle réalisme et fiction et ouvre des chemins de réflexions au lecteur. Au XXIII^e siècle, un professeur d'université et ses élèves s'isolent au plus profond d'une forêt. Ils tentent de renouer avec les mœurs des homosapiens... Ce stage sapien ne se déroulera pas du tout comme prévu et bouleversera la planète entière. À PROPOS DE L'AUTEUR La biographie de Michel Mesrouze s'est imposée à lui à l'âge de huit ans. Il observe le jeu de la bielle de transmission de la pédale de la vieille machine à coudre de sa mère et comprend l'origine de la panne. Il la répare ! Après s'être expliqué avec ses mots d'enfant, il surprit sa génitrice dire en aparté à son père : « Ce petit a de l'or dans les mains »... Trente ans plus tard, il dirigeait le service Recherche et Développement d'une grande entreprise française et avait déjà ce livre en tête...

Ménopausée et libre ! Sophie Kune, 2021-09-29 « Cela faisait déjà plusieurs mois que je saignais. Il fallait stopper l'hémorragie, alors on m'a administré une piqûre qui devait mettre fin à mes cycles temporairement ; autrement dit, j'étais ménopausée artificiellement. Rien de bien méchant, m'a assuré le gynécologue. Sauf que deux semaines plus tard, je n'étais plus que vagues et tempêtes. Uppercut par la gauche, par la droite, par le milieu. K.-O. sur mon canapé blanc immaculé. J'arrivais à peine à respirer. J'avais froid, je tremblais, j'avais mal, je pleurais. Sècheresse, bouffée de chaleur, douleurs, mal au coeur. » La ménopause. L'âge critique, l'hiver des femmes, la verte vieillesse... Autant d'expressions qui en disent long sur la manière dont est considéré ce moment charnière dans la vie des femmes, lorsqu'elles ne sont plus en mesure de procréer. Mais pourquoi est-elle si souvent moquée dans notre société, pourquoi rend-elle les femmes invisibles aux yeux du monde, pourquoi reste-t-elle l'un des derniers tabous à l'heure de la libération de la parole des femmes ? Retraçant l'origine du terme – né sous la plume de Charles de Gardanne en 1821 – interrogeant des spécialistes, partageant son expérience et ses réflexions, l'autrice mène l'enquête. Elle décortique les impacts physiologique, psychologique, sexuel et professionnel de la ménopause, déconstruit les archétypes et propose de changer de regard.

Le ménopause quitte alors le cadran rationnel – et souvent terrifiant – dans lequel on l’a placée pour devenir touchante, vibrante, parfois drôle. Un chemin se dessine pour réinventer le vécu de la ménopause.
