Multipliers Liz Wiseman,Greg McKeown,2010-06-15 Are you a genius or a genius

maker? We've all had experience with two dramatically different types of leaders. The first type drain intelligence, energy, and capability from the ones around them and always need to be the smartest ones in the room. These are the idea killers, the energy sappers, the diminishers of talent and commitment. On the other side of the spectrum are leaders who use their intelligence to amplify the smarts and capabilities of the people around them. When these leaders walk into a room, lightbulbs go off over people's heads, ideas flow, and problems get solved. These are the leaders who inspire employees to stretch themselves to deliver results that surpass expectations. These are the Multipliers. And the world needs more of them, especially now, when leaders are expected to do more with less. In this engaging and highly practical book, leadership expert Liz Wiseman and management consultant Greg McKeown explore these two leadership styles, persuasively showing how Multipliers can have a resoundingly positive and profitable effect on organizations—getting more done with fewer resources, developing and attracting talent, and cultivating new ideas and energy to drive organizational change and innovation. In analyzing data from more than 150 leaders, Wiseman and McKeown have identified five disciplines that distinguish Multipliers from Diminishers. These five disciplines are not based on innate talent; indeed, they are skills and practices that everyone can learn to use—even lifelong and recalcitrant Diminishers. Lively, real-world case studies and practical tips and techniques bring to life each of these principles, showing you how to become a Multiplier too, whether you are a new or an experienced manager. Just imagine what you could accomplish if you could harness all the energy and intelligence around you. Multipliers will show you how.

Heart of Darkness Joseph Conrad, 2023-11-21 Heart of Darkness is often considered the world's best short novel. The book serves as a bridge between the 19th century and modernism, an adventure tale revolving around the ambiguity of themes such as truth, morality, and evil. Joseph Conrad witnessed the European exploitation of the Congo with his own eyes. He once sailed up the Congo River himself to locate a countryman at a trading station deep within the country – even though this man wasn't named Kurtz. The goal and enigma of the journey have become synonymous with this name, one of the most unforgettable fictional characters of our time. JOSEPH CONRAD [1857–1924] was born in Ukraine to Polish parents, went to sea at the age of seventeen, and ended his career as a

captain in the English merchant navy. His most famous work is the novella Heart of Darkness [1899], adapted into a film by Francis Ford Coppola in 1979 as Apocalypse Now.

Formal Foundations of Reuse and Domain Engineering Stephen H. Edwards, Gregory Kulczykcki, 2009-09-19 ICSR is the premier international conference in the field of software reuse. The main goal of ICSR is to present the advances and improvements within the software reuse domain, as well as to promote interaction between researchers and practitioners. The 11th International Conference on Software Reuse (ICSR 2009) was held during September 27–30, 2009 in Falls Church, VA, USA. 2009 was the year that ICSR went back to its roots. The theme was “Formal Foundations of Reuse and Domain Engineering.” We explored the theory and formal foundations that underlie current reuse and domain engineering practice and looked at current advancements to get an idea of where the field of reuse was headed. Many of the papers in these proceedings directly reflect that theme. The following workshops were held in conjunction with ICSR 2009: – Second Workshop on Knowledge Reuse (KREUSE 2009) – RESOLVE 2009: Software Verification – the Cornerstone of Reuse – First International Workshop on Software Ecosystems – International Workshop on Software Reuse and Safety (RESAFE 2009) Aside from these workshops and the papers found here, the conference also included five tutorials, eight tool demos, and a doctoral symposium. Links to all of this information and more can be found at the ICSR 11 conference website at icsr11.isase.org.
