**Those Guys Have All the Fun** James Andrew Miller, Tom Shales, 2011-05-24 In the exclusive behind the scenes look, sports fans can unlock the fascinating history of the channel that changed the way people watch and interact with their favorite teams. It began, in 1979, as a mad idea of starting a cable channel to televise local sporting events throughout the state of Connecticut. Today, ESPN is arguably the most successful network in modern television history, spanning eight channels in the United States and around the world. But the inside story of its rise has never been fully told-until now. Drawing upon over 500 interviews with the greatest names in ESPN's history and an All-Star collection of some of the world's finest athletes, bestselling authors James Miller and Tom Shales take us behind the cameras. Now, in their own words, the men and women who made ESPN great reveal the secrets behind its success-as well as the many scandals, rivalries, off-screen battles and triumphs that have accompanied that ascent. From the unknown producers and business visionaries to the most famous faces on television, it's all here.

*ESPN* Travis Vogan, 2015-10-15 Once a shoestring operation built on plywood sets and Australian rules football, ESPN has evolved into a media colossus. A genius for cross-promotion and its near-mystical rapport with its viewers empower the network to set agendas and create superstars, to curate sports history even as it mainstreams the latest cultural trends. Travis Vogan teams archival research and interviews with an all-star cast to pen the definitive account of how ESPN turned X's and O's into billions of \$\$\$\$. Vogan's institutional and cultural history focuses on the network since 1998, the year it launched a high-motor effort to craft its brand and grow audiences across media platforms. As he shows, innovative properties like SportsCentury, ESPN The Magazine, and 30 for 30 built the network's cultural caché. This credibility, in turn, propelled ESPN's transformation into an entity that

lapped its run-of-the-mill competitors and helped fulfill its self-proclaimed status as the Worldwide Leader in Sports. Ambitious and long overdue, *ESPN: The Making of a Sports Media Empire* offers an inside look at how the network changed an industry and reshaped the very way we live as sports fans.

ESPN Michael Freeman, 2001 *ESPN: The Uncensored History* traces the first 24-hour sports network from its inception through its evolution into a slick media outlet reaching more than 60 million homes via more than 26,000 cable providers. Entertainment and Sports Programming Network, ESPN, has blazed a stunning path of achievement with its expansive coverage of broadcast sports--spinning off into ESPN2, ESPN Classic Sports, ESPNNews, and ESPN Magazine--but has also experienced its share of controversy. Along the way, this American entrepreneurial triumph has alienated on-air talent, drawn charges of racial discrimination, and seen employees accused of blatant sexual harassment. ESPN's success story is no fairy tale. Among the colorful lore and amusing anecdotes lurk serious complications and controversies. Through information gleaned from internal documents, police and court records, and interviews with network employees, on-air talent, producers, and executives, *ESPN: The Uncensored History* probes the inside story of America's premiere sports network. Part corporate history, part media and cultural analysis, and part expose, the book examines both the positive developments effected by the network and the bad habits it has picked up from the business it covers. This paperback reveals the most recent developments at ESPN since the publication of the hardback, including the network's aggressive reactions to the book.

Sports on Television Dennis Deninger, 2012 Dennis Deninger has succeeded in covering the full gamut of sports television and sports broadcasting. *Every Town Is a Sports Town* George Bodenheimer, Donald T. Phillips, 2015-05-05 A Best Business Book of 2015, Strategy Business ESPN's rise is one of the most remarkable stories about business and sports in our time, and nobody can tell it better than George Bodenheimer. It may be hard to believe, but not long ago, getting sports updates was difficult and frustrating. ESPN changed everything. George Bodenheimer knows. Initially hired to work in the mailroom, one of Bodenheimer's first jobs was to pick up sportscaster Dick Vitale at the Hartford airport and drive him to ESPN's main campus--a

couple of trailers in a dirt parking lot. But as ESPN grew, so did George's status in the company. In fact, Bodenheimer played a major part in making ESPN a daily presence not just here, but all over the world. In this business leadership memoir--written with bestselling author Donald T. Phillips--Bodenheimer lays out ESPN's meteoric rise. This is a book for business readers and sports fans alike.

ESPN Stuart Evey,2004 Boasting four sports channels with more than 200 million viewers worldwide, a sports magazine with a circulation of more than 2 million, a network of radio stations, and a successful chain of theme restaurants -- to say nothing of an estimated net worth of \$15 billion -- ESPN is a veritable media empire. It is one of the most instantly recognizable brands in the world. But in 1978, when Stuart Evey, then a top executive for Getty Oil, heard the pitch for funding a new cable network from Bill Rasmussen, a former play-by-play announcer for a minor league hockey team, he had good reason to be skeptical. An all-sports network whose programming would consist of events like slow-pitch softball, Australian-rules football, and day-old college basketball games that couldn't make it on to the major networks? It shouldn't have been a tough call: eight other companies had already said no.

*ESPN College Basketball Encyclopedia* Espn,2009 A comprehensive reference provides historical overviews of all 335 Division 1 teams, season-by-season summaries, ESPN/Sagarin rankings of top-selected college basketball programs, and more.

*A History of Sports Highlights* Ray Gamache, 2010-07-08 This book traces the development and popularity of the sportscast highlight—the dominant news frame in the crowded medium of electronic sports journalism—as the primary means of communicating about sports and athletes. It explores the intricate relationships among media producers, sports leagues and organizations, and audiences, and explains that sportscast highlights are not a recent development, given their prominent use within a news context in every medium from early news film actualities and newsreels to network and cable television to today's new media platforms.

Each highlight clip with its commentary is a mini-story about a game, a player, or a season.
