The Fiscal Dispute Made Easy Or a Key to the Principles Involved in the Opposite Policies

William Hurrell Mallock, 1903

Ethics and Sustainability in Accounting and Finance, Volume II Kıymet Tunca

Çalıyurt, 2020-12-14 This book continues the discussion on recent developments relating to ethical and sustainable issues in accounting & finance from *Ethics and Sustainability in Accounting and Finance, Volume I*. Accounting is often seen as a technical discipline that records, classifies and reports financial transactions. However, since the financial information produced concerns all interest groups both within and outside the enterprise, accounting also has social characteristics and involves multi-faceted duties and responsibilities. As such, in addition to basic principles and accepted rules and standards in the field, this book focuses on the ethical aspects and fundamentals of this profession that accountants should also take into consideration, as this is the only way to build and preserve society's confidence in accounting and increase its social credibility.

Handbook on Business to Business Marketing Gary L. Lilien, Rajdeep Grewal, 2012-01-01 This insightful Handbook provides a comprehensive state-of-the-art review of business-to-business marketing. It supplies an overview and pioneers new ideas relating to the activity of building mutually value-generating relationships between organizations Ð from businesses to government

agencies to not-for-profit organizations and the many individuals within them. Comprising 38 chapters written by internationally renowned scholars, this Handbook presents perspectives of a variety of issue areas from both an academic and a managerial perspective (state of theory and state of practice). The material in this compendium includes theoretical and practical perspectives in business-to-business marketing, marketing mix and strategy, interfirm relationships, personal selling and sales management, technology marketing, and methodological issues central to business-to-business markets. Published in conjunction with Penn State's Institute for the Study of Business Markets, this extensive volume will expand research and teaching in business-to-business marketing in academia and will improve the practice of business-to-business marketing for firms in the industry. This path-breaking Handbook is targeted primarily at marketing academics and graduate students who want a complete overview of the academic state of the business-to-business marketing domain. It will also prove an invaluable resource for forward-thinking business-to-business practitioners who want to be aware of the current state of knowledge in their domains.

From Imagination to Innovation A. Coskun Samli, 2011-08-23 It is impossible to measure the full economic and psychological benefits of the sewing machine, the polio vaccine, or the Internet. What we know is that these products have changed our lives for the better, generating net benefits well beyond the metric of corporate profits. As forces such as financial market volatility and fragmented markets demonstrate the fragility of the global economy, the imperative to develop products and services that contribute to the well-being of the many—rather than the few—is more pronounced than ever. In this book, A. Coskun Samli explores this imperative of an “innovation

culture" and how it can be encouraged at all levels, from the individual to the nation or region. He argues that without a global innovation culture, committed to generating socially valuable products, we are likely to face a deteriorating quality of life, as wealth is concentrated at the top. Integrating insights from management, economics, policy, and psychology, Samli demonstrates how creativity can be channeled into innovation and innovation can be channeled, in turn, toward economic development. He discusses how national policies can be oriented toward encouraging such socially beneficial innovations as sustainable energy, communication technology, and medical discoveries. The aim is to promote the development of products and services that improve quality of life and generate profits for those who invest in them. He argues that all innovations, whether radical or incremental, must demonstrate social value in order to be truly profitable.

New SAP Controlling Planning Interface Martin Munzel, With enhancement package 6, SAP has done some renovation work to a number of CO planning functions as well as master data maintenance. These functions are accessible via the NetWeaver Business Client as well as the Analysis Client which virtually provides a means of uploading plan data from Excel. The following transactions are affected by the renovation: - Primary cost planning for cost centers and projects - Overall cost planning- Activity planning - Master data maintenance for cost centers etc. The new transactions do not only provide a new look-and-feel; with the integration of BW-IP (Integrated Planning) functionality into SAP ERP, you can also show actual figures as well as historical plan data in your planning sheets. This functionality is brand new and has only been implemented for a few SAP clients. This book will provide a visual impression of the improved planning and

maintenance transactions, with both screenshots and videos.

The Commercial Charity Martyn Drake, 2020-04-03
Contrary to popular perception, charities and non-profits now generate over half their total income by selling goods and professional services. Charities of all shapes and sizes are increasingly targeting commercial growth to help fulfil their aims, and commercial income within the sector has doubled since the year 2000. Big opportunities exist, and The Commercial Charity will help any professional in the sector to take advantage of them and increase the social and financial impact of their organization. Using a wealth of examples, The Commercial Charity demonstrates the wider societal benefits of taking a professional approach to commercial income and harnessing business to bring about change. It provides a process for creating a clear, integrated strategy, outlining a methodology for developing ideas and scaling innovations, while providing an ethical model for marketing and selling them. With interviews from leaders of many of the most successful charities including the National Autistic Society, NSPCC and British Asian Trust, this book will show readers how to evolve their organization into a professional, commercially-adept non-profit. Ultimately, readers will learn how to successfully use business principles and techniques not just to raise money, but to create long lasting and self-sustaining social impact.
