

Europe

Serhii Plokyh

The End of Europe James Kirchick,2017-03-07 Once the world's bastion of liberal, democratic values, Europe is now having to confront demons it thought it had laid to rest. The old pathologies of anti-Semitism, populist nationalism, and territorial aggression are threatening to tear the European postwar consensus apart. In riveting dispatches from this unfolding tragedy, James Kirchick shows us the shallow disingenuousness of the leaders who pushed for "Brexit;" examines how a vast migrant wave is exacerbating tensions between Europeans and their Muslim minorities; explores the rising anti-Semitism that causes Jewish schools and synagogues in France and Germany to resemble armed bunkers; and describes how Russian imperial ambitions are destabilizing nations from Estonia to Ukraine. With President Trump now threatening to abandon America's traditional role as upholder of the liberal world order and guarantor of the continent's security, Europe may be alone in dealing with these unprecedented challenges. Based on extensive firsthand reporting, this book is a provocative, disturbing look at a continent in unexpected crisis.

For the Love of Europe Rick Steves,2020-07-07 After 40+ years of writing about Europe, Rick Steves has gathered 100 of his favorite memories together into one inspiring, award-winning collection: *For the Love of Europe: My Favorite Places, People, and Stories*. Join Rick as he's swept away by a fado singer in Lisbon, learns the dangers of falling in love with a gondolier in Venice, and savors a cheese course in the Loire Valley. Contemplate the mysteries of centuries-old stone circles in England, dangle from a cliff in the Swiss Alps, and hear a French farmer's defense of foie gras. With a brand-new, original introduction from Rick reflecting on his decades of travel, *For the Love of Europe* features 100 of the best stories published throughout his career. Covering his adventures through England, France, Germany, Ireland, Italy, the Netherlands, Spain, and more, these are stories only Rick Steves could tell. Wry, personal, and full of Rick's signature humor, *For the Love of Europe* is a fond and inspirational look at a lifetime of travel. Winner of the 2022 Society of American Travel Writers' Lowell Thomas Travel Journalism Award: Best Travel Book, Silver

Democracy in Europe ,1877

The Gates of Europe Serhii Plokhy,2015-12-01 Ukraine is currently embroiled in a tense battle with Russia to preserve its economic and political independence. But today's conflict is only the latest in a long history of battles over Ukraine's existence as a sovereign nation. As award-winning historian Serhii Plokhy argues in *The Gates of Europe*, we must examine Ukraine's past in order to understand its fraught present and likely future. Situated between Europe, Russia, and the Asian East, Ukraine was shaped by the empires that have used it as a strategic gateway between East and West—from the Romans and Ottomans to the Third Reich and the Soviet Union, all have engaged in global fights for supremacy on Ukrainian soil. Each invading army left a lasting mark on the landscape and on the population, making modern Ukraine an amalgam of competing cultures. Authoritative and vividly written, *The Gates of Europe* will be the definitive history of Ukraine for years to come.

The Search for Europe Daron Acemoglu,Alberto Alesina,Christopher J. Bickerton,2016 This volume is now the eighth in the annual series sponsored by BBVA as part of its OpenMind initiative, which is devoted to disseminating knowledge on key issues of our time. *The Search for Europe* analyses the present and future of the old continent and its integration project, surely the most ambitious political and economic integration project ever attempted in history, a benchmark for similar processes in other regions. The book is divided into three main sections: The economic foundations of the European project, Europe and its nations: Politics, society and culture, and The unresolved Limits of Europe and the new global powers. It features pieces written by international experts such as Javier Solana, Barry Eichengreen, Philip Cooke, Bichara Khader, Vivien Ann Schmidt, John Peet and Thomas Christiansen, among others.

The Unsettling of Europe Peter Gatrell,2019-08-27 An acclaimed historian examines postwar migration's fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time, and it has completely decentered European politics in recent years. But as we consider the current refugee crisis, acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move. The end of World War II left Europe in a state of confusion with many Europeans virtually stateless. Later, as former colonial states gained national independence, colonists and their supporters migrated to often-unwelcoming metropolises. The collapse of communism in 1989 marked another fundamental turning point. Gatrell places migration at the center of post-war European history, and the aspirations of migrants themselves at the center of the story of migration. This is an urgent history that will reshape our understanding of modern Europe.

Crusade in Europe Dwight D. Eisenhower,2021-12-14 A classic of World War II literature, an incredibly revealing work that provides a near comprehensive account of the war and brings to life the legendary general and eventual president of the United States. • Gives the reader true insight into the most difficult part of a commander's life. —The New York Times Five-star General Dwight D. Eisenhower was arguably the single most

important military figure of World War II. Crusade in Europe tells the complete story of the war as he planned and executed it. Through Eisenhower's eyes the enormous scope and drama of the war--strategy, battles, moments of great decision--become fully illuminated in all their fateful glory. Penned before his Presidency, this account is deeply human and helped propel him to the highest office. His personal record of the tense first hours after he had issued the order to attack leaves no doubt of his travails and reveals how this great leader handled the ultimate pressure. For historians, his memoir of this world historic period has become an indispensable record of the war and timeless classic.

The Boundaries of Europe Pietro Rossi,2015-04-24 Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

Europe Central William T. Vollmann,2005-11-14 A daring literary masterpiece and winner of the National Book Award In this magnificent work of fiction, acclaimed author William T. Vollmann turns his trenchant eye on the authoritarian cultures of Germany and the USSR in the twentieth century to render a mesmerizing perspective on human experience during wartime. Through interwoven narratives that paint a composite portrait of these two battling leviathans and the monstrous age they defined, Europe Central captures a chorus of voices both real and fictional— a young German who joins the SS to fight its crimes, two generals who collaborate with the enemy for different reasons, the Soviet composer Dmitri Shostakovich and the Stalinist assaults upon his work and life.

Mapping Black Europe Natasha A. Kelly,Olive Vassell,2023-03-31 Black communities have been making major contributions to Europe's social and cultural life and landscapes for centuries. However, their achievements largely remain unrecognized by the dominant societies, as their perspectives are excluded from traditional modes of marking public memory. For the first time in European history, leading Black scholars and activists examine this issue - with first-hand knowledge of the eight European capitals in which they live. Highlighting existing monuments, memorials, and urban markers they discuss collective narratives, outline community action, and introduce people and places relevant to Black European history, which continues to be obscured today.

The Future of Europe Michael Kaeding,Johannes Pollak,Paul Schmidt,2018-06-26 With a Foreword by the President of the European Parliament, Antonio Tajani. This book sheds light on the political dynamics within the EU member states and contributes to the discussions about Europe. Authors from all member states as well as Iceland, Norway, Switzerland and Turkey assess how their country could get more involved in the European debate, taking the reader on a journey through various political landscapes and different views. The chapters cover issues ranging from a perceived lack of ambition at the periphery to a careful balancing act between diverse standpoints at the geographical centre. Yet, discussions share common features such as the anxiety regarding national sovereignty, the migration and border discourse, security concerns as well as the obvious need to regain trust and create policies that work. The book contributes vigorously to the debate about Europe in all capitals and every corner of the continent, because this is where its future will be decided.

Medieval Europe Chris Wickham,2016-10-15 A spirited history of the changes that transformed Europe during the 1,000-year span of the Middle Ages: "A dazzling race through a complex millennium."—Publishers Weekly The millennium between the breakup of the western Roman Empire and the Reformation was a long and hugely transformative period—one not easily chronicled within the scope of a few hundred pages. Yet distinguished historian Chris Wickham has taken up the challenge in this landmark book, and he succeeds in producing the most riveting account of medieval Europe in a generation. Tracking the entire sweep of the Middle Ages across Europe, Wickham focuses on important changes century by century, including such pivotal crises and moments as the fall of the western Roman Empire, Charlemagne's reforms, the feudal revolution, the challenge of heresy, the destruction of the Byzantine Empire, the rebuilding of late medieval states, and the appalling devastation of the Black Death. He provides illuminating vignettes that underscore how shifting social, economic, and political circumstances affected individual lives and international events—and offers both a new conception of Europe's medieval period and a provocative revision of exactly how and why the Middle Ages matter. "Far-ranging, fluent, and thoughtful—of considerable interest to students of history writ large, and not just of Europe."—Kirkus Reviews, (starred review) Includes maps and illustrations

Heart of Europe Peter H. Wilson,2016-04-04 An Economist and Sunday Times Best Book of the Year "Deserves to be hailed as a magnum opus." —Tom Holland, The Telegraph "Ambitious...seeks to rehabilitate the

Holy Roman Empire's reputation by re-examining its place within the larger sweep of European history...Succeeds splendidly in rescuing the empire from its critics." —Wall Street Journal Massive, ancient, and powerful, the Holy Roman Empire formed the heart of Europe from its founding by Charlemagne to its destruction by Napoleon a millennium later. An engine for inventions and ideas, with no fixed capital and no common language or culture, it derived its legitimacy from the ideal of a unified Christian civilization—though this did not prevent emperors from clashing with the pope for supremacy. In this strikingly ambitious book, Peter H. Wilson explains how the Holy Roman Empire worked, why it was so important, and how it changed over the course of its existence. The result is a tour de force that raises countless questions about the nature of political and military power and the legacy of its offspring, from Nazi Germany to the European Union. "Engrossing...Wilson is to be congratulated on writing the only English-language work that deals with the empire from start to finish...A book that is relevant to our own times." —Brendan Simms, The Times "The culmination of a lifetime of research and thought...an astonishing scholarly achievement." —The Spectator "Remarkable...Wilson has set himself a staggering task, but it is one at which he succeeds heroically." —Times Literary Supplement

Readings in Modern European History: Europe since the Congress of Vienna James Harvey Robinson, Charles Austin Beard, 1909

Europe Sandra Newman, 2009 Discusses the continent of Europe, answers questions including wildlife, people, landscapes, history, and Europe today.

Europe and the World, 1650-1830 Professor Jeremy Black, Jeremy Black, 2013-10-08 Europe and the World, 1650-1830 is an important thematic study of the first age of globalisation. It surveys the interaction of Europe, Europe's growing colonies and other major global powers, such as the Ottoman Empire, China, India and Japan. Focusing on Europe's impact on the world, Jeremy Black analyses European attitudes, exploration, trade and acquisition of knowledge.
