

# European

Hutton Webster

**The European Rescue of the Nation-state** Alan S. Milward,2000 Newly revised and updated, this second edition is the classic economic and political account of the origins of the European Community book offers a challenging interpretation of the history of the western European state and European integration.

Faces of Degeneration Daniel Pick,1989 Exploring the historical contexts in France, Italy, and England within which the idea was developed, this text traces the political issues to which the concept of degeneration gave rise during the period from the revolutions of 1848 to the First World War and beyond.

**Readings in Modern European History: Europe since the Congress of Vienna** James Harvey Robinson,Charles Austin Beard,1909

**The European Book in the Twelfth Century** Erik Kwakkel,Rodney Thomson,2018-03-31 The 'long twelfth century' (1075–1225) was an era of seminal importance in the development of the book in medieval Europe and marked a high point in its construction and decoration. This comprehensive study takes the cultural changes that occurred during the 'twelfth-century Renaissance' as its point of departure to provide an overview of manuscript culture encompassing the whole of Western Europe. Written by senior scholars, chapters are divided into three sections: the technical aspects of making books; the processes and practices of reading and keeping books; and the transmission of texts in the disciplines that saw significant change in the period, including medicine, law, philosophy, liturgy, and theology. Richly illustrated, the volume provides the first in-depth account of book production as a European phenomenon.

**Early European History** Hutton Webster,1917 The first twelve chapters of the present work are based upon the author's Ancient history, published four years ago. Suggestions for further study: pages xxiv-xxxv.

**Modern and Contemporary European History** Jacob Salwyn Schapiro,1918

**For the Love of Europe** Rick Steves,2020-07-07 After 40+ years of writing about Europe, Rick Steves has gathered 100 of his favorite memories together into one inspiring, award-winning collection: For the Love of Europe: My Favorite Places, People, and Stories. Join Rick as he's swept away by a fado singer in Lisbon, learns the dangers of falling in love with a gondolier in Venice, and savors a cheese course in the Loire Valley. Contemplate the mysteries of centuries-old stone circles in England, dangle from a cliff in the Swiss Alps, and hear a French farmer's defense of foie gras. With a brand-new, original introduction from Rick reflecting on his decades of travel, For the Love of Europe features 100 of the best stories published throughout his career. Covering his adventures through England, France, Germany, Ireland, Italy, the Netherlands, Spain, and more, these are stories only Rick Steves could tell. Wry, personal, and full of Rick's signature humor, For the Love of Europe is a fond and inspirational look at a lifetime of travel. Winner of the 2022 Society of American Travel Writers' Lowell Thomas Travel Journalism Award: Best Travel Book, Silver

The Unsettling of Europe Peter Gatrell,2019-08-27 An acclaimed historian examines postwar migration's fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time, and it has completely decentered European politics in recent years. But as we consider the current refugee crisis, acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move. The end of World War II left Europe in a state of confusion with many Europeans virtually stateless. Later, as former colonial states gained national independence, colonists and their supporters migrated to often-unwelcoming metropolises. The collapse of communism in 1989 marked another fundamental turning point. Gatrell places migration at the center of post-war European history, and the aspirations of migrants themselves at the center of the story of migration. This is an urgent history that will reshape our understanding of modern Europe.

*The European Anarchy* Goldsworthy Lowes Dickinson,1916

*The Chief Periods of European History* Edward A. Freeman,2020-08-03 Reproduction of the original: The Chief Periods of European History by Edward A. Freeman

*Coping with Tourists* Jeremy Boissevain,1996 Twenty-four papers assess the challenges to developing a systematic framework for understanding and predicting climatic changes and variations. The contributing scientists pull together ad hoc environmental observations, presenting a coherent review of long and short term climate monitoring, direction in future research, and specific aspects of observing such as long term monitoring of the cryosphere, and oceanic observation systems. The volume is reprinted from Climatic Change, v.31, nos.2-4, 1995. Lacks an index. Annotation copyright by Book News, Inc., Portland, OR

*Euro-Visions* Mariana Liz,2016-09-22 European cinema not only occupies a dominant place in film history, it is also a field that has been raising more interest with the expanding work on the transnational. Euro-Visions asks what idea of Europe emerges, is represented and constructed by contemporary European film. Adopting a broad and wide-ranging approach, Euro-Visions mixes political sources, historical documents and filmic texts and offers an integration of policy and economic contexts with textual analysis. Mariana Liz examines costume dramas, biopics and war films, mainstream co-productions and tales of 'Fortress Europe' by renowned auteurs, showing how films from different European nations depict and contribute to the formation of the idea of Europe. Case studies include Girl with a Pearl Earring, La Vie en Rose, Black Book, Good Bye Lenin!, Match Point and The Silence of Lorna.

**Vienna's Dreams of Europe** Katherine Arens,2015-10-22 Vienna's Dreams of Europe puts forward a convincing counter-narrative to the prevailing story of Austria's place in Europe since the Enlightenment. For a millennium, Austrian writers have used images of Europe and its hegemonic culture as their political and cultural reference points. Yet in discussions of Europe's nation-states, Austria appears only as an afterthought, no matter that its precursor states-the Holy Roman Empire, the Austrian Empire, and Austria Hungary-represented a globalized European cultural space outside the dominant paradigm of nationalist colonialism. Austrian writers today confront reunited Europe in full acknowledgment of Austro-Hungary's multicultural heritage, which mixes various nationalities, ethnicities, and cultural forms, including ancestors from the Balkans and beyond. Challenging standard accounts of 18th- through 20th-century European imperial identity construction, Vienna's Dreams of Europe introduces a group of Austrian public intellectuals and authors who have since the 18th century construed their own public as European. Working in different terms than today's theorist-critics of the hegemonic West, Katherine Arens posits a political identity resisting two hundred years of European nationalism.

West European City IIs 179 Robert E Dickinson,2013-11-05 First Published in 1998. Routledge is an imprint of Taylor & Francis, an informa company.

**The Gates of Europe** Serhii Plokhy,2015-12-01 Ukraine is currently embroiled in a tense battle with Russia to preserve its economic and political independence. But today's conflict is only the latest in a long history of battles over Ukraine's existence as a sovereign nation. As award-winning historian Serhii Plokhy argues in The Gates of Europe, we must examine Ukraine's past in order to understand its fraught present and likely future. Situated between Europe, Russia, and the Asian East, Ukraine was shaped by the empires that have used it as a strategic gateway between East and West—from the Romans and Ottomans to the Third Reich and the Soviet Union, all have engaged in global fights for supremacy on Ukrainian soil. Each invading army left a lasting mark on the landscape and on the population, making modern Ukraine an amalgam of competing cultures. Authoritative and vividly written, The Gates of Europe will be the definitive history of Ukraine for years to come.

**The European Union: A Citizen's Guide** Chris Bickerton,2016-05-12 The essential Pelican introduction to the European Union - its history, its politics, and its role today For most of us today, 'Europe' refers to the European Union. At the centre of a seemingly never-ending crisis, the EU remains a black box, closed to public understanding. Is it a state? An empire? Is Europe ruled by Germany or by European bureaucrats? Does a single European economy exist after all these years of economic integration? And should the EU have been awarded the Nobel peace prize in 2012? Critics tell us the EU undermines democracy. Are they right? In this provocative volume, political scientist Chris Bickerton provides an answer to all these key questions and more at a time when understanding what the EU is and what it does is more important than ever before.

*The Brussels Effect* Anu Bradford,2020-01-27 For many observers, the European Union is mired in a deep crisis. Between sluggish growth; political turmoil following a decade of austerity politics; Brexit; and the rise of Asian influence, the EU is seen as a declining power on the world stage. Columbia Law professor Anu Bradford argues the opposite in her important new book *The Brussels Effect*: the EU remains an influential superpower that shapes the world in its image. By promulgating regulations that shape the international business environment, elevating standards worldwide, and leading to a notable Europeanization of many important aspects of global commerce, the EU has managed to shape policy in areas such as data privacy, consumer health and safety, environmental protection, antitrust, and online hate speech. And in contrast to how superpowers wield their global influence, the Brussels Effect - a phrase first coined by Bradford in 2012- absolves the EU from playing a direct role in imposing standards, as market forces alone are often sufficient as multinational companies voluntarily extend the EU rule to govern their global operations. The Brussels Effect shows how the EU has acquired such power, why multinational companies use EU standards as global standards, and why the EU's role as the world's regulator is likely to outlive its gradual economic decline, extending the EU's influence long into the future.

**GENERAL SKETCH OF EUROPEAN HIS** Edward Augustus 1823-1892 Freeman,2016-08-26 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

*Cooperation Among Democracies* Thomas Risse,Thomas Risse-Kappen,1995 In exploring the special nature of alliances among democracies, the author argues that the West European and Canadian allies exerted greater influence on American foreign policy during the Cold War than most analysts assume. This book's findings evaluate the post-Cold War's transatlantic security community and its survival.

The European Union Jonathan Olsen,2020-07-30 Thoroughly revised, the seventh edition of this accessible and highly respected text provides a rigorous yet digestible introduction to the European Union. Additionally, it authoritatively explains developments that continue to bring challenges to this powerful institution in times of great political change. Key features: Clearly covers the history, governing institutions, and policies of the EU; Fully updated with new tables, figures, and photographs; In-text features such as Chapter Overviews, Questions to Consider, and Further Reading encourage deeper research and debate; Sustained discussion of transformative and historical change in the upheaval of Brexit and its ramifications, and the future relationship of the UK with the EU; Through reflection on destabilizing issues such as immigration and the years of refugee crisis in Europe, the continued crisis in the eurozone, tensions with Poland and Hungary, Euroskepticism, Russia, and the rise of populism; Increased coverage throughout of women or minorities within the EU. Jonathan Olsen presents the EU as one of the world's economic and political superpowers, which has brought far-reaching changes to the lives of Europeans and has helped its member states to take a newly assertive role on the global stage. Essential reading for students of European and EU politics, this book offers an up-to-the-minute look at both the opportunities and existential threats facing the EU.
