Cao Fei Fei Cao, Shumon Basar, 2015 No Brave New World! In the interview by Hans Ulrich Obrist accompanying this first comprehensive European publication on her work, the artist, born in 1978 in south China's Guangzhou province, outlines the initial conditions and perceptual requirements for her work. As the daughter of a sculptor, she traveled with her father, who had the privilege of working in Hong Kong and of being able to repeatedly return there, which allowed her to develop quite early on a fundamental interest in Western (pop-) culture, as well as familiarizing her with the corresponding ways of seeing. During her art and film studies, she remained undecided for quite a long time which path she would follow, which is still reflected the hybridity of her work. The book focuses on three of her complex works, which are realized in a both sculptural and cinematic way. With respect to form, Cao Fei delves into the online world of avatars and pop stars, as well as the film world of zombies and the always seemingly rather romantic models, as known from the world of model railways. Produced, in some instances, over several years, the image of a closed oeuvre emerges that taps into a high critical potential--as in »La Town« where in meticulously constructed model parts, plastic figures are cast from one fire disaster to the next; in »Haze and Fog«, where the dead and the living share a city, New Beijing; or in »RMB City«, a »Second World« of artificial set pieces where avatars live, and sometimes even a groovy Marx-figure appears on the scene. In the wake of her invitations to numerous biennials, last in Venice in 2015, Cao Fei's work has attracted great interest; it represents the artistic awakening of young transnational Chinese art: the latter probably because her perception of the molochs, in this case Chinese cities, coincides with the future prospects of

Western societies.

Ng Teng Fong Roof Garden Commission: Cao Fei Sam I-Shan, Cheng Jia Yun, 2023-11-13 This publication spotlights 蔡国强 Fú Chá, a kinetic installation commissioned for the Gallery's Roof Garden series. It includes a curatorial essay on the work by curator Sam I-shan, a poem by the artist Liao Huilan and a series of vignettes by Cao Fei herself.

Parkett No. 99 Nikki Columbus, 2017-03-02 Founded in 1984, Parkett has long been an important source of literature on international contemporary art. Each biannual issue is a collaboration with four artists, in which their work is explored in fully illustrated essays by leading writers and critics. In addition, each artist creates an exclusive limited edition, available to Parkett readers. Recent featured artists include Ed Atkins, Mika Rottenberg, Lee Kit and Theaster Gates (98), Andrea Büttner, Abraham Cruzvillegas, Camille Henrot and Hito Steyerl (97), Marc Camille Chaimowicz, Pamela Rosenkranz, John Waters and Xu Zhen (96), Jeremy Deller, Wael Shawky, Dayanita Singh and Rosemarie Trockel (95). Additional articles include Konrad Bitterli viewing Hubbard/Birchler's latest film trilogy and the paintings of Markus Döbeli (97); Nuria Enguita Mayo on drawings and paintings by Anna Boghiguian; and Julieta González provides an overview of Mexico City's arts institutions (96).

Han Fei Tzu Fei Han, Columbia College (Columbia University), 1964
Representative of the Fuchia, or Legalist, school of philosophy, the writings of Han Fei Tzu (280?-233 B.C.) confront the issues of preserving and strengthening the state. His lessons remain timely as scholars continue to examine the nature and use of power. Burton Watson provides a new preface and

a helpful introduction.

Vanessa-Fei the Girl Who Could Touch the Sky Juanita McCarter

Bryan, 2023-02-28 With children, words often go in one ear and out the other, and even when parents try to give words of encouragement or teach them empathy or lessons on being kind to others, kids don't necessarily digest and hold on to them. We must lead by example. Reading the Vanessa-Fei Series gives children something to look back at and reread when they need to draw strength and inspiration. Vanessa-Fei shows empathy and displays kindness to whomever she meets and leaves them with some inspiration to carry on. Each of the stories in this Series takes the reader on a journey to places they have only dreamed of visiting and lays a strong foundation for social-emotional skills that will also help them to form healthy friendships.

The Invisibility Cloak Ge Fei, 2016-10-11 An NYRB Classics Original The hero of *The Invisibility Cloak* lives in contemporary Beijing—where everyone is doing their best to hustle up the ladder of success while shouldering an ever-growing burden of consumer goods—and he's a loser. Well into his forties, he's divorced (and still doting on his ex), childless, and living with his sister (her husband wants him out) in an apartment at the edge of town with a crack in the wall the wind from the north blows through while he gets by, just, by making customized old-fashioned amplifiers for the occasional rich audio-obsessive. He has contempt for his clients and contempt for himself. The only things he really likes are Beethoven and vintage speakers. Then an old friend tips him off about a special job—a little risky but just don't ask too many questions—and can it really be that this hopeless loser wins? This provocative and seriously funny exercise in the social

fantastic by the brilliantly original Ge Fei, one of China's finest living writers, is among the most original works of fiction to come out of China in recent years. It is sure to appeal to readers of Haruki Murakami and other fabulists of contemporary irreality.

Dao Companion to the Philosophy of Han Fei Paul Goldin, 2012-09-14 Han Fei, who died in 233 BC, was one of the primary philosophers of China's classical era, a reputation still intact despite recent neglect. This edited volume on the thinker, his views on politics and philosophy, and the tensions of his relations with Confucianism (which he derided) is the first of its kind in English. Featuring contributions from specialists in various disciplines including religious studies and literature, this new addition to the Dao Companions to Chinese Philosophy series includes the latest research. It breaks new ground with studies of Han Fei's intellectual antecedents, and his relationship as a historical figure with Han Feizi, the text attributed to him, as well as surveying the full panoply of his thought. It also includes a chapter length survey of relevant scholarship, both in Chinese and Japanese.

The Worlds I See Fei-Fei Li, 2023-11-07 ONE OF BARACK OBAMA'S RECOMMENDED BOOKS ON AI * FINANCIAL TIMES BEST BOOKS OF 2023 From Dr. Fei-Fei Li, one of TIME's 100 MOST INFLUENTIAL in AI, comes a powerful plea for keeping humanity at the centre of our latest technological transformation (Financial Times). Wired called Dr. Fei-Fei Li "one of a tiny group of scientists—a group perhaps small enough to fit around a kitchen table—who are responsible for AI's recent remarkable advances." Known to the world as the creator of ImageNet, a key catalyst of modern artificial intelligence, Dr. Li has spent

more than two decades at the forefront of the field. But her career in science was improbable from the start. As immigrants, her family faced a difficult transition from China's middle class to American poverty. And their lives were made all the harder as they struggled to care for her ailing mother, who was working tirelessly to help them all gain a foothold in their new land. Fei-Fei's adolescent knack for physics endured, however, and positioned her to make a crucial contribution to the breakthrough we now call AI, placing her at the center of a global transformation. Over the last decades, her work has brought her face-to-face with the extraordinary possibilities—and the extraordinary dangers—of the technology she loves. *The Worlds I See* is a story of science in the first person, documenting one of the century's defining moments from the inside. It provides a riveting story of a scientist at work and a thrillingly clear explanation of what artificial intelligence actually is—and how it came to be. Emotionally raw and intellectually uncompromising, this book is a testament not only to the passion required for even the most technical scholarship but also to the curiosity forever at its heart.

The China Order Fei-Ling Wang, 2017-08-07 Examines the rising power of China and Chinese foreign policy through a revisionist analysis of Chinese civilization. What does the rise of China represent, and how should the international community respond? With a holistic rereading of Chinese longue durée history, Fei-Ling Wang provides a simple but powerful framework for understanding the nature of persistent and rising Chinese power and its implications for the current global order. He argues that the Chinese ideation and tradition of political governance and world order—the China Order—is based on an imperial state of Confucian-Legalism as historically

exemplified by the Qin-Han polity. Claiming a Mandate of Heaven to unify and govern the whole known world or tianxia (all under heaven), the China Order dominated Eastern Eurasia as a world empire for more than two millennia, until the late nineteenth century. Since 1949, the People's Republic of China has been a reincarnated Qin-Han polity without the traditional China Order, finding itself stuck in the endless struggle against the current world order and the ever-changing Chinese society for its regime survival and security. Wang also offers new discoveries and assessments about the true golden eras of Chinese civilization, explains the great East-West divergence between China and Europe, and analyzes the China Dream that drives much of current Chinese foreign policy. Fei-Ling Wang is Professor of International Affairs at the Georgia Institute of Technology. His books include *Organizing through Division and Exclusion: China's Hukou System* and *China Rising: Power and Motivation in Chinese Foreign Policy* (coedited with Yong Deng).

From the Soil Hsiao-t'ung Fei, Xiaotong Fei, Gary G. Hamilton, Wang Zheng, 1992-08-28 A lucid and fascinating work about Chinese society and values. Fei's account of how China differs from the West is every bit as telling now as it was when this book was first published almost half a century ago.—Orville Schell What are the fundamental characteristics of Chinese society and how does it differ from the West? In *From the Soil*, China's foremost sociologist offered his insights, based on fieldwork in China and residence in the West, into this fascinating question. Vivid and clearly written, it has long been a classic of Chinese sociology, widely read by Chinese. It is wonderful finally to have it available in English.—David Arkush, University of Iowa

Cyber-Physical Systems Fei Hu, 2013-09-26 Cyber-physical systems (CPSs) have

quickly become one of the hottest computer applications today. With their tight integration of cyber and physical objects, it is believed CPSs will transform how we interact with the physical world, just like the Internet transformed how we interact with one another. A CPS could be a system at multiple scales, from large smart bridges with fluctuation detection and responding functions, to autonomous cars and tiny implanted medical devices. Cyber-Physical Systems: Integrated Computing and Engineering Design supplies comprehensive coverage of the principles and design of CPSs. It addresses the many challenges that must be overcome and outlines a roadmap of how to get there. Emphasizes the integration of cyber computing and physical objects control Covers important CPS theory foundations and models Includes interesting case studies of several important civilian and health care applications that illustrate the CPS design process Addresses the collaboration of the sensing and controlling of a physical system with robust software architecture Explains how to account for random failure events that can occur in a real CPS environment Presented in a systematic manner, the book begins by discussing the basic concept underlying CPSs and examining some challenging design issues. It then covers the most important design theories and modeling methods for a practical CPS. Next, it moves on to sensor-based CPSs, which use embedded sensors and actuators to interact with the physical world. The text presents concrete CPS designs for popular civilian applications, including building and energy management. Reflecting the importance of human health care in society, it includes CPS examples of rehabilitation applications such as virtual reality-based disability recovery platforms.

The China Race Fei-Ling Wang, 2024-02-01 Following its two prequels, *The China Order* (2017) and *The China Record* (2023), this book analyzes the China Race, the global competition for power and leadership between the US-led West and the People's Republic of China. Considering the organizational options and optimality with respect to human civilization, Fei-Ling Wang discusses two alternative world orders: the Westphalian System of international relations and a centralized world political unification. Both are feasible and existed before, but with drastically different desirability. The rising power of the PRC state has consistently and methodically sought to recenter and reorganize the world to safeguard and promote its autocracy and, ultimately, build a world empire. Examining the nature, aims, means, accomplishments, pitfalls and failures of Beijing's foreign policy and the state of and developments in Sinology and the West's China policy, Wang focuses on the existential PRC-USA rivalry and proposes a holistic strategic framework, discussing three ranked objectives, for the West and the world, including the Chinese people, to manage, benefit from, and prevail in the China Race.

China's Gentry Hsiao-tung Fei, Xiaotong Fei, 1980-09-15 These seven essays on the structure of Chinese society are based on articles contributed by Fei to Chinese newspapers in 1947 and 1948. Six case histories from a study of the gentry by Yung-teh Chow are appended. The chief interest and charm of this book lie in the fact that it is not directed to the Western reader; these were studies written in Chinese, by an erudite Chinese, for a Chinese public. . . . Mrs. Redfield is to be complimented for her own careful research in preparing this translation for a non-Chinese public.—Robert F. Spencer, American Anthropologist

Two Heroes of Cathay Luella Miner, 1903

Mastering the Art of Chinese Cooking Eileen Yin-Fei Lo, 2009-10-28 A James Beard and Julia Child Award-winning chef “takes you on an incredible journey as you build your Chinese pantry and master the basics.” (Daniel Boulud, James Beard Award-winning chef, restaurateur, and cookbook author) This masterwork of Chinese cuisine showcases acclaimed chef Eileen Yin-Fei Lo’s decades of culinary virtuosity. A series of lessons build skill, knowledge, and confidence as Lo guides the home cook step by step through the techniques, ingredients, and equipment that define Chinese cuisine. With more than 100 classic recipes and technique illustrations throughout, *Mastering the Art of Chinese Cooking* makes the glories of this ancient cuisine utterly accessible. Stunning photography reveals the treasures of old and new China, from the zigzagging alleys of historical Guangzhou to the bustle of city centers and faraway Chinatowns, as well as wonderful ingredients and gorgeous finished dishes. Step-by-step brush drawings illustrate Chinese cooking techniques. This lavish volume takes its place as the Chinese cookbook of choice in the cook’s library. “Stunning. . . . A comprehensive and educational guide that fulfills the promise of how to master Chinese cooking.” -Publishers Weekly

Fei Xiaotong and Sociology in Revolutionary China R. David Arkush, 2020-03-17 This biographical study of one of China’s leading social scientists follows his life history, and includes a bibliography of his books and articles. Trained in London under Malinowski, Fei Xiaotong achieved eminence in the 1930s and 1940s for his pioneering studies of Chinese peasant life and for his popular articles, which stirred a wide audience in China to an awareness of social and political problems. A non-Marxist who came to

sympathize with the Communists, Fei was gradually constrained in his activities after the Revolution until, in the 1950s, a massive propaganda campaign vilified him as a bourgeois rightist intellectual. Almost twenty years of silence and disgrace followed. Following the death of Mao, Fei suddenly reemerged as a leader in the effort to revitalize the social sciences in China. The story of Fei's life told here is, in a sense, the story of Westernized intellectuals in China at a time of peasant revolution. His writings enunciate the views of a sensitive observer of Chinese and Western society during that period of dramatic change.
