The Midwest Survival Guide Charlie Berens, 2021-11-16 New York Times Bestseller A hilarious full-color guide to Midwestern culture, from comedian and journalist Charlie Berens, creator of the viral comedic series *The Manitowoc Minute* Have you ever had a goodbye lasting more than four hours? Do you lack the emotional capacity to say "I love you" so you just tell your loved ones to "watch out for deer"? Have you apologized to a stranger because she stepped on your foot? If you answered yes to any of these questions, there's a good chance you're a Midwesterner—or a Midwesterner at heart. Even if you answered no, you probably know someone who held the door for you from two football fields away. He likely waved at you and said, "Hey there," like you organized the church bar crawl together. That was a Midwesterner in the wild. We understand that your interaction was strange—but it's likely to get stranger. Don't wait until they stick their head in your second-floor window to invite you over for a perch fry because they climbed on your roof to clean your gutters. There's no need to pull the pepper spray; this species is helpful by nature. And the relationship could be very symbiotic—but only if you let it happen. And that's where this book comes into play. Inspired by my comedy tours across the Midwest and life growing up in Wisconsin, this book is an exploration into my favorite region on Earth. Some may think the Midwest is just a bunch of bland flyover states filled with less diversity than a Monsanto monoculture. But scratch that surface with your buck knife and you'll find rich cultures and traditions proving we're more than just fifty shades of milk. So whether you're a born-and-bred Midwesterner looking to sharpen your skill at apologies or a costal elite visiting the in-laws for the holidays, this book will help you navigate the Midwest, with everything from the best flannel looks to dating and mating rituals (yes, casserole is involved) to climbing the corporate corn silo to how to handle a four-way stop—and every backyard brat fry in between. And for those of you who don't like reading, don't worry—we've got pictures! Toss in illustrations, sidebars, quizzes, and jokes worthy of a supper club stall and *The Midwest Survival Guide* is just the walleye-deep look into this distinctive, beautiful, and bizarre American culture you've been looking for.

D-39 Irene Latham, 2021-05-18 *Klynt's days on her Papa's farm are all the same, even during wartime. Until the robodog, that is.* A dystopic but heartwarming novel-in-verse perfect for fans of Pax by Sara Pennypacker. In a future United States, civil war is devastating a country on its last legs. On

one side: the Patriots. On the other: President Vex's corrupt government. In the middle: everybody else, just trying to survive. The war is going from bad to worse, but out in the sparsely populated Worselands, twelve-year-old Klynt Tovis doesn't see much of it. Instead, Klynt spends most of her long summer days bored, or restoring artifacts in her Museum of Fond Memories. Real pet dogs are a thing of the past: after they were found to be carriers of a sickness the government ordered them all killed. But one day an incredible antique shows up at the farm: a D-39 robodog, Real as a dog can be! Klynt is overjoyed, but the good luck doesn't last. When the war makes its way into the empty Worselands, she and D-39 find themselves thrown into an epic journey for survival and hope. Through the twists and turns of this riveting read, Irene Latham deftly shows how kindness can appear in unexpected places during uncertain times.

Electrical Power System Protection C. Christopoulos, A. Wright, 1999-06-30 The death of Professor Arthur Wright in the summer of 1996 deprived me of a friend and a colleague whose judgement and experience shaped this book. I pay tribute to his contributions to protection and electrical engineering education. In the five years since the first edition appeared, many developments have taken place and it is now necessary to update the book. The use of digital communications and advanced signal processing techniques is now widespread and several fully numeric relays are available from manufacturers. Two new Chapters 13 and 14 have been added to introduce readers to these concepts and associated techniques. Artificial intelligence is making its impact in all engineering applications and power system protection is no exception. Expert systems, fuzzy logic, artificial neural networks, adaptive and integrated protection, synchronized measurements using the global positioning system, genetic algorithms, flexible a.c. transmission systems, are some of the techniques considered in connection with protection. Although many of these techniques have not yet found major application in protection, it is nevertheless essential for the educated protection engineer to have a basic understanding of the underlying principles and methodology so that he, or she, can evaluate their suitability for new relaying problems and applications. Chapter 15 was therefore added to guide readers through this developing area. I have also added some new material in other chapters to reflect changes over the past years.

Joint Statistical Papers of Akahira and Takeuchi Masafumi Akahira, Kei Takeuchi, 2003

Masafumi Akahira and Kei Takeuchi have collaborated in research on mathematical statistics for nearly thirty years and have published many articles and papers. This volume is a collection of their papers, some published in well-known and others in lesser-known journals. The papers cover various fields, but the main subject is the theory of estimation -- asymptotic, non-regular, sequential, etc. All the papers are theoretical in nature, but have implications for applied problems.

Milwaukee Television History Dick Golembiewski, 2008 Milwaukee - not New York, Chicago or Los Angeles was the scene of a number of television firsts: The Journal Company filed the very first application for a commercial TV license with the FCC in 1938. The first female program director and news director in a major market were both at Milwaukee stations. The city was a major battleground in the VHF vs. UHF war that began in the 1950s. The battle to put an educational TV station on the air was fought at the national, state and local levels by the Milwaukee Vocational School. WMVS-TV was the first educational TV station to run a regular schedule of colorcasts, and WMVT was the site of the first long-distance rest of a digital over-the-air signal. This detailed story of the rich history of the city's television stations since 1930 is told through facts, anecdotes, and quotations from the on-air talent, engineers, and managers who conceived, constructed, and put the stations on the air. Included are discussions of the many locally-produced shows - often done live - that once made up a large part of a station's broadcast day. Through these stories - some told here for the first time - and the book's extensive photographic images, the history of Milwaukee television comes alive again for the reader. From the first early tests using mechanical scanning methods in the 1930s, through the first successful digital television tests, the politics, conflicts, triumphs, and failures of Milwaukee's television stations are described in fascinating detail. --Book Jacket.

Riverchase Heather Jones Skaggs, 2016-11-07 If residents of the original c. 1900s mining town of Acton, Alabama, looked into the future, would they have imagined that the area would develop into the multimillion-dollar planned community it is today? In the late 1960s, John M. Harbert III (1921-1995), founder of Harbert Corporation, saw tremendous potential for land in Acton owned by the Chace brothers. In 1974, the Harbert Corporation partnered with Equitable Life Assurance Society of the United States to form Harbert-Equitable Joint Venture, Riverchase. This plan was not a concrete jungle of homes and businesses. The venture called for a careful blending of new development with its surrounding natural landscape. This plan spoke to man's need to be part of nature, albeit in a new and responsible way. Today, Riverchase is a picturesque community steeped in land preservation, business development, and community pride. The story of Riverchase is conveyed through the memories of its residents in *Images of Modern America: Riverchase*.
