Stuart Shea, Robert Rodriguez

Fab Howard Sounes, 2010-10-26 Howard Sounes, the bestselling author of *Down the Highway: The Life of Bob Dylan* and *Charles Bukowski: Locked in the Arms of a Crazy Life*, turns his considerable reporting and storytelling skills to one of the most famous, talented-and wealthiest-men alive: Paul McCartney. *Fab* is the first exhaustive biography of the legendary musician; it tells Sir Paul's whole life story, from childhood to present day, from working-class Liverpool beginnings to the cultural phenomenon that was The Beatles to his many solo incarnations. *Fab* is the definitive portrait of McCartney, a man of contradictions and a consummate musician far more ruthless, ambitious, and moody than his relaxed public image implies. Based on original research and more than two hundred new interviews, *Fab* also reveals for the first time the full story of his two marriages, romances, family feuds, phenomenal wealth, and complex relationships with his fellow ex-Beatles.

Fab Neil Gershenfeld, 2008-07-31 What if you could someday put the manufacturing power of an automobile plant on your desktop? It may sound far-fetched-but then, thirty years ago, the notion of personal computers in every home sounded like science fiction. According to Neil Gershenfeld, the renowned MIT scientist and inventor, the next big thing is personal fabrication -the ability to design and produce your own products, in your own home, with a machine that combines consumer electronics with industrial tools. Personal fabricators (PF's) are about to revolutionize the world just as personal computers did a generation ago. PF's will bring the programmability of the digital world to the rest of the world, by being able to make almost anything-including new personal fabricators. In *FAB* , Gershenfeld describes how personal fabrication is possible today, and how it

is meeting local needs with locally developed solutions. He and his colleagues have created fab labs around the world, which, in his words, can be interpreted to mean a lab for fabrication, or simply a fabulous laboratory. Using the machines in one of these labs, children in inner-city Boston have made saleable jewelry from scrap material. Villagers in India used their lab to develop devices for monitoring food safety and agricultural engine efficiency. Herders in the Lyngen Alps of northern Norway are developing wireless networks and animal tags so that their data can be as nomadic as their animals. And students at MIT have made everything from a defensive dress that protects its wearer's personal space to an alarm clock that must be wrestled into silence. These experiments are the vanguard of a new science and a new era—an era of post-digital literacy in which we will be as familiar with digital fabrication as we are with the of information processing. In this groundbreaking book, the scientist pioneering the revolution in personal fabrication reveals exactly what is being done, and how. The technology of FAB will allow people to create the objects they desire, and the kind of world they want to live in.

Paul McCartney Peter Ames Carlin, 2009-11-03 From the acclaimed biographer who brought you the rock biography of Bruce Springsteen comes the life of musician Paul McCartney—from his groundbreaking years with the Beatles to Wings to his work as a solo artist and activist. More than a rock star, more than a celebrity, Paul McCartney is a cultural touchstone who helped transform popular music as one half of the legendary Lennon-McCartney songwriting duo. In this definitive biography, Peter Ames Carlin examines McCartney's entire life, casting new light not just on the Beatles era but also on his years with Wings and his thirty-year relationship with his first

wife, Linda McCartney. He takes us on a journey through a tumultuous couple of decades in which Paul struck out on his own as a solo artist, reached the top of the charts with a new band, and once again drew hundreds of thousands of screaming fans to his concerts. Carlin presents McCartney as a musical visionary but also as a layered and conflicted figure as haunted by his own legacy—and particularly his relationship with John Lennon—as he was inspired by it. Built on years of research and fresh, revealing interviews with friends, bandmates, and collaborators spanning McCartney's entire life, Carlin's lively biography captures the many faces of the living legend.

My Life as a Goddess Guy Branum, 2019-06-18 “Smart, fast, clever, and funny (As f*ck!)” (Tiffany Haddish), this collection of side-splitting and illuminating essays by the popular stand-up comedian, alum of *Chelsea Lately* and *The Mindy Project*, and host of truTV’s *Talk Show the Game Show* is perfect for fans of the New York Times bestsellers *Why Not Me?* by Mindy Kaling and *We Are Never Meeting in Real Life* by Samantha Irby. From a young age, Guy Branum always felt as if he were on the outside looking in. From a stiflingly boring farm town, he couldn’t relate to his neighbors. While other boys played outside, he stayed indoors reading Greek mythology. And being gay and overweight, he got used to diminishing himself. But little by little, he started learning from all the sad, strange, lonely outcasts in history who had come before him, and he started to feel hope. In this “singular, genuinely ballsy, and essential” (Billy Eichner) collection of personal essays, Guy talks about finding a sense of belonging at Berkeley—and stirring up controversy in a newspaper column that led to a run-in with the Secret Service. He recounts the pitfalls of being typecast as the “Sassy Gay Friend,” and how, after taking a wrong turn in life (i.e. law school), he found stand-up comedy and artistic freedom. He analyzes society’s calculated deprivation of personhood from fat people, and how, though it’s taken him a while to accept who he is, he has learned that with a little patience and a lot of humor, self-acceptance is possible. “Keenly observant and intelligent, Branum’s book not only offers uproarious insights into walking paths less traveled, but also into what self-acceptance means in a world still woefully intolerant of difference” (Kirkus Reviews, starred review). *My Life as a Goddess* is an unforgettable and deeply moving book by one of today’s most

endearing and galvanizing voices in comedy.

The Trick to Money is Having Some Stuart Wilde, 1995-03-07 Money making is not a serious business. It is a game that you play. At first it may seem that it is a game that you play with forces outside yourself--the economies of the market place so to speak--but as you proceed you discover it is actually a game you play with yourself.--Stuart Wilde. Like his other highly successful books, this work is full of useful information. His breezy and comical style make for effortless reading, as you plot your path to complete financial freedom.

Fab Four Friends Susanna Reich, 2015-08-18 In 1957 in Liverpool, England, a young lad named John Lennon and his band played music at a local church fair. In the audience was Paul McCartney, who liked what he heard and soon joined the group. Paul's friend George Harrison kept showing up at rehearsals until the older boys finally let him in. Eventually they found the perfect drummer, Ringo Starr, and the perfect name: The Beatles. Told through a lyrical text and stunning paintings, this book spotlights four ordinary boys growing up amid the rubble of postwar England who found music to be a powerful, even life-saving, force.
