The Factory Hiroko Oyamada,2019-10-29 The English-language debut of Hiroko Oyamada—one of the most powerfully strange young voices in Japan The English-language debut of one of Japan's most exciting new writers, *The Factory* follows three workers at a sprawling industrial factory. Each worker focuses intently on the specific task they've been assigned: one shreds paper, one proofreads documents, and another studies the moss growing all over the expansive grounds. But their lives slowly become governed by their work—days take on a strange logic and momentum, and little by little, the margins of reality seem to be dissolving: Where does the factory end and the rest of the world begin? What's going on with the strange animals here? And after a while—it could be weeks or years—the three workers struggle to answer the most basic question: What am I doing here? With hints of Kafka and unexpected moments of creeping humor, *The Factory* casts a vivid—and sometimes surreal—portrait of the absurdity and meaninglessness of the modern workplace.

Factory Physics Wallace J. Hopp,Mark L. Spearman,2001 Publisher Description

The Hope Factory Lavanya Sankaran,2013 Anand, the proud owner of a small factory, finds his future uncertain when it collides with urban forces out of his control and a woman named Kamala who is determined to make a better life for her son.

The Doll Factory Elizabeth Macneal,2019-08-13 In this “sharp, scary, gorgeously evocative tale of love, art, and obsession” (Paula Hawkins, bestselling author of *The Girl on the Train*), a beautiful young woman aspires to be an artist, while a man’s dark obsession may destroy her world forever. *The Doll Factory* is a sweeping tale of curiosity, love, and possession set among all the sordidness and soaring ambition of 1850s London. The greatest spectacle London has ever seen is being erected in Hyde Park and, among the crowd watching, two people meet. For Iris, an aspiring artist of unique beauty, it is the encounter of a moment—forgotten seconds later—but for Silas, a curiosity collector enchanted by the strange and beautiful, the meeting marks a new beginning. When Iris is asked to model for Pre-Raphaelite artist Louis Frost, she agrees on the condition that he will also teach her to paint, and suddenly her world expands beyond anything she ever dreamed of. But she has no idea that evil stalks her. Silas, it seems, has thought of only one thing since that chance meeting, and his obsession is darkening by the day...

The Idea Factory Jon Gertner,2013-02-26 The definitive history of America’s greatest incubator of innovation and the birthplace of some of the 20th century’s most influential technologies “Filled with colorful characters and inspiring lessons . . . The Idea Factory explores one of the most critical issues of our time: What causes innovation?” —Walter Isaacson, *The New York Times Book Review* “Compelling . . . Gertner's book offers fascinating evidence for those seeking to understand how a society should best invest its research resources.” —*The Wall Street Journal* From its beginnings in the 1920s until its demise in the 1980s, Bell Labs-officially, the research and development wing of AT&T-was the biggest, and arguably the best, laboratory for new ideas in the world. From the transistor to the laser, from digital communications to cellular telephony, it's hard to find an aspect of modern life that hasn't been touched by Bell Labs. In *The Idea Factory*, Jon Gertner traces the origins of some of the twentieth century's most important inventions and delivers a riveting and heretofore untold chapter of American history. At its heart this is a story about the life and work of a small group of brilliant and eccentric men-Mervin Kelly, Bill Shockley, Claude Shannon, John Pierce, and Bill Baker-who spent their careers at Bell Labs. Today, when the drive to invent has become a mantra, Bell Labs offers us a way to enrich our understanding of the challenges and solutions to technological innovation. Here, after all, was where the foundational ideas on the management of innovation were born.

Factory Made Steven Watson,2003-10-21 *Factory Made: Warhol and the Sixties* is a fascinating look at the avant-garde group that came together—from 1964 to 1968—as Andy Warhol’s Silver Factory, a cast that included Lou Reed, Nico, Edie Sedgwick, Gerard Malanga, Paul Morrissey, Joe Dallesandro, Billy Name, Candy Darling, Baby Jane Holzer, Brigid Berlin, Ultra Violet, and Viva. Steven Watson follows their diverse lives from childhood through their Factory years. He shows how this ever-changing mix of artists and poets, musicians and filmmakers, drag queens, society figures, and fashion models, all interacted at the Factory to create more than 500 films, the Velvet Underground, paintings and sculpture, and thousands of photographs. Between 1961 and 1964 Warhol produced his most iconic art: the Flower paintings, the Marilyns, the Campbell’s Soup Can paintings, and the Brillo Boxes. But it was his films—*Sleep*, *Kiss*, *Empire*, *The Chelsea Girls*, and *Vinyl*—that constituted his most prolific output in the mid-1960s, and with this book Watson points up the important and little-known interaction of the Factory with the New York avant-garde film world. Watson sets his story in the context of the revolutionary milieu of 1960s New York: the opening of Paul Young’s *Paraphernalia*, Truman Capote’s *Black and White Ball*, Max’s *Kansas City*, and the *Beautiful People Party* at the Factory, among many other events. Interspersed throughout are Watson’s trademark sociogram, more than 130 black-and-white photographs—some never before seen—and many sidebars of quotes and slang that help define the Warholian world. With *Factory Made*, Watson has focused on a moment that transformed the art and style of a generation.

The Planet Factory Elizabeth Tasker,2017-09-07 Forget about rockets to Mars – the future of space science lies with the search for exoplanets Twenty years ago, the search for planets outside the Solar System was the preserve of science-fiction writers. Now it's one of the fastest-growing fields in astronomy, with thousands of exoplanets discovered to date, and the number rising fast. These new-found worlds are more alien than anything in fiction. Planets larger than Jupiter with years lasting a week; others with two suns lighting their skies, or with no sun at all. Planets with diamond mantles supporting oceans of tar; possible Earth-sized worlds with split hemispheres of perpetual day and night; waterworlds drowning under global oceans and volcanic lava planets awash with seas of magma. The discovery of this diversity is just the beginning. There is a whole galaxy of possibilities. *The Planet Factory* tells the story of these exoplanets. What can we learn about these faraway surface environments and planetary atmospheres? And do the results hint at the tantalising possibility of alien life?

Aspirations and Anxieties David A. Zonderman,1992-01-02 *Aspirations and Anxieties* is a working class intellectual history of early factory operatives in antebellum New England. The book focuses on the operatives' perceptions of technological and socio-economic changes in the mechanized workplace. The study uncovers a complex debate over many facets of the factory system--the machines and factory buildings, wages and hours, relations between managers and workers, and the content and character of protest. Finally, the book argues that the roots of this debate lie in the struggle to define the meaning of work itself in a period of profound social change.

The Black and White Factory Eric Telchin,2016-08-30 Introducing *The Black and White Factory*, an interactive and entertaining picture book in the vein of Hervé Tullet's *Press Here* and *Mix It Up!* Welcome to the Black and White Factory! Penguin, zebra, and panda will take you on a top-secret tour to see some black and white products that are made here, like salt and pepper shakers, dice, half decks of playing cards (only spades and clubs!), chess pieces, and tuxedos, in addition to a few special experimental projects. There are a few rules, though: No messes. No colors. No surprises allowed. EVER. But when the tour gets to the bar code room, some color has seeped in! It's up to the reader to try and rub it off and tilt the book so that it comes off, but nothing works! The animals then use a giant cleaning contraption and need you to help blow into the nozzle to power the machine, and it starts to work! But there's too much color to clean, and it blows color all over the factory. And the animals love it! But of course, they'll have to change the rules a bit now: messes, colors, surprises allowed. forEVER!

Factory Lives James R. Simmons, Jr,2007-04-10 Factory Lives contains four works of great importance in the field of nineteenth-century working-class autobiography: John Brown's A Memoir of Robert Blincoe; William Dodd's A Narrative of the Experience and Sufferings of William Dodd; Ellen Johnston's "Autobiography"; and James Myles's Chapters in the Life of a Dundee Factory Boy. This Broadview edition also includes a remarkably rich selection of historical documents that provide context for these works. Appendices include contemporary responses to the autobiographies, debates on factory legislation, transcripts of testimony given before parliamentary committees on child labour, and excerpts from literary works on factory life by Harriet Martineau, Frances Trollope, and Elizabeth Barrett Browning, among others.

The Magic Factory (Oliver Blue and the School for Seers—Book One) Morgan Rice,2018-11-21 "A powerful opener to a series [that] will produce a combination of feisty protagonists and challenging circumstances to thoroughly involve not just young adults, but adult fantasy fans who seek epic stories fueled by powerful friendships and adversaries." --Midwest Book Review (Diane Donovan) (re A Throne for Sisters) "Morgan Rice's imagination is limitless!" --Books and Movie Reviews (re A Throne for Sisters) From USA Today and #1 bestselling fantasy author Morgan Rice comes a new fantasy series for teens and adults. THE MAGIC FACTORY: OLIVER BLUE AND THE SCHOOL FOR SEERS (BOOK ONE) tells the story of one very special boy, Oliver Blue, different than those around him and unloved by his hateful family. Obsessed with inventions, Oliver is determined to escape his horrible life and make his mark on the world. When Oliver's family moves again, to another awful house and school, he is bullied and excluded, and sees no way out. But when he stumbles across an abandoned invention factory, he wonders if this could be his way out. Who is the mysterious old inventor hiding in the factory? What is his secret invention? And might this factory be a portal to somewhere else? An inspiring fantasy, THE MAGIC FACTORY is book #1 in a riveting new series filled with magic, love, humor, heartbreak, tragedy, destiny, and a series of shocking twists. It will make you fall in love with Oliver Blue, and keep you turning pages late into the night. Book #2 in the series (THE ORB OF KANDRA) and Book #3 (THE OBSIDIANS) are now also available! "The beginnings of something remarkable are there." --San Francisco Book Review (re A Quest of Heroes)

Factory Man Beth Macy,2014-07-15 The instant New York Times bestseller about one man's battle to save hundreds of jobs by demonstrating the greatness of American business. The Bassett Furniture Company was once the world's biggest wood furniture manufacturer. Run by the same powerful Virginia family for generations, it was also the center of life in Bassett, Virginia. But beginning in the 1980s, the first waves of Asian competition hit, and ultimately Bassett was forced to send its production overseas. One man fought back: John Bassett III, a shrewd and determined third-generation factory man, now chairman of Vaughan-Bassett Furniture Co, which employs more than 700 Virginians and has sales of more than \$90 million. In Factory Man, Beth Macy brings to life Bassett's deeply personal furniture and family story, along with a host of characters from an industry that was as cutthroat as it was colorful. As she shows how he uses legal maneuvers, factory efficiencies, and sheer grit and cunning to save hundreds of jobs, she also reveals the truth about modern industry in America.

Making Conversation Fred Dust,2020-12-01 A former Senior Partner and Global Managing Director at the legendary design firm IDEO shows how to design conversations and meetings that are creative and impactful. Conversations are one of the most fundamental means of communicating we have as humans. At their best, conversations are unconstrained, authentic and open—two or more people sharing thoughts and ideas in a way that bridges our individual experiences, achieves a common goal. At their worst, they foster misunderstanding, frustration and obscure our real intentions. How often do you walk away from a conversation feeling really heard? That it moved the people in it forward in some important way? You're not alone. In his practice as a designer, Fred Dust began to approach conversations differently. After years of trying to broker communication between colleagues and clients, he came to believe there had to be a way to design the art of conversation itself with intention and purpose, but still artful and playful. Making Conversation codifies what he learned and outlines the seven elements essential to successful exchanges: Commitment, Creative Listening, Clarity, Context, Constraints, Change, and Create. Taken together, these seven elements form a set of resources anyone can use to be more deliberate and purposeful in making conversations work.

The Apocalypse Factory: Plutonium and the Making of the Atomic Age Steve Olson,2020-07-28 A thrilling narrative of scientific triumph, decades of secrecy, and the unimaginable destruction wrought by the creation of the atomic bomb. It began with plutonium, the first element ever manufactured in quantity by humans. Fearing that the Germans would be the first to weaponize the atom, the United States marshaled brilliant minds and seemingly inexhaustible bodies to find a way to create a nuclear chain reaction of inconceivable explosive power. In a matter of months, the Hanford nuclear facility was built to produce and weaponize the enigmatic and deadly new material that would fuel atomic bombs. In the desert of eastern Washington State, far from prying eyes, scientists Glenn Seaborg, Enrico Fermi, and many thousands of others—the physicists, engineers, laborers, and support staff at the facility—manufactured plutonium for the bomb dropped on Nagasaki, and for the bombs in the current American nuclear arsenal, enabling the construction of weapons with the potential to end human civilization. With his characteristic blend of scientific clarity and storytelling, Steve Olson asks why Hanford has been largely overlooked in histories of the Manhattan Project and the Cold War. Olson, who grew up just twenty miles from Hanford's B Reactor, recounts how a small Washington town played host to some of the most influential scientists and engineers in American history as they sought to create the substance at the core of the most destructive weapons ever created. The Apocalypse Factory offers a new generation this dramatic story of human achievement and, ultimately, of lethal hubris.

The Potato Factory Bryce Courtenay,2010 Ikey Solomon is in the business of thieving and he's very good at it. Ikey's partner in crime is his mistress, the forthright Mary Abacus, until misfortune befalls them. They are parted and each must make the harsh journey from thriving nineteenth century London to the convict settlement of Van Diemen's Land. In the backstreets and dives of Hobart Town, Mary learns the art of brewing and builds The Potato Factory, where she plans a new future. But her ambitions are threatened by Ikey's wife, Hannah, her old enemy. The two women raise their separate families, one legitimate and the other bastard. As each woman sets out to destroy the other, the families are brought to the edge of disaster.

The Bass Factory Lane Walker,2023-12-15 Rock Conrad was set to begin the best and final year of his high school education, but a freak accident changes everything, including Polk High's fishing dream team. Aligned to Common Core Standards and correlated to state standards. Chapter Books is an imprint of Spotlight, a division of ABDO.

The Mirage Factory Gary Krist,2019-05-14 From bestselling author Gary Krist, the story of the metropolis that never should have been and the visionaries who dreamed it into reality Little more than a century ago, the southern coast of California—bone-dry, harbor-less, isolated by deserts and mountain ranges—seemed destined to remain scrappy farmland. Then, as if overnight, one of the world's iconic cities emerged. At the heart of Los Angeles' meteoric rise were three flawed visionaries: William Mulholland, an immigrant ditch-digger turned self-taught engineer, designed the massive aqueduct that would make urban life here possible. D.W. Griffith, who transformed the motion picture from a vaudeville-house novelty into a cornerstone of American culture, gave L.A. its signature industry. And Aimee Semple McPherson, a charismatic evangelist who founded a religion, cemented the city's identity as a center for spiritual exploration. All were masters of their craft, but also illusionists, of a kind. The images they conjured up—of a blossoming city in the desert, of a factory of celluloid dreamworks, of a community of seekers finding personal salvation under the

California sun—were like mirages liable to evaporate on closer inspection. All three would pay a steep price to realize these dreams, in a crescendo of hubris, scandal, and catastrophic failure of design that threatened to topple each of their personal empires. Yet when the dust settled, the mirage that was LA remained. Spanning the years from 1900 to 1930, The Mirage Factory is the enthralling tale of an improbable city and the people who willed it into existence by pushing the limits of human engineering and imagination.
