Rating Scales in Parkinson's Disease Cristina Sampaio,Christopher G.

Goetz,Anette Schrag,2012-06-28 For many years, the need to develop valid tools to evaluate signs and symptoms of Parkinson Disease (PD) has been present. However the understanding of all intricacies of rating scales development was not widely available and the first attempts were relatively crude. In 2002, the Movement Disorders Society created

a task force to systemize the measurement of Parkinson's Disease. Since then, the Task Force has produced and published several critiques to the available rating scales addressing both motor and non-motor domains of Parkinson Disease. Additionally the task force initiated a project to develop a new version of the UPDRS, the MDS-UPDRS. But none of this was made available in one convenient source. Until now. Rating Scales in Parkinson's Disease is written for researchers from the medical and social sciences, and for health professionals wishing to evaluate the progress of their patients suffering from Parkinson Disease. The book is both exhaustive in the description of the scales and informative on the advantages and limitations of each scale. As such, the text clearly guides readers on how to choose and use the instruments available. Extensive cross-referenced tables and charts closely integrate the parts of the book to facilitate readers in moving from one symptom domain to another.

The Ultimate Conquest ,2018-11-28 Over the last seven years, the FAI family has been laying foundations where there are none (Romans 15:20) in some of the most difficult places on earth. Written as a companion piece to our seventh film (The Frontier), The Ultimate Conquest is an intimate look at the lives of these pioneers and a gripping exploration of the privilege and the cost of laboring on the remaining fields of unreached and unengaged people groups. The Ultimate Conquest, in addition to its companion film The Frontier, brings to life the incredible story of Hudson Taylor and the China Inland Mission in relation to its impact on the Frontier Alliance International family. Apart from Scripture, no single individual has played a more influential role in the formation of the vision and values of FAI than Taylor and the China Inland Mission. Frontier Alliance International invites you into the heart of China to encounter one of the greatest visionary pioneers in history; what convictions drove Hudson Taylor, what values shaped his own family and organization, and how we can glean from the legacies and strategies of those who've gone before us as we carry this great and holy task in our own generation-the proclamation of the Gospel of the Kingdom in every tribe, tongue, people, and nation.
