Falcon Helen Macdonald, 2006-03-15 A sacred god, a military tool, an erotic symbol: the falcon is a natural wonder of speed, power, beauty, and ferocity that has become embedded in human cultures in myriad ways. Helen Macdonald's *Falcon* examines the diverse symbolism and roles attached to the falcon throughout the centuries. Macdonald presents a cultural and natural history of the falcon that spans the globe and several millennia. Her wide-ranging survey considers the many facets of the falcon, including conservation efforts; the sport of falconry; and the use of falcons in secret military projects by the Third Reich and the U.S. space program. *Falcon* also explores the rich imagery of the falcon over history, including the veneration of falcons as gods in ancient Egypt, their role in erotic stories, and even the use of falcons in advertising to promote photocopiers and jet planes. Filled with illustrations and a wealth of fascinating facts, *Falcon* will be an enjoyable guide for ornithologists, amateur birdwatchers, and nature lovers alike.

Falcon in the Glass Susan Fletcher, 2014-07-29 Eleven-year-old Renzo must teach himself to blow glass with the help of a girl who has a mysterious connection to her falcon--

The Prairie Falcon Stanley H. Anderson, John R. Squires, 2014-10-03 Skillful hunters beautiful in flight, Prairie Falcons inhabit the rocky cliffs of the American West. These raptors range from southern Canada and northern North

Dakota to Baja California, Arizona, New Mexico, western and northern Texas, and southeastern Coahuila, Mexico. This is the first book for a wide audience devoted exclusively to the Prairie Falcon. Stanley Anderson and John Squires cover all aspects of the falcon's life history from mating and rearing young to hunting behaviors and the yearly migration cycle. They provide complete descriptive characteristics for identifying Prairie Falcons and also compare them to other raptors, especially the closely related Peregrine Falcon. In addition, the authors recount the long association of falcons with people, which may extend back as far as 2000 BC. They describe the practice of falconry from the Middle Ages until today. And they assess the threats to Prairie Falcons posed by human activities, from pesticide use and destruction of habitat to disruption of the breeding cycle by careless birdwatchers.

Millennium Falcon Ryder Windham, 2010 A tribute to the favorite Star Wars ship provides layer-by-layer analyses of the Millennium Falcon's features, from laser cannons and cockpit controls to smuggling bays and Han Solo's speed modifications. On board pages.

The Falcons of the World Tom J. Cade, 1982 The falcon's approach to perfection of form and function has engendered a universal fascination for these superb predators. This book is both a comparative study of falcons, and a celebration of these most masterful of all avian hunters.

The Peregrine Falcon Derek Ratcliffe, 2010-10-30 The first edition of The Peregrine Falcon was widely recognised as a classic of its kind, documenting

not only the species' biology but also the sad tale of its decline due to the impact of pesticides. This extensively revised and enlarged second edition takes full account of important new developments in the story of this bird during the intervening 12 years. It reports one of the few notable successes in wildlife conservation: the full restoration of British and Irish Peregrine populations, and their appreciable recovery in other countries where numbers had also been greatly reduced by the impact of organochlorine pesticides. The pattern of increase in Britain has been extremely varied, from districts where numbers are now far higher than at any time in recorded history, to others where the bird is now at its lowest ebb. The examination of the reasons for these differences helps us to understand the most recent developments in the Peregrine saga. Particular attention has been paid to the recent major advances in our knowledge of Peregrine biology, such as its movements, population turnover, food and nesting habits. Many of the tables and figures have been revised and brought up to date so that this volume, like its predecessor, is once again by far the most detailed and readable reference on this most evocative of birds. Donald Watson's colour paintings, monochrome washes and line drawings, and the original photographs, illustrate the book as before. Cover illustration by Donald Watson

Falcon Fever Tim Gallagher, 2009-05-22 What is so compelling about falconry? Tim Gallagher mines his lifelong obsession with falcons for an answer in this engaging book interweaving memoir, history, and travelogue. A fascinating

subculture of the ancient sport of falconry exists outside the mainstream of American society. Obsessed individuals train and speak in the same manner used by falconers for centuries. One of the legendary figures in that ancient world was Frederick II, the thirteenth-century Holy Roman Emperor and notorious freethinker who brought the full wrath of the medieval church down upon his dynasty. Gallagher sees parallels between his own life and that of Frederick II, and while following in Frederick's footsteps through southern Italy, he ponders the passion for falconry that ignited within him at the age of twelve. Beset by a turbulent childhood and dominated by a brutal and violent father, Gallagher turned to the sport for emotional release and found much more. Falcon Fever provides a rare glimpse into contemporary falconry, and at the same time offers a surprisingly frank and revealing personal story. Book jacket.

Peregrine Falcon Patrick Stirling-Aird, 2015-02-26 Reaching speeds in excess of 200 miles per hour, the Peregrine Falcon is famous as the world's fastest bird. However, its penchant for choosing inaccessible places to breed, feed and roost mean that few people are well acquainted with its habits and behaviour. This ebook offers a window into that rarely seen world, thanks to a combination of high quality images and beautifully written text, with chapters on subjects such as hunting, raising young and how populations around the world have rallied against the threat of extinction and are now prospering once again. The birds are further brought to life through a series

of personal anecdotes from the author and photographers, which are woven into the text. The ebook is part of a series that also includes the titles Barn Owl and Kingfisher.

Falcon Wild Terry Lynn Johnson, 2017-09-19 An action-packed, contemporary novel about surviving in the wilderness. Thirteen-year-old Karma is desperate to become a certified falconer. At her dad's bird education center, she helps give demonstrations to guests and can fly the birds. But when her favorite rescued falcon, Stark, hurts Karma, her parents insist that they return the bird to its previous owner--in Canada. On the way to bring Stark back, a car accident in the middle of nowhere leaves Karma's dad trapped, and it's up to Karma to find a way to rescue him and her younger brother. When Karma loses her way trying to get help, she crosses paths with Cooper, a troubled teenaged boy. Lost for three days, the two figure out how to survive, and Karma teaches Stark to hunt like an actual bird of prey. Karma may be closer than she thinks to becoming a real falconer and having a real friend.

White Falcon Elliott Arnold, 2016-10-27 This book tells the true story of a frontier boy, John Tanner, who became the courageous leader of the Chippewa Indians and played an important part in the struggle for control of the fur trade in Northwest. Captured by two Ojibwa Indians as a child in 1789 from present-day Kentucky and carried north into the Michigan Territory, John Tanner was allowed to live but was badly mistreated; although a capable, adaptive boy, the more he tried to be Indian the more he was rejected for

being white. Then, two years later, Netnokwa, retiring chieftess of the tribe, adopted him and took him with her to live with the Chippewas. Life became socially easier and John's natural abilities made him a leader. Rivalries ensued, both personal ones and those of the fur trading companies, but ultimately John makes his name in helping Selkirk with the Red River settlement. A gripping read.

The Feather of Finist the Falcon Anonymous, 2020-09-28 ONCE, in olden times, there was a merchant whose wife had died, leaving him three daughters. The eldest two were plain of face and hard of heart and cared for nothing but

finery, while the youngest was a good house keeper, kind-hearted, and so beautiful that it could neither be told in a tale nor written down with a pen. One day, when the merchant set out for the Fair, he called his three daughters and asked: My dear daughters, what do ye most desire me to buy for you? The eldest answered, Bring me a piece of rich brocade for a gown. The second said, Bring me a fine scarf for a shawl. But the youngest replied: Little father, bring me only a scarlet flower to set in my window. The two sisters laughed at her request. Little fool, they said, what dost thou want of a scarlet flower? Thou wouldst better ask for a new apron. But she paid no heed and when the merchant asked her again, she said: Little father, buy for me only the scarlet blossom. The merchant bade them good-by and drove to the Fair, and whether in a short while or a long while, he came again to his house. He brought the rich brocade for the eldest daughter and the fine scarf for the second, but he quite forgot to bring the little scarlet flower. The eldest daughters were so rejoiced at their gifts that he felt sorry for his forgetfulness, and to comfort her, said to the youngest: Never mind, I shall soon go again to the Fair, and shall bring thee a gift also. And she answered: It is no matter, little father; another time thou wilt remember. And while her sisters, cutting and sewing their fine stuffs, laughed at her, she was silent. Time passed, and again the merchant made ready to go to the Fair, and calling his daughters, he asked: Well, my daughters, what shall I buy for you? The eldest answered, Bring me a gold chain, and the second, Buy

me a pair of golden earrings; but the third said, Little father, I want nothing but a scarlet flower to set in my window.

Falcon and the Carousel of Time Luli Gray, 2005 Falcon is thirteen-too old for magic, too old for dragons and saints, too old to think about the adventures from her past. All she wants is to be an ordinary girl. But Falcon has a family legacy that cannot be denied, and, when her beloved Aunt Emily suffers a heart attack, that legacy and the magic within it may be the only way to save Emily's life. Falcon finds herself in New York City circa 1903, accompanied by Aunt Emily (who has managed to reoccupy the body of her own twelve-year-old self) and Allie Cadwallader-Newton (who knows a bit about time travel, thanks to her own adventures). With the help of a few old friends, Falcon sets out to find the way home, but she soon discovers that the situation is not what it seems. And there will be impossible choices ahead. Once again, Luli Gray transports readers into a world both foreign and familiar, where dragons meet in Central Park and young girls find that they have the power to change their futures, as well as their pasts.

The Peregrine J. A. Baker, 2004-12-31 This extraordinary, poetic portrait of two peregrine falcons is one of the most beloved works of nature writing ever published. From fall to spring, J.A. Baker set out to track the daily comings and goings of a pair of peregrine falcons across the flat fen lands of eastern England. He followed the birds obsessively, observing them in the air and on the ground, in pursuit of their prey, making a kill, eating, and at rest, activities he describes with an extraordinary fusion of precision and poetry. And as he continued his mysterious private quest, his sense of human self slowly dissolved, to be replaced with the alien and implacable consciousness of a hawk. It is this extraordinary metamorphosis, magical and terrifying, that these beautifully written pages record.
