Fitter Faster Robert Davis,Brad Kolowich,2017-05-11 A lifetime of fitness in just minutes a day. I don't have time . . . I'm too tired . . . I hate gyms . . . These are among the most common excuses for not exercising. But the truth is that getting in shape requires less time and effort than you might think. Examining everything from pre-workout stretches to post-workout protein shakes, this science-backed book slices through fitness fads and misconceptions to reveal how you can exercise quickly and effectively. For example, is it best to exercise in the morning? Does aerobic activity burn more fat than weight lifting? You'll also learn how to get and stay motivated, what equipment to buy (and what not to waste money on), which dietary supplements really help, and how to combat muscle soreness. Fitter Faster explains how to: Find the right balance between cardio, strength, and stretching * Slash workout times with high-intensity interval training * Prevent boredom * Enhance fat-burning The accompanying Fitter Faster Plan, developed with celebrity trainer Brad Kolowich, Jr., pulls everything together. Requiring as little as 15 minutes a day, these quick workouts maximize efficiency-allowing you to reap the greatest benefit in the shortest possible time...all without ever having to set foot in a gym. With photographs illustrating each exercise routine, this eye-opening book will forever change the way you work out- and help you get fitter faster.

Fitter for Life Ed Mayhew,2005-07 Discover the Secrets of the Masters of Fitness: How a 54-year-old man who struggled to jog a single quarter mile got in good enough shape and summoned the energy to run 109 miles at the 24Hour Endurance Run National Championships ? at age 77. How a 40-year-old, full-time working mother with four young children made time to train as a 2-sport national champion ? all the while keeping her family priority one. How a lifelong heavy smoker and self-proclaimed couch potato in her forties transformed herself into an Ironman triathlete in her fifties. How a 59-year-old man just four and a half months removed from a near-fatal heart attack and double-by-pass surgery was able to complete one of the most grueling races ever run. How a 64-year-old with a cholesterol reading of 385dl/mg, arrhythmia (an irregular heart beat) and no background in competitive swimming was able to turn herself into a World Champion age-group swimmer. How a woman crippled by arthritis was able to beat the disease without resorting to drugs. Why most weight-loss and exercise programs fail and how the Masters of Fitness avoided this common pitfall and how you can, too. Which foods, drinks, supplements and herbs played the greatest role in the amazing athletic feats of the Masters of Fitness. Think these thoughts and you will age slower, but think THESE thoughts and you'll age faster. How the Masters of Fitness get their bodies to release more youth-enhancing Human Growth Hormone (Hgh) naturally and how you can, too.
