The Glass Forest Cynthia Swanson, 2018-02-06 The lives of three very different women intersect in shocking ways in this “outstanding psychological thriller” (Library Journal, starred review), by the New York Times bestselling author of *The Bookseller*. In the autumn of 1960, Angie Glass is living an idyllic life in her Wisconsin hometown. At twenty-one, she’s married to handsome, charming Paul, and has just given birth to a baby boy. But one phone call changes her life forever. When Paul’s niece, Ruby, tells them that her father, Henry, has committed suicide and her mother, Silja, has gone missing, the newlyweds drop everything to be by Ruby’s side in the small upstate town of Stonekill, New York. Angie thinks they’re coming to the rescue of Paul’s grief-stricken young niece, but seventeen-year-old Ruby, self-possessed and enigmatic, resists Angie’s attempts to nurture her. While taking up residence in Henry and Silja’s eerie, ultra-modern house on the edge of the woods, Angie discovers astonishing truths about the complicated Glass family. As she learns about Henry and Silja’s spiraling relationship, and Ruby’s role in keeping them together, and apart, Angie begins to question the very fabric of her own marriage. As details of the past unfold and Ruby dissects her parents’ state of affairs, the Glass women realize what they’re capable of when it comes to love, secrets, and ultimate betrayal. As turbulent and electrified as the period it’s set in, *The Glass Forest* is an “intoxicating slow burn [that] builds to a conclusion rife with shocking reveals.” (Publishers Weekly)

Daughter of the Forest Juliet Marillier, 2010-04-01 *Daughter of the Forest* is a testimony to an incredible author's talent, a first novel and the beginning of a trilogy like no other: a mixture of history

and fantasy, myth and magic, legend and love. Lord Colum of Sevenwaters is blessed with six sons: Liam, a natural leader; Diarmid, with his passion for adventure; twins Cormack and Conor, each with a different calling; rebellious Finbar, grown old before his time by his gift of the Sight; and the young, compassionate Padriac. But it is Sorcha, the seventh child and only daughter, who alone is destined to defend her family and protect her land from the Britons and the clan known as Northwoods. For her father has been bewitched, and her brothers bound by a spell that only Sorcha can lift. To reclaim the lives of her brothers, Sorcha leaves the only safe place she has ever known, and embarks on a journey filled with pain, loss, and terror. When she is kidnapped by enemy forces and taken to a foreign land, it seems that there will be no way for her to break the spell that condemns all that she loves. But magic knows no boundaries, and Sorcha will have to choose between the life she has always known and a love that comes only once. Juliet Marillier is a rare talent, a writer who can imbue her characters and her story with such warmth, such heart, that no reader can come away from her work untouched. The Atlantic Forest Marcia C. M. Marques, Carlos E. V. Grelle, 2021-01-13 The Atlantic Forest is one of the 36 hotspots for biodiversity conservation worldwide. It is a unique, large biome (more than 3000 km in latitude; 2500 in longitude), marked by high biodiversity, high degree of endemic species and, at the same time, extremely threatened. Approximately 70% of the Brazilian population lives in the area of this biome, which makes the conflict between biodiversity conservation and the sustainability of the human population a relevant issue. This book aims to cover: 1) the historical characterization and geographic variation of the biome; 2) the distribution of the diversity of some relevant taxa; 3) the main threats to biodiversity, and 4) possible opportunities to ensure the biodiversity conservation, and the economic and social sustainability. Also, it is hoped that this book can be useful for those involved in the development of public policies aimed at the conservation of this important global biome.

The Home-Scale Forest Garden Danida Friedman-Baker ,2022-05-20 Learn how to create an edible forest garden—perfect for gardeners and growers at any scale! Includes over 100 cold-hardy berry bushes, fruit and nut trees, perennial vegetables, herbs, edible flowers, mushrooms, and more. When market gardener Dani Baker attended a permaculture workshop at her local Cooperative Extension office in upstate New York, she was inspired by its message of working with nature to

create a thriving edible garden ecosystem. She immediately launched a new experiment she dubbed the “Enchanted Edible Forest.” In *The Home-Scale Forest Garden*, Baker shares what she learned as she became a forest gardener, providing a practical, in-depth guide to creating a beautiful, bountiful edible landscape at any scale—from a few dozen square feet to an acre or more. Baker provides information on planning, planting, and maintaining a resilient forest garden ecosystem, including:

- Using permaculture principles
- Observing and mapping your space
- Building planting beds, including hügelkultur mounds
- Coping with saturated soil
- Matching perennial edible plants to the right growing conditions
- Grouping plants in diverse layers that attract and shelter beneficial insects and birds
- Creating microclimates to increase the range of plants you can grow
- Pruning, propagating, managing pests, and more
- Expending less energy for greater reward

The Home-Scale Forest Garden is complete with descriptions of over 100 food-bearing and multifunctional plants for every layer of a forest garden: overstory and understory trees, shrubs, herbaceous plants, groundcovers, vines, and mushrooms, too. The book includes over 200 photographs taken over 10 years of forest development, along with illustrations of a garden layout and special plant groupings for a range of conditions, including hot, dry sites and shady, moist sites. Throughout, Baker candidly shares both her mistakes and her successes to help readers better understand the dynamics of a forest garden as it grows and changes over time. From her Asian Pear Adventure and Tamarack Travesty to her discoveries of unique ways to rescue and transplant tree seedlings, readers will appreciate the practical advice as she recounts lessons learned from her grand edible gardening experiment. This is the perfect guide for gardeners of all experience levels who want to work with nature’s model and expand the range of food crops they grow as they embark on their own forest garden adventure.

The Final Forest William Dietrich, 2011-07-01 2011 Outstanding Title, University Press Books for Public and Secondary School Libraries Winner of the Pacific Northwest Booksellers Association Award Before Forks, a small town on Washington’s Olympic Peninsula, became famous as the location for Stephenie Meyer’s *Twilight* book series, it was the self-proclaimed “Logging Capital of the World” and ground zero in a regional conflict over the fate of old-growth forests. Since Pulitzer Prize-winning

journalist William Dietrich first published *The Final Forest* in 1992, logging in Forks has given way to tourism, but even with its new fame, Forks is still a home to loggers and others who make their living from the surrounding forests. The new edition recounts how forest policy and practices have changed since the early 1990s and also tells us what has happened in Forks and where the actors who were so important to the timber wars are now. Ghost Forest Pik-Shuen Fung, 2022-09-06 WINNER of the 2022 Amazon First Novel Award WINNER of the 2022 Rakuten Kobo Emerging Writer Prize for Literary Fiction A graceful and indelible debut about love, grief, and family welcomes you into its pages and invites you to linger, staying with you long after you've closed its covers. How do you grieve, if your family doesn't talk about feelings? This is the question the unnamed protagonist of *Ghost Forest* considers after her father dies. One of the many Hong Kong astronaut fathers, he stayed in Hong Kong to work, while the rest of the family

immigrated to Vancouver before the 1997 Handover, when the British returned sovereignty over Hong Kong to China. As she revisits memories of her father throughout the years, she struggles with unresolved questions and misunderstandings. Turning to her mother and grandmother for answers, she discovers her own life refracted brightly in theirs. Buoyant, heartbreaking, and unexpectedly funny, *Ghost Forest* is a slim novel that envelops the reader in joy and sorrow. Fung writes with a poetic and haunting voice, layering detail and abstraction, weaving memory and oral history to paint a moving portrait of a Chinese-Canadian astronaut family.

Foresters, Borders, and Bark Beetles Eunice Blavascunas, 2020 In Europe's last primeval forest, at Poland's easternmost border with Belarus, the deep past of ancient oaks, woodland bison, and thousands of species of insects and fungi collides with authoritarian and communist histories. Foresters, biologists, environmentalists, and locals project the ancient Białowieża Forest as a series of competing icons in struggles over memory, land, and economy, which are also struggles about whether to log or preserve the woodland; whether and how to celebrate the mixed ethnic Polish/Belarusian peasant past; and whether to align this eastern outpost with ultraright Polish political parties, neighboring Belarus, or the European Union. Eunice Blavascunas provides an intimate ethnographic account, gathered in more than 20 years of research, to untangle complex forest conflicts between protection and use. She looks at which pasts are celebrated, which fester, and which are altered in the tumultuous decades following the collapse of communism. *Foresters, Borders, and Bark Beetles* is a timely and fascinating work of cultural analysis and storytelling that textures its ethnographic reading of people with the agency of the forest itself and its bark beetle outbreaks, which threaten to alter the very composition of the forest in the age of the Anthropocene--

Zyla & Kai Kristina Forest, 2022-06-07 A fresh love story about the will they, won't they—and why can't they—of first love. While on a school trip to the Poconos Mountains (in the middle of a storm) high school seniors, Zyla Matthews and Kai Johnson, run away together leaving their friends and family confused. As far as everyone knows, Zyla and Kai have been broken up for months. And honestly? Their break up hadn't surprised anyone. Zyla and Kai met while working together at an amusement park the previous summer, and they couldn't have been more different. Zyla was a cynic about love. She'd witnessed the dissolution of her parents' marriage early in life, and it left an indelible impression. Her only aim was graduating and going to fashion school abroad. Until she met Kai. Kai was a serial dater and a hopeless romantic. He'd put a temporary pause on his dating life before

senior year to focus on school and getting into his dream HBCU. Until he met Zyla. Alternating between the past and present, we see the love story unfold from Zyla's and Kai's perspectives: how they first became the unlikelyst of friends over the summer, how they fell in love during the school year, and why they ultimately broke up... Or did they? Romantic, heart-stirring, and a little mysterious, Zyla & Kai will keep readers guessing until the last chapter.

The Forest Edward Rutherford, 2013-06-12 NATIONAL BESTSELLER • “Rutherford brings England’s New Forest to life” (The Seattle Times) in this companion to the critically acclaimed *Sarum*. From the time of the Norman Conquest to the present day, the New Forest, along England’s southern coast, has remained an almost mythical place. It is here that Saxon and Norman kings rode forth with their hunting parties, and where William the Conqueror’s son Rufus was mysteriously killed. The mighty oaks of the forest were used to build the ships for Admiral Nelson’s navy, and the fishermen who lived in Christchurch and Lymington helped Sir Francis Drake fight off the Spanish Armada. The New Forest is the perfect backdrop for the families who people this epic story. The feuds, wars, loyalties, and passions of many hundreds of years reach their climax in a crime that shatters the decorous society of Bath in the days of Jane Austen, whose family lived on the edge of the Forest. Edward Rutherford is a master storyteller whose sense of place and character—both fictional and historical—is at its most vibrant in *The Forest*. “As entertaining as *Sarum* and Rutherford’s other sweeping novel of British history, *London*.”—The Boston Globe
