Governing Well: Reflections On Singapore And Beyond Terence Wai Luen Ho, 2023-02-24 What is the secret of effective government in today's complex and turbulent world? In this collection of essays written for Singapore's leading news organisations, public policy practitioner turned academic Terence Ho trains his focus on the issues of the day: education, demographics, economic

growth, inflation, taxes and social support, among others. In unpacking these issues and what they mean for Singapore, Terence distils policy principles relevant to societies across the world as they grapple with the challenges of rising inequality, political polarisation, technological disruption, climate change and more. The essays in this collection draw insights from the author's nearly two decades of experience in Singapore's Public Service, recognised as one of the world's most innovative. They open a window into the future of governance in Singapore and beyond.

International VAT/GST Guidelines

Collectif, 2017-04-12 Value Added Tax (VAT; also known as Goods and Services Tax, under the acronym GST in a number of OECD countries) has become a major source of revenue for governments around the world. Some 165 countries operated a VAT at the time of the completion of the International VAT/GST Guidelines in 2016, more than twice as many as 25 years before. As VAT continued to spread across the world, international trade in goods and services has also expanded rapidly in an increasingly globalised economy. One consequence of these developments has been the greater interaction between VAT systems, along with growing risks of double taxation and unintended non-taxation in the absence of international VAT co-ordination. The International VAT/GST Guidelines now present a set of internationally agreed standards and recommended approaches to address the issues that arise from the uncoordinated application of national VAT systems

in the context of international trade. They focus in particular on trade in services and intangibles, which poses increasingly important challenges for the design and operation of VAT systems worldwide. They notably include the recommended principles and mechanisms to address the challenges for the collection of VAT on cross-border sales of digital products that had been identified in the context of the OECD/G20 Project on Base and Erosion and Profit Shifting (the BEPS Project). These Guidelines were adopted as a Recommendation by the Council of the OECD in September 2016.

Healthy Ageing in Singapore Sabrina Ching Yuen Luk, 2023-03-31 Singapore is the world's second-fastest ageing society and will become a super-aged society by 2030. This book fills an important research gap by examining Singapore's efforts to achieve healthy ageing. It draws on both semi-structured interviews and secondary data (e.g. government documents, journal articles, books, reports) to examine hot topics such as financial wellness of older adults, ageing in place, dementia friendly communities and digital connection with older adults in the time of the 2019 coronavirus disease (COVID-19). In the interviews, experts and professionals provide valuable insights into the issue of healthy ageing in Singapore. The book's goal is to provide a comprehensive portrait of healthy ageing in Singapore, while also sharing valuable lessons to help other countries achieve healthy ageing.

Proposed Reforms to Singapore's Goods and Services Tax for the Digital Age L.H. Kuan, 2019 In

this article, the authors highlight gaps in Singapore's goods and services tax (GST) system and discuss several proposals aimed at eliminating those gaps and making the GST a more effective tool for raising revenue in the digital economy.

The Blickling Concordance Richard J. Kelly,2009-08-12 This Concordance is a complete wordlist of the Blickling homiletic texts, which date from the late 10th century making them one of the earliest extant examples of prose writings in English. Each word is cited in standard dictionary form, expanded grammatically and referenced by line and page number to R. J. Kelly's edition and translation of The Blickling Homilies (Continuum, 2003). Frequently occurring words, such as prepositions and conjunctions, are cited in an Appendix, which also includes an outline of the principal linguistic structures of Old English. Important features of this Concordance include quick and straightforward cross referencing to the homiletic texts; identifying words from earlier Anglo-Saxon dialects; and the correction of scribal errors. The Concordance will be of particular interest to linguistics, cultural historians and researchers in various interdisciplinary fields.

VAT and Financial Services Robert F. van

Brederode, Richard Krever, 2017-03-06 This book explains the theoretical and policy issues associated with the taxation of financial services and includes a jurisdictional overview that illustrates alternative policy choices and the legal consequences of those choices . The book addresses the question: how can financial services in an increasingly globalized market best be taxed through VAT while avoiding economic distortions? It supports the discussion of the key practical problems that have arisen from the particular complexity of the application of VAT to financial services, and allows for the evaluation of best practice by comparing the major current reform models now being implemented.
