Gender: A Graphic Guide Meg-John Barker, 2019-11-07 'An outstanding work' - CN Lester, author of *Trans Like Me* Join the creators of *Queer: A Graphic History* ('Could totally change the way you think about sex and gender' VICE) on an illustrated journey of gender exploration. Is masculinity 'toxic'? Why are public toilets such a political issue? How has feminism changed the available gender roles – and for whom? Why might we all benefit from challenging binary thinking about sex/gender? In this unique illustrated guide, Meg-John Barker and Jules Scheele travel through our shifting understandings of gender across time and space – from ideas about masculinity and femininity, to non-binary and trans genders, to intersecting experiences of gender, race, sexuality, class, disability and more. Tackling current debates and tensions, which can divide communities and even cost lives, Barker and Scheele look to the past and the future to explore how we might all approach gender in more caring and celebratory ways.

*Gender Issues, Water Issues* Margreet Zwarteveen, 1994

Gender Based Violence in University Communities Anitha, Sundari, Lewis, Ruth, 2018-06-27 EPUB and EPDF available Open Access under CC-BY-NC-ND licence. Until recently, higher education in the UK has largely failed to recognise gender-based violence (GBV) on campus, but following the UK government task force set up in 2015, universities are becoming more aware of the issue. And recent cases in the media about the sexualised abuse of power in institutions such as universities, Parliament and Hollywood highlight the prevalence and damaging impact of GBV. In this book, academics and practitioners provide the first in-depth overview of research and practice in GBV in universities. They set out the international context of ideologies, politics and institutional structures that underlie responses to GBV in elsewhere in Europe, in the US, and in Australia, and consider the

implications of implementing related policy and practice. Presenting examples of innovative British approaches to engagement with the issue, the book also considers UK, EU and UN legislation to give an international perspective, making it of direct use to discussions of 'what works' in preventing GBV.

**Diversity and Discrimination in Research Organizations** Clemens Striebing, Jörg Müller, Martina Schraudner, 2022-12-01 The ebook edition of this title is Open Access and freely available to read online. Diversity and Discrimination in Research Organizations considers whether and to what extent the social identity of the academic workforce affects their individual integration in research organizations.

Collaborating for Change Susan Marine, Ruth Lewis, 2020-08-05 In the midst of unprecedented attention to gender based violence (GBV), prompted in part by the #MeToo movement, Collaborating for Change: Transforming Cultures to End Gender-Based Violence in Higher Education provides a groundbreaking analysis of higher education culture and how it can be transformed to eradicate GBV. This book builds on existing scholarship and practice, offering unique reflections from faculty, staff, and students about potential avenues for change that go beyond programs and policies. It recognizes the important work achieved to date on this topic but argues that transformation of cultures, rather than reform of practices, is now required. Starting from the premise that cultural change must be embedded in groups of people working together, the contributors to the book offer insights into what makes for constructive, effective collaborations between activists in universities and the wider community, as well as with university leaders, managers, and policy-makers. The volume is an interdisciplinary, international account/analysis of attempts to transform higher education cultures in

an attempt to eradicate GBV. The chapters, contributed by leading scholars and practitioners in the field, span the experiences of GBV in Canada, the United States, Scotland, England, France, and India. Collaborating for Change reveals the different institutional, political, and cultural contexts in which activists, scholars, and practitioners endeavor to eradicate GBV and provides insights for others engaged in this work around the globe. The book argues that nothing short of a transformation is required to make higher education safe for all.

Re-writing Women as Victims María José Gámez Fuentes,Sonia Núñez Puente,Emma Gómez

Nicolau,2019-10-17 This volume critically analyses political strategies, civil society initiatives and modes of representation that challenge the conventional narratives of women in contexts of violence. It deepens into the concepts of victimhood and agency that inform the current debate on women as victims. The volume opens the scope to explore initiatives that transcend the pair abuser-victim and explore the complex relations between gender and violence, and individual and collective accountability, through politics, activism and cultural productions in order to seek social transformation for gender justice. In innovative and interdisciplinary case studies, it brings attention to initiatives and narratives that make new spaces possible in which to name, self-identify, and resignify the female political subject as a social agent in situations of violence. The volume is global in scope, bringing together contributions ranging from India, Cambodia or Kenya, to Quebec, Bosnia or Spain. Different aspects of gender-based violence are analysed, from intimate relationships, sexual violence, military contexts, society and institutions. Re-writing Women as Victims: From Theory to Practice will be a key text for students, researchers and professionals in gender studies, political

sciences, sociology and media and cultural Studies. Activists and policy makers will also find its practical approach and engagement with social transformation to be essential reading.

**Participatory Action Research** Caroline Lenette, 2022 Participatory Action Research (PAR) privileges the involvement of participants as co-researchers to generate new knowledge and act on findings to effect social change. In PAR projects, academic researchers collaborate closely with co-researchers, working from the idea that these individuals, especially those who are usually marginalized from institutions, can be engaged in meaningful research activities to achieve social justice outcomes in addition to answering research questions. When deployed ethically in collaboration with co-researchers, PAR's participatory element facilitates a 'bottom-up' approach where knowledge is co-created through grassroots or community-based activities. This book goes beyond a PAR 'how to' manual on the methodology. Rather it synthesizes key learnings in contemporary research, with a distinct focus on the challenging aspects of undertaking PAR in practice and strategies to address these. It provides a clear and user-friendly collection of practical and contextual examples and presents key pointers on the implications of PAR methods, their strengths and weaknesses, and strategies for the field. These examples will be useful for critical class discussions, as well as to anticipate fieldwork pitfalls and pre-empt challenges through collaborative approaches.

**Revoluting Prostitutes** Molly Smith, Juno Mac, 2018-11-06 How the law harms sex workers—and what they want instead Do you have to endorse prostitution in order to support sex worker rights? Should clients be criminalized, and can the police deliver justice? In *Revoluting Prostitutes*, sex workers Juno Mac and Molly Smith bring a fresh perspective to questions that have long been contentious. Speaking from a growing global sex worker rights movement, and situating their argument firmly

within wider questions of migration, work, feminism, and resistance to white supremacy, they make it clear that anyone committed to working towards justice and freedom should be in support of the sex worker rights movement.

*Género* Meg-John Barker, Jules Scheele, 2021-12-02 Una propuesta radical y pedagógica que cambiará tu forma de pensar el género. ¿Es tóxica la masculinidad? ¿Por qué los baños públicos son un tema político? ¿Cómo ha modificado el feminismo los roles de género y para quién? ¿En qué nos beneficia desafiar el pensamiento binario sobre sexo y género? En esta guía ilustrada única, Meg-John Barker y Jules Scheele proponen un viaje por nuestra comprensión cambiante del género a través del tiempo y el espacio, desde ideas sobre masculinidad y feminidad, géneros no binarios y trans, hasta experiencias de intersección entre género, raza, sexualidad, clase, discapacidad y más. Al abordar los debates y las tensiones actuales, que pueden dividir a las comunidades e incluso costar vidas, Barker y Scheele miran al pasado y al futuro para explorar cómo todos podemos abordar el género de manera más empática y festiva.

*The Social Life of Nothing* Susie Scott, 2019-06-03 Nothing really matters. All the things that we do not do, have or become in our lives can be important in shaping self-identity. From jobs turned down to great loves lost, secrets kept and truths untold, people missed and souls unborn, we understand ourselves through other, un-lived lives that are imaginatively possible. This book explores the realm of negative social phenomena – no-things, no-bodies, non-events and no-where places – that lies behind the mirror of experience. Taking a symbolic interactionist perspective, the author argues that these objects are socially produced, emerging from and negotiated through our relationships with others. Nothing is interactively accomplished in two ways, through social acts of commission and omission.

Existentialism and phenomenology encourage us to understand more deeply the subjective experience of nothing; this can be pursued through conscious meaning-making and reflexive self-awareness. *The Social Life of Nothing* is a thought-provoking book that will appeal to scholars across the social sciences, arts and humanities, but its message also resonates with the interested general reader.

**The Token** Crystal Byrd Farmer, 2020-10-13 Meet the new Black friend you never had As a Black organizer, community, business, and organization leaders often ask: How do I get diversity in my group? The thing is, the work is real, but it's a minefield out there. And even progressive leaders can still, perhaps unknowingly, be racist and uphold oppressive systems. In *The Token*, your new token Black friend, Crystal Byrd Farmer, acts as the bridge between majority white organizations that are dedicated to social justice and diverse people in community they want to recruit, across identities of race, LGBTQ, education, socioeconomic status, and disability. With a blunt style that pulls no punches, Crystal tells you how it is, calling you out on tokenism, while extending a hand to help your organization make real transformative change toward diversity and inclusion. Coverage includes: What marginalized people experience and what they need to feel safe and comfortable in order to succeed *Doing The Work* – how to have deep conversations with your membership about the reality of bias, privilege, and microaggressions Practical exercises and discussion questions How to choose appropriate meeting locations and establish ground rules, when to bring in outside help, and how to recruit support within your organization Strategies on how to talk to friends who are resistant to progressive ideas. This no-nonsense, provocative, humorous, and accessible guide is for all well-meaning people leading progressive organizations who acknowledge the need for diversity but don't know where to start.

Hags Victoria Smith, 2023-03-02 'Rich, complex and witty' ROSE GEORGE, SPECTATOR  
'Devastating and clever' BEL MOONEY, DAILY MAIL 'Could not be more necessary' RACHEL COOKE, OBSERVER  
What is about women in their forties and beyond that seems to enrage - almost everyone? In the last few years, as identity politics have taken hold, middle-aged women have found themselves talked and written about as morally inferior beings: the face of bigotry, entitlement and selfishness, to be ignored, pitied or abused. In *Hags*, Victoria Smith asks why these women are treated with such active disdain. Each chapter takes a different theme - care work, beauty, violence, political organization, sex - and explores it in relation to middle-aged women's beliefs, bodies, histories and choices. Smith traces the attitudes she describes through history, and explores the very specific reasons why this type of misogyny is so very now. The result is a book that is absorbing, insightful, witty and bang on time.

*Student Sex Work* Debbie Jones, Teela Sanders, 2022-09-27 This book provides a contemporary collection of key works that chart new and ongoing terrain on student sex work. It brings together experienced researchers, activists, practitioners, early career researchers and those with lived experience of doing sex work in the university setting from across the globe. The book addresses three core areas: Activism, Ideology and Exclusion; Motivations and Experiences; and University Policy, Practice and Service Delivery. This collection represents significant theoretical, methodological and policy and practice contributions within sex work studies. These new perspectives contribute to our existing knowledge, introduce new directions for scholarship and prompt new and exciting questions about how higher education students' participation in sex work can be researched, understood and responded to in an ethical, non-stigmatising approach. The book will be of interest to students, researchers and service providers and given the interdisciplinary nature of the chapters, the

book has a cross-disciplinary appeal.
