

Genius

Dean Keith Simonton

The Genius of Democracy Victoria Olwell,2011-05-05 In the late nineteenth- and early twentieth-century United States, ideas of genius did more than define artistic and intellectual originality. They also provided a means for conceptualizing women's participation in a democracy that marginalized them. Widely distributed across print media but reaching their fullest development in literary fiction, tropes of female genius figured types of subjectivity and forms of collective experience that were capable of overcoming the existing constraints on political life. The connections between genius, gender, and citizenship were important not only to contests over such practical goals as women's suffrage but also to those over national membership, cultural identity, and means of political transformation more generally. In *The Genius of Democracy* Victoria Olwell uncovers the political uses of genius, challenging our dominant narratives of gendered citizenship. She shows how American fiction catalyzed political models of female genius, especially in the work of Louisa May Alcott, Henry James, Mary Hunter Austin, Jessie Fauset, and Gertrude Stein. From an American Romanticism that saw genius as the ability to mediate individual desire and collective purpose to later scientific paradigms that understood it as a pathological individual deviation that nevertheless produced cultural progress, ideas of genius provided a rich language for contests over women's citizenship. Feminist narratives of female genius projected desires for a modern public life open to new participants and new kinds of collaboration, even as philosophical and scientific ideas of intelligence and creativity could often disclose troubling and more regressive dimensions. Elucidating how ideas of genius facilitated debates about political agency, gendered identity, the nature of consciousness, intellectual property, race, and national culture, Olwell reveals oppositional ways of imagining women's citizenship, ways that were critical of the conceptual limits of American democracy as usual.

Fettered Genius Keith D. Leonard,2006 In *Fettered Genius*, Keith D. Leonard identifies how African American poets' use and revision of traditional poetics constituted an antiracist political agency. Comparing this practice to the use of poetic mastery by the ancient Celtic bards to resist British imperialism, Leonard shows how traditional poetics enable African American poets to insert racial experience, racial protest, and African American culture into public discourse by making them features of validated artistic expression. As with the Celtic bards, these poets' artistry testified to their marginalized people's capacity for imagination and reason within and against the terms of the dominant culture. In an ambitious survey that moves from slavery to the cultural nationalism of the 1960s, Leonard examines numerous poets, placing each in the context of his or her time to demonstrate the antiracist meaning of their accomplishments. The book offers new insight on the conservatism of Phillis Wheatley, Paul Laurence Dunbar, and the genteel members of the Harlem Renaissance, how their rage for assimilation functioned to refute racist notions of difference and, paradoxically, to affirm a distinctive racial experience as valid material for poetry. Leonard also demonstrates how the more progressive and ethnically distinctive poetics of Langston Hughes, Sterling Brown, Gwendolyn Brooks, Robert Hayden, and Melvin B. Tolson share some of the same ambivalence about cultural achievement as those of the earlier poets. They also have in common the self-conscious pursuit of an affirmation of the African American self through the substitution of African American vernacular language and cultural forms for traditional poetic themes and forms. The evolution of these poetics parallels the emergence of notions of ethnic identity over racial identity and, indeed, in some ways even motivated this shift. Leonard recognizes poetic mastery as the African American bardic poet's most powerful claim of ethnic tradition and of social belonging and clarifies the full hybrid complexity of African American identity that makes possible this political self-assertion. The development that is traced in *Fettered Genius* illustrates nothing less than the defining artistic coherence and political significance of the African American poetic tradition.

Kant's Concept of Genius Paul W. Bruno,2010-03-04 While many studies have chronicled the Romantic legacy of artistic genius, this book uncovers the roots of the concept of genius in Kant's third Critique, alongside the development of his understanding of nature. Paul Bruno addresses a genuine gap in the existing scholarship by exploring the origins of Kant's thought on aesthetic judgment and particularly the artist. The development of the word 'genius' and its intimate association with the artist played itself out in a rich cultural context, a context that is inescapably significant in Western thought. Bruno shows how in many ways we are still interrogating the ways in which a nature governed by physical laws can be reconciled with a spirit of human creativity and freedom. This book leads us to a better understanding of the centrality of understanding the modern artistic enterprise, characterized as it is by creativity, for modern conceptions of the self.

Think Like a Genius Todd Siler,1999-01-01 Explains how to ignite innate creativity and free thought processes through the discovery of hidden connections among familiar things

Genealogies of Genius Joyce E. Chaplin,Darrin M. McMahon,2015-12-08 The essays in this volume seek to examine the uses to which concepts of genius have been put in different cultures and times. Collectively, they are designed to make two new statements. First, seen in historical and comparative perspective, genius is not a natural fact and universal human constant that has been only recently identified by modern science, but instead a categorical mode of assessing human ability and merit. Second, as a concept with specific definitions and resonances, genius has performed specific cultural work within each of the societies in which it had a historical presence.

iPhone Portable Genius Paul McFedries,2020-11-26 Your step-by-step guide to iPhone mastery iPhone Portable Genius delivers a practical and simple guide to quickly learning everything you need to know about the iPhone. Accidental Genius Mark Levy,Professor and Associate Dean Mark Levy,2010-10 When it comes to creating ideas, we hold ourselves back. That's because inside each of us is an internal editor whose job is to forever polish our thoughts, so we sound smart and in control, and so that we fit into society. But what happens when we encounter problems where such conventional thinking fails us? How to get unstuck? For Mark Levy, th...

Prodigal Genius John J. O'Neil,2006-01-01 Even the gods of old, in the wildest imaginings of their worshipers, never undertook such gigantic tasks of world-wide dimension as those which Tesla attempted and accomplished. -from Chapter One First published in 1944 and long a favorite of Tesla fans, this is a definitive biography of the man without whom modern civilization would not exist. Nikola Tesla, pioneer of electrical engineering, was a close friend of Pulitzer Prize-winning author O'Neill, and here, O'Neill captures the man as a scientist and as a public figure, exploring: . how Tesla's father inspired his life in engineering . why Tesla clung to his theories of electricity in the face of opposition . how the shy but newly popular Tesla navigated the social life of New York in the gay 1890s . Tesla's friendship with Mark Twain . the story of Tesla's lost Nobel Prize . Tesla's dabblings in the paranormal . and much more. JOHN JOSEPH O'NEILL (b. 1889) also wrote *Engineering the New Age* and *You and the Universe: What Science Reveals*.

Songwriting for Geniuses Gene Burnett,2008-10-08 In *Songwriting For Geniuses*, singer/songwriter Gene Burnett offers 25 tips to aspiring songwriters for writing better, more satisfying songs. The author's contention is that within each of us is a place that knows when a song works and when it does not. This place of knowing is called many things: intuition, spirit, the unconscious. Burnett calls it your genius, and it is to this inner genius that this book is addressed. A song that works, claims Burnett, is one that releases a charge,

first for the writer and then for the listener. With Burnett's simple and practical tips, you will learn to recognize this release as a guiding and shaping force in the songwriting process.

Campus Beauty's Genius Master Fei XiangDeQingWa,2020-09-05 A genius abandoning the young, being treated as a servant by a beautiful female student, being stepped on by a tyrant, being bullied by his friends and relatives, being beaten up by his friends for the sake of his friends and being thrown to the ground to die.

The 46 Rules of Genius Marty Neumeier,2014 Shares forty-six tips for achieving creative brilliance in any professional field, discussing how to innovate, work, learn, and matter.

Jack Randall's Diary of Proceedings at the House of Call for Genius Thomas Moore,1820

The Life and Genius of Anton Chekhov: Diary, Letters, Reminiscences and Biography (Unabridged) Anton Chekhov,2015-06-01 Anton Chekhov (1860 -1904) was a Russian physician, dramaturge and author who is considered to be among the greatest writers of short stories in history. Chekhov practised as a medical doctor throughout most of his literary career. Along with Henrik Ibsen and August Strindberg, Chekhov is often referred to as one of the three seminal figures in the birth of early modernism in the theatre. He made no apologies for the difficulties this posed to readers, insisting that the role of an artist was to ask questions, not to answer them.

The Genius Checklist Dean Keith Simonton,2018-10-02 What it takes to be a genius: nine essential and contradictory ingredients. What does it take to be a genius? A high score on an IQ test? Brilliant physicist Richard Feynman's IQ was too low for membership in Mensa. Suffering from varying degrees of mental illness? Creativity is often considered a marker of mental health. Be a child prodigy like Mozart, or a later bloomer like Beethoven? Die tragically young, like Keats, or live to a ripe old age like Goethe? In *The Genius Checklist*, Dean Keith Simonton examines the key factors in creative genius and finds that they are more than a little contradictory. Simonton, who has studied creativity and genius for more than four decades, draws on both scientific research and stories from the lives of famous creative geniuses that range from Isaac Newton to Vincent van Gogh to Virginia Woolf. He explains the origin of IQ tests and the art of estimating the IQ of long-dead historical figures (John Stuart Mill: 200; Charles Darwin: 160). He compares IQ scores with achieved eminence as measures of genius, and he draws a distinction between artistic and scientific genius. He rules out birth order as a determining factor (in the James family alone, three geniuses at three different birth-order positions: William James, first-born; Henry James, second born; Alice James, born fifth and last); considers Malcolm Gladwell's 10,000 hour rule; and describes how the "lone" genius gets enmeshed in social networks. Genius, Simonton explains, operates in ways so subtle that they seem contradictory. Genius is born and made, the domain of child prodigies and their elders. Simonton's checklist gives us a new, integrative way to understand geniuses—and perhaps even to nurture your own genius!

Genius 101 Dean Keith Simonton, PhD,2009-02-05 *Genius 101* makes for a great read on a centuries-old scientific puzzle - as well as a lively text on the wellsprings and manifestations of genius. Teresa M. Amabile, PhD The Edsel Bryant Ford Professor of Business Administration Harvard Business School [A] clear and engaging summary of this mysterious and utterly important phenomenon written by arguably the world's expert on the topic. Nearly 30 years of Simonton's fascination and focused intellect on the topic of exemplary genius come together in this brief, accessible and insightful volume. If only all introductory courses were this much fun! --Gregory J. Feist, PhD San Jose State University The latest, and possibly most comprehensive, entry into this genre [on the study of genius] is Dean Keith Simonton's new book *Genius 101*... Simonton, a psychology professor at the University of California, Davis, is one of the world's leading authorities on the intellectually eminent... --Time Magazine, February 13, 2009 *Genius 101* is an extremely readable and entertaining book: I read it in one sitting....Each chapter is informative, well organized, provocative, and entertaining. This book presents the best short introduction to genius to be found. --Robert Sternberg *PsycCritiques* Are geniuses born or made? How do psychologists measure genius? Is it genius, or is it madness? Genius, contrary to common belief, is not strictly a matter of intelligence. Intellect, personality, creativity, even serendipity play a significant role in molding a genius. So, what does it mean to be a genius? *Genius 101* examines the many definitions of genius, and the multiple domains in which it appears, including art, science, music, business, literature, and the media. Dr. Simonton introduces the study of genius theory and the research supporting it, using non-scientific, accessible language-fit for a non-genius. The *Psych 101 Series Short*, reader-friendly introductions to cutting-edge topics in psychology. With key concepts, controversial topics, and fascinating accounts of up-to-the-minute research, *The Psych 101 Series* is a valuable resource for all students of psychology and anyone interested in the field.

The Genius of Jesus Erwin Raphael McManus,2021-09-14 A groundbreaking manifesto decoding the phenomenon of genius through the life of Jesus of Nazareth, revealing the untapped potential within every human being—from the bestselling author of *The Artisan Soul*, *The Last Arrow*, and *The Way of the Warrior*. "IF ALL GENIUS IS TOUCHED BY MADNESS, THEN IT IS ALSO TOUCHED BY THE DIVINE." In every realm of our existence—art, science, technology, mathematics—we are captivated by stories of genius. Geniuses violate the status quo, destabilize conventional ways of thinking, and ultimately disrupt history by making us see the world differently. Genius is that rare expression of human capacity that seems to touch the divine. Jesus of Nazareth is undeniably one of the most influential figures ever to have walked the face of the earth. Yet his life as a work of genius has yet to be excavated and explored. In *The Genius of Jesus*, Erwin Raphael McManus examines the person of Jesus not simply through the lens of his divinity, but as a man who radically changed the possibility of what it means to be human. Drawing on the phenomenon of genius and the phenomenon of Jesus, McManus leads us to see this momentous figure in a new and life-altering way. Genius always leaves clues, and *The Genius of Jesus* follows those clues so that you can discover your own personal genius. McManus dives into the nuances of Jesus's words and actions, showing how they can not only inspire us but revolutionize how we think about power, empathy, meaning, beauty, and truth. This work is for anyone who seeks to transform their life from the mundane to the transcendent—for anyone who longs to awaken the genius within. *The Genius of Jesus* is a thought-provoking exploration of the most controversial and influential figure who ever lived, and a guide for you to discover how his genius can live in you.

An Essay on Genius Alexander Gerard,1774 This book covers the following topics related to genius: the nature of genius; the province and criterion of genius; to what faculty of mind genius belongs; how genius arrives from the imagination; the influence of judgment upon genius; the dependence of genius on other intellectual powers; the general sources of the varieties of genius; qualities of ideas which produce association; the influence of the passions on association; reflections of the principles of association; ideas suggested, either by sensations, or by other ideas; the combination of associating principles; the predominance of the associating principles; flexibility of imagination; the varieties of memory, and their influence on genius; the varieties of judgment, and their influence on genius; the kinds of genius; genius twofold, for science, or the the arts; the structure of imagination which distinguishes the two kinds of genius; how the two kinds of genius differ in respect of the assistance which they derive from memory; how the two kinds of genius differ in respect of the assistance which they derive from judgment; the two kinds of genius farther compared and distinguished; taste essential to genius for the arts; the power of execution necessary to genius for the arts; and the union of different kinds of genius--Book. (PsycINFO Database Record (c) 2008 APA, all rights reserved).

The Genius of American Politics Daniel J. Boorstin,1958-10-15 How much of our political tradition can be absorbed and used by other peoples? Daniel Boorstin's answer to this question has been chosen by the Carnegie Corporation of New York for representation in *American Panorama* as one of the 350 books, old and new, most descriptive of life in the United States. He describes the uniqueness of American thought and explains, after a close look at the American past, why we have not produced and are not likely to produce grand political theories or successful propaganda. He also suggests what our attitudes must be toward ourselves and other countries if we are

to preserve our institutions and help others to improve theirs. . . . a fresh and, on the whole, valid interpretation of American political life.—Reinhold Niebuhr, New Leader

Max Perkins A. Scott Berg,2013-08-01 The talents Maxwell Perkins nurtured were known worldwide: F. Scott Fitzgerald, Ernest Hemingway, Thomas Wolfe among numerous others. But the man himself remained a mystery, a backstage presence who served these authors not only as editor but as critic, career manager, moneylender, psychoanalyst, confessor and friend. This outstanding biography, a winner of the National Book Award, is the first to explore the fascinating life of this editor extraordinaire in both professional and personal domains. It tells not only of Perkins' stormy marriage and secret twenty-five-year romance with Elizabeth Lemmon, but also of his intensely intimate relationships with the leading literary lights of the twentieth century.

The Genius Files #2: Never Say Genius Dan Gutman,2012-01-24 The most exciting road trip in history continues! In this second book in the thrilling, New York Times bestselling adventure series, twelve-year-old twins Coke and Pepsi McDonald see the Midwest like you've never seen it before. They never asked to be geniuses. They never asked to get lowered into a basket of boiling French fries, either. And they certainly never asked to be frozen in soft-serve ice cream, stampeded in a wild stadium riot, or kidnapped on a high-speed roller coaster. But that's what happens when a red-haired villain named Archie Clone is chasing you across America. This just might be the most dangerous road trip in history—and the most awesome! With Dan Gutman's laugh-out-loud humor and featuring photos and weird-but-true American tourist destinations like the National Mustard Museum, *The Genius Files* is a one-of-a-kind mix of geography and fun. Don't miss the next action-packed book, *The Genius Files #3: You Only Die Twice!*

Genius Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Genius**," published by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound affect our existence. Throughout this critique, we will delve in to the book is central themes, evaluate its unique writing style, and assess its overall influence on its readership.
