*The Lion and the Eagle* Conrad Kent, Thomas Wolber, Cameron Hewitt, 1999-12-01 The German and Spanish-speaking worlds have, over the centuries, developed an intrinsic relationship, one which predates the Habsburg dynasty and the Renaissance and baroque periods. The cross-fertilization and challenges have been both fruitful and complex with novel inventions surfacing in one culture often achieving their greatest prosperity in the other: Martin Luther's Protestant Reformation stimulated a response in Spain that was to define the European Counter Reformation; Spanish Baroque writers were seminal in the development of German Romanticism; Carl Christian Friedrich Krause and other nineteenth-century liberals provided the foundation for Spanish reformist efforts on the one hand, while German conservatives like Novalis and Adam Müller inspired conservatism on the other; the music of Richard Wagner transformed Spanish music and the Spanish stage at the turn of the twentieth century; Pablo Picasso and other artists of the Spanish avant-garde sparked the enthusiasm of the Germans before the Nazi era. Today, German and Spanish intellectuals and writers share a similar commitment to the creation of a European culture in the face of resistance from other members of the European Union. Viewed from a variety of disciplines this volume explores the relentlessly consistent, albeit often forgotten connections between the two linguistic and cultural groups revealing the myriad of ways in which they have shared and transformed literature, art, culture, politics, and history.

German Military Vehicles in the Spanish Civil War Jose María Mata,Lucas Molina,José María Manrique,2020-01-19 An authoritative and fully illustrated study of the German military vehicles that fought in the Spanish Civil War—from motorcycles to Panzer Tanks. This comprehensive volume examines the combat and logistics vehicles that formed a vital part of the German contingent fighting in the Spanish Civil War alongside Francisco Franco's Nationalist forces. The Panzer I, which so surprised the world in the Polish campaign of World War II, was first seen in the Spanish Civil War. It appeared together with a wide range of war materiel such as antitank guns, flamethrowers, and other armaments. This book covers a wide range of vehicles, each identified in detail: from the humblest motorcycle to the Horch staff car; from Opel 'Blitz', MAN Diesel, Mercedes, and Krupp trucks to the enormous Vomag 3LR 443 truck; as well as the many types of military ambulances seen in Spain during the war years. With more than 500 historic images—most of them previously unpublished—this volume is an unprecedented study of the vehicles used by the German contingent in the Spanish Civil War.

*Blowing up the Rock: German, Italian and Spanish Sabotage attacks on Gibraltar during the Second World War* Bernard O'Connor,2020-01-05 During the Second World War, Gibraltar faced the threat of invasion by Italy, Germany, and Spain. The Abwehr, the German Intelligence Service, rather than use their own saboteurs, paid young Spanish men to undertake over sixty sabotage attacks on military installations and shipping with limited success. The Italian Decima Flotilla MAS, a specialist team of underwater frogmen, launched eight attacks which were relatively successful and Spanish Falangists made several unsuccessful attempts. The British Secret Intelligence Service endeavoured to stop or at least limit such attacks. Using contemporary files from the National Archives in Kew, autobiographies, biographies, histories and newspaper articles, this documentary history investigates the successes and failures of these attacks on Gibraltar and the roles played by intelligence officers, agents, double agents in discovering and preventing such acts. The book sheds light on an unusual and largely overlooked aspect of Gibraltar's history.
