**Searching for Aliens, UFOs, and Men in Black**

Michael Burgan, 2011 Covers UFOs, aliens, and alien abductions, including specific examples and skeptical arguments against the belief in aliens-- Provided by publisher.

Little Green Men, Meowing Nuns and Head-Hunting Panics Robert E. Bartholomew, 2001-06-06 For a two week period in 1956, residents in the vicinity of Taipei, Taiwan, lived in fear that they would be the next victims of a crazed villain who was prowling the streets and slashing people at random with a razor or similar weapon. At least 21 victims were reported during this period, mostly women and children of low income and education. A thorough investigation revealed however, that: five slashings were innocent false reports, seven were self-inflicted cuts, eight were due to cuts rather than razors, and one was complete fantasy. This is one example of many cases of what has traditionally been called mass hysteria that are examined in this comprehensive study of human beings' fear of the unknown. Beginning with a concise history of mass hysteria and social delusions, the author differentiates between the two and investigates mass hysteria in closed settings such as work and school, and mass hysteria in communities with incidents such as gassings, Pokemon illnesses in Japan, and medieval dance crazes. Also examined are collective delusions, with information on five major types:

immediate threat, symbolic scare, mass wish fulfillment, urban legends and mass panics. The book ends with a discussion of major issues in the area of mass hysteria and a look toward the future of this intriguing subject.

**The Anti-Gravity Files** David Hatcher Childress, 2017-04-11 In the tradition of *The Anti-Gravity Handbook* and *the Time-Travel Handbook* comes this all-new compilation of material on anti-gravity, free energy, flying saucers and Tesla technology. With plenty of technical drawings and explanations, this suppressed technology will change the world in ways we can only dream of. Chapters on anti-gravity mercury gyros, the motionless electromagnet generator patent, the Tesla pyramid engine, anti-gravity patents, rare photos of the machines in flight, and tons more. The book that finally blows the lid on suppressed technology and anti-gravity! Heavily illustrated.

*Outbreak!* Hilary Evans, Robert E. Bartholomew, 2009 From fads, crazes, and manias to collective delusions, scares, panics, and mass hysterias, history is replete with examples of remarkable social behavior. Many are fueled by fear and uncertainty; others are driven by hope and expectation. For others still, the causes are more obscure. This massive collection of extraordinary social behaviors spans more than two millennia, and attempts to place many of the episodes within their greater historical and cultural context. Perhaps the most well known example of unusual collective behavior occurred in 1938, when a million or more Americans were

frightened or panicked after listening to a realistic radio drama about a Martian invasion of New Jersey, based on an adaptation of the H.G. Wells novel War of the Worlds. Less known but equally remarkable scares based on Wells' book occurred in Chile in 1944 (when Army units were mobilized), in Ecuador in 1949 (when riots broke out, leaving more than a dozen dead), as well as in Buffalo in 1968, Rhode Island in 1974, and Europe in 1988 and 1998. The modern civilized world is by no means immune to such peculiar episodes. In the late 20th century, scores of people in the U.S. and Europe were wrongly incarcerated following claims of Satanic ritual abuse by authorities untutored in False Memory Syndrome. This episode recalls the European witch terror of the late Middle Ages, when innocent people were tortured and executed for consorting with the Devil based on the flimsiest of evidence. OUTBREAK! THE ENCYCLOPEDIA OF EXTRAORDINARY SOCIAL BEHAVIOR is an authoritative reference on a broad range of topics: collective behavior, deviance, social and perceptual psychology, sociology, history, folklore, religious studies, political science, social anthropology, gender studies, critical thinking, and mental health. Never before have so many sources been brought together on the mesmerizing topic of collective behavior.

*The Government UFO Files* Kevin D Randle, 2014-04-21 Secrets and Suppressed Evidence. Coincidences or Lies? Sifting through hundreds of historical and government documents, interviewing multitudes of participants, and tracking countless number of leads, a former army officer, trained as an intelligence officer, presents a case for government incompetence and, potentially, malfeasance. Shining a harsh light on the government and its secrets, *The Government UFO Files: The Conspiracy of Cover-Up* investigates what the government knows about encounters with UFOs, alien life, and mysterious activities. The government has long collected information and assembled files on unidentified objects, extraterrestrial encounters, and strange convergences in the skies, but with new government secrets constantly being revealed (including

finally admitting the existence of Area 51) is it too much to believe that it is hiding important information on close encounters, UFOs, and alien life? Nearly 100 sightings and other occurrences are thoroughly examined. Suppressed evidence, hidden plots, cover-ups, misleading statements, and documented connections to government intrigue are all addressed. It sorts through the information, sources, and it lets you decide whether the government is being deliberately misleading or whether the conspiracy theories have gotten out of control.

*The Third Kind* Michael Ryan, 2015-11-16 This book is a Compendium of all documented UFO sightings through out history, from as early as 200 BC to Events taking place today on a world wide scale! What does it all mean? Are They real? and if so why are they here? In the end, the decision is yours...

### **Elusive UFOs - a Solid Matter** Jaakko

Närvä,2022-04-20 This is a book dealing with the fundamental question of ufology. Are UFOs real or not? This problem has been studied for decades, and it is still severely debated by ufologists and skeptics. Most academics are skeptics. What is the right answer? This book goes systematically and thoroughly through the essential arguments for and against UFOs and enlightens the scientific grounds of ufology.

UFOs and Government Michael Swords,Robert Powell,2012 Governments around the world have had to deal with the UFO phenomenon for a good part of a century. How and why they did so is the subject of UFOs and Government, a history that for the first time tells the story from the perspective of the governments themselves. It's a perspective that reveals a great deal about what we citizens have seen, and puzzled over, from the outside for so many years. The story, which is unmasked by the governments' own documents, explains much that is new, or at least not commonly known, about the seriousness with which the military and intelligence communities approached the UFO problem internally. Those approaches were not taken lightly. In fact, they were considered matters of national security. At the same time, the story reveals how a subject with such apparent depth of experience and interest became treated as if it were a triviality. And it explains why one government, the United States government, deemed it wise, and perhaps even necessary, to treat it so. Though the book focuses primarily on the U. S.

government's response to the UFO phenomenon, also included is the treatment of the subject by the governments of Sweden, Australia, France, Spain, and other countries. This large-format, fully illustrated book is the result of a team effort that called itself The UFO History Group, a collection of veteran UFO historians and researchers who spent more than four years researching, consulting, writing, and editing to present a work of historical scholarship on government response to the UFO phenomenon. Michael Swords was the primary author of the United States chapters. The work was coordinated and edited by Robert Powell. Clas Svahn, Vicente-Juan Ballester Olmos, Bill Chalker, and Robert Powell contributed country chapters. Jan Aldrich was the primary content consultant, with additional content consultation and writing coming from Barry Greenwood and Richard Thieme. Steve Purcell was the primary photo illustration editor. From the foreword by Jerome Clark: While UFOs and Government revisits an often unhappy history, the reading of it is far from an unhappy experience. The authors, eloquent, intelligent, sophisticated, and conscientious, provide us with the first credible, comprehensive overview of official UFO history in many years... Most of the current volume deals with U.S. military and intelligence responses to the UFO phenomenon, but it also features richly informative chapters that expand the story across the international arena. If you're looking for an example of a nation that dealt productively with the UFO reports that came its official way, you will take heart in the

chapter on the French projects... From here on, every responsible treatment of UFOs and government will have to cite UFOs and Government prominently among its sources... this is the real story as accurately as it can be reconstructed in the second decade of the new century. I expect to keep my copy close at hand and to return to it often. While it cannot be said of many books, UFO-themed or otherwise, this is among the essential ones. Stray from it at your peril.

**UFOs and Abductions** David Michael Jacobs, 2000  
Examining the nature of UFO evidence, the authors present a primer for scholars, skeptics, and others uneasy about investigating the field of UFOs. The volume also brings together three bestselling authors--David M. Jacobs, Budd Hopkins, and Pulitzer Prize winner John Mack--widely known for their writings on the controversial alien abduction phenomenon.

The UFO Dossier Kevin D. Randle, 2015-09-21  
Does the U.S. government know more about UFO and alien life than it admits? Are eyewitnesses telling the truth? What does the historical record say? Former intelligence officer and retired U.S. Army lieutenant colonel Kevin Randle takes an objective look at evidence for alien life and UFOs and presents his findings in *The UFO Dossier: 100 Years of Government Secrets, Conspiracies and Cover Ups*. The author reviews the documents, scours government databases, and interviews witnesses, unearthing details on UFOs, mysterious crashes, sightings, encounters, and related phenomena. *The UFO Dossier* presents plots, cover-ups, misleading statements, and documented

connections to government intrigue—as well as hoaxes and problematic authentications. Following leads and digging into the files of the CIA, the FBI, the FAA, NASA, the Army, Navy, Air Force, and other U.S. government and international agencies, Randle lets the facts guide him. From a short history of UFO projects and the Condon Committee to the complete COMETA report and UFOs in the 21st century, investigations include ... • Asteroids, meteors and UFOs (Tunguska, Battle of LA, Whitted Sighting, ...) • Photographs (McMinnville, Tremonton UFO Movie, Bear Mt. St. Park, ...) • Injuries by UFOs (Fort Itaipu; Cedar City, Utah; Leominster, MA; ...) • Lights in the Night Sky (Lubbock Lights, Belgium Triangle, New Jersey Lights, ...) • Scientists and UFOs (Agoura, CA; Artesia, NM; University of Brazil, ...) • And more ...

**Vril: Secrets of the Black Sun** David Hatcher Childress, 2024-03-04 Childress reveals numerous secrets of the Black Sun in this final volume in his series about the Fourth Reich. David Childress, popular author and star of the History Channel show Ancient Aliens, unveils the amazing story of the German flying disks, designed and built during WWII. It was not until 1989 that a German researcher named Ralf Ettl, living in London, received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft—including the Vril, Haunebu and Andromeda. Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe.

What the Ralf Ettl document dump shows us is what many have suspected for a long time: that WWII did not end in the manner in which we have been told, and a remnant of the Nazi military—particularly the SS—continued to operate aircraft and submarines around the world in the decades after the end of the war. This volume closes with how the SS operates today in the Ukraine and how the Wagner second in command, Dimitry Utkin, killed in the fiery crash of Yevgeny Prigozhin's private jet between Moscow and St. Petersburg in August of 2023, had SS tattoos on his shoulders and often signed his name with the SS runes. Chapters include: Secrets of the Black Sun; The Extra-Territorial Reich; The Rise of the SS; The SS Never Surrendered; Secret Submarines, Antarctica & Argentina; Secret of the Vril; The Marconi Connection; Spectre, the SS, and 007; Yellow Submarine; Ukraine and the Battalion of the Black Sun; more. Includes an 8-page color section. Over 120 photographs and diagrams.

**UFOs in Wartime** Mack Maloney, 2011-12-06 UFOs do exist. They are found in Renaissance art, on ancient coins, etched on cave walls—and even reported in the Bible. Even more surprising is where they are documented most: in times of armed conflict.... Accounts of hovering objects, when war is imminent, reach as far back as 312 A.D. when seen by Roman Emperor Constantine I as he led his troops to battle. They supposedly aided George Washington in winning the American Revolution. UFOs were also reported flying over Normandy on D-Day, and were dubbed “foo fighters” by World War II pilots. In Vietnam, an Air Force commander said

they were "plagued" by UFOs. Even today, the reports continue to pour in, as noiseless objects are seen darting over the battlegrounds of the Middle East. These sightings, as inconceivable as they may seem, are made by high ranking officials, soldiers and news reporters. Why do these reports spike so drastically during wartime? Could it be mistaken aircraft? Or is someone, or something, looking in on us.... Includes incredible photographs of UFOs

**UFO Briefing Document** Don Berliner, 2008-12-18

The shattering report that stunned the world's top leaders—now available to the public! Are UFOs in our midst? The evidence mounts . . . 1952 UFO squadrons over Washington, D.C. Tracked on radar. Visual sightings by military. Verdict: “Unexplainable.” 1976 UFO dogfight with F-4 Phantom II jets over Tehran. Weapons “jammed.” Radar/visual confirmation. Verdict: “Unavailable: Top Secret.” 1981 UFO lands in Trans-en-Provence. Investigated by French police. Soil samples analyzed. Verdict: “UFO. No hoax.” Compiled here are the most compelling and authenticated UFO cases ever recorded. Fresh from the government’s secret files, spanning over a half century of eyewitness testimony, documented sightings, and unexplained phenomena, this groundbreaking compilation presents the chilling evidence that UFOs are real—and that a government cover-up has long suppressed the stunning truth. Complete with excerpts from official transcripts, diagrams, and photos, UFO Briefing Document, funded by Laurance Rockefeller and presented to Congress, contains critical information the public has a right to know . . . now, before it is too late.

Andromeda: The Secret Files David Hatcher Childress, 2021-11-01 David Childress, popular author and star of the History Channel show Ancient Aliens, brings us the amazing story of the German Andromeda craft, designed and built during WWII. Along with flying disks, the Germans were making long, cylindrical airships that are commonly called motherships—large craft that house several smaller disk craft. It was not until 1989

that a German researcher named Ralf Ettl, living in London, received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft—including the Andromeda. Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe. What the Ralf Ettl document dump shows us is what many have suspected for a long time: that WWII did not end in the manner in which we have been told, and a remnant of the Nazi military—particularly the SS—continued to operate aircraft and submarines around the world in the decades after the end of the war. Much of this activity has been attributed to UFO activity, but Childress lifts the veil shrouding some of these cases and shows that Andromeda and Haunebu craft were involved in many of these incidents over the decades. Join Childress as he shows us the secret files involving the Andromeda, Haunebu, and Vrill craft. Chapters include: Gravity's Rainbow; The Motherships; The MJ-12, UFOs and the Korean War; The Strange Case of Reinhold Schmidt; Secret Cities of the Winged Serpent; The Green Fireballs; Submarines That Can Fly; The Breakaway Civilization; more. Includes a 16-page color section. Over 120 photographs and diagrams.
