### Media Power and Democratization in Brazil Mauro

Porto, 2012-09-10 In this book, Porto analyzes the role of TV Globo in the democratization of Brazil. TV Globo, one of the world's largest media conglomerates, has a dominant position in Brazil's communications landscape. It also exports telenovelas to more than 130 countries and has established joint ventures with transnational media conglomerates. Beginning in the mid-1990s, TV Globo began a process of opening, replacing its authoritarian model of journalism with a more independent reporting style. Representations of Brazil in prime time telenovelas have also shifted. Given this shift, Porto considers some of the following questions: •What explains these changes in Brazil's most powerful media company? •How are they related to processes of political and social democratization? •How did TV Globo's opening affect Brazil's emerging democracy, especially in terms of the quality of political accountability mechanisms? Porto uses the Brazilian case of TV Globo to analyze the larger links between democratization, civil society mobilization, and media change in transitional societies.

*Java for Students* Doug Bell, Mike Parr, 2001 Aware that many students need a careful introduction to programming and that they respond well to graphical illustration, this concise book adopts a visual approach to programming. Throughout the text, programs that use graphical images are emphasized to clearly demonstrate all the important programming principles. The authors use a spiral approach to programming concepts; introducing concepts simply early on, then in a more sophisticated way later, (e.g., objects are integrated throughout five chapters). *Java for Students* emphasizes the use of applets but also shows how to program free-standing applications. The authors have been careful to put together a text that covers the powerful features of Java and presents the language to students as both a fun and useful tool.

**Hello, Obama** O Globo, 2014-02-26 Prize-winning work of investigative journalism by Glenn Greenwald, José Casado and Roberto Kaz revealed how the US intelligence services have spied on Brazilian authorities. Following huge amount of data released by Edward Snowden, they exposed how the NSA has tapped phones and infiltrated computer systems to gain access to crucial information from Brazil's biggest companies, such as Petrobras, government officials, diplomats, and even to President Dilma Rousseff's mobile phone. In this ebook, José Casado goes deeper into the process and tells the story of the American intrusion from its origins. It is a rivetting account, full of surprising details. This ebook also brings articles by O Globo's correspondents in the US and in Europe, drawing a bigger picture of the impact of Snowden's revelations.

Recognition and the Media R. Maia, 2014-10-29 This collection examines Axel Honneth's theory of recognition and the crucial role played by the media in struggles for recognition. It brings together debates on controversial aspects of Honneth's work and a set of intriguing empirical studies including with slum-dwelling adolescents, leprosy patients and women exposed to child labor exploitation

**The Political Economy of Television Sports Rights** T. Evens, P. Iosifidis, P. Smith, 2013-08-27 Sport on television is big business, but it is about more than just commerce. Using a range of national case studies from Europe and beyond, this book analyses the political, economic, social and regulatory issues raised in relation to the buying and selling of television sports rights.

Latin American Broadcasting Fox de Cardona Fox, 1997 The conflicts and compromises that accompanied the introduction and growth of radio and television in Latin America are explored in

this comparative-historical analysis of the role of foreign influence on Latin American broadcasting. Documented are stories of how radio and television broadcasting developed in Argentina, Brazil, Chile, Colombia, Mexico, Peru, Uruguay, and Venezuela from the early 20th century to the present.

*Leadership and Change Management* Daphne Halkias, Joseph C. Santora, Nicholas Harkiolakis, Paul W. Thurman, 2017-03-16 A leader's role in the management of change is a critical issue for successful outcomes of strategic initiatives. Globalization and economic instability have prompted an increase in organizational changes related to downsizing and restructuring in order to improve financial performance and organizational competitiveness. Researchers agree that a leader's inability to fully understand what is needed in order to guide their organization through successful change can be a reason for failure. Proper planning and management of change can reduce the likelihood of failure, promote change effectiveness, and increase employee engagement. Yet, change in organizations must be viewed as a continuous activity that affects both organizational and individual outcomes. If change management can be considered as an event induced by socio-cultural factors, the cultural variable gains greater significance when applied to the quality of the relationship between a leader and their team. Many organizations today are on the verge of internationalization. It is here that the cultural context can affect behaviors and, in the same way, leadership style. The research presented in this book by an eminent group of scholars explores the influence of culture - ethnic, regional, religious - on how leaders manage change within organizations.

**Art Systems** Elena Shtromberg, 2016-02-01 From currency and maps to heavily censored newspapers and television programming, Art Systems explores visual forms of critique and subversion during the height of Brazilian dictatorship, drawing sometimes surprising connections between artistic production

and broader processes of social exchange during a period of authoritarian modernization. Positioning the works beyond the prism of politics, Elena Shtromberg reveals subtle forms of subversion and critique that reinvented the artists' political terrain. Analyzing key examples from Cildo Meireles, Antonio Manuel, Artur Barrio, Anna Bella Geiger, Sonia Andrade, Geraldo Mello, and others, the book offers a new framework for theorizing artistic practice. By focusing on the core economic, media, technological, and geographic conditions that circumscribed artistic production during this pivotal era, Shtromberg excavates an array of art systems that played a role in the everyday lives of Brazilians. An examination of the specific historical details of the social systems that were integrated into artistic production, this unique study showcases works that were accessed by audiences far outside the confines of artistic institutions. Proliferating during one of Brazil's most socially and politically fraught decades, the works—spanning cartography to video art—do not conform to an easily identifiable style, form, material use, or medium. As a result of this breadth, *Art Systems* gives voice to the multifaceted forces at play in a unique chapter of Latin American cultural history.

**Cultures and Politics of Global Communication: Volume 34, Review of International Studies** Costas M.

Constantinou, Oliver P. Richmond, Alison Watson, 2008-06-12 This special issue of *Review of International Studies* focuses on how International Relations (IR) communicates with the world, and vice versa. It opens up the discussion of the politics of communication within the discipline and beyond. With a variety of different mediums ranging from media, film, memory, music, culture, and emotions, this book seeks to accentuate their importance for IR, both as a source of knowledge and as an ideational exchange which shapes IR. It examines the diverse ways that multidisciplinary thinkers try to understand and explain global routes, mobilities, cultures, commodifications,

singularities, discourses and aestheticisations. This special issue specifically addresses three interrelated themes: How international and global studies approach the question of communication, how to conceptualise and respond to the globalisation of communication and how global problems get communicated within and across the institutional settings of the epistemic disciplines in general, and the IR discipline in particular.

**Global Media** Edward Herrmann, Robert W.

McChesney, 2001-08-27 Describes in detail the most recent rapid growth and cross border activities and linkages of an industry of large global media conglomerates.

Reimagining Brazilian Television Eli Lee Carter, 2018-05-11

The Brazilian television industry is one of the most productive and commercially successful in the world. At the forefront of this industry is TV Globo and its production of standardized telenovelas, which millions of Brazilians and viewers from over 130 countries watch nightly. Eli Lee Carter examines the field of television production by focusing on the work of one of Brazil's greatest living directors, Luiz Fernando Carvalho. Through an emphasis on Carvalho's thirty-plus year career working for TV Globo, his unique mode of production, and his development of a singular aesthetic as a reaction to the dominant telenovela genre, Carter sheds new light on Brazilian television's history, its current state, and where it is going—as new legislation and technology push it increasingly toward a post-network era.

*Journalism and Political Democracy in Brazil* Carolina

Matos, 2008 This book explores the process of media development and democratization in Brazil from the end of the dictatorship in 1985 to today's market liberal press. *Journalism and Political Democracy in Brazil* is intended for those interested in Latin American and Brazilian politics, history, and media, as well as for those concerned about the role of the press in democratic transitions and the limitations imposed upon them during the

process of demoratization.

*Media on the Move* Daya Kishan Thussu, 2006-10-31 *Media on the Move* provides a critical analysis of the dynamics of the international flow of images and ideas. This comes at a time when the political, economic and technological contexts within which media organisations operate are becoming increasingly global. The surge in transnational traffic in media products has primarily benefited the major corporations such as Disney, AOL, Time Warner and News Corporation. However, as this book argues, new networks have emerged which buck this trend: Brazilian TV is watched in China, Indian films have a huge following in the Arab world and Al Jazeera has become a household name in the West. Combining a theoretical perspective on contra-flow of media with grounded case studies into one up-to-date and accessible volume, *Media on the Move* provides a much-needed guide to the globalization of media, going beyond the standard Anglo-American view of this evolving phenomenon.

*New Transnationalisms in Contemporary Latin American Cinemas* Dolores Tierney, 2018-01-23 Through a textual analysis of six filmmakers (Alejandro González Iñárritu, Alfonso Cuarón, Guillermo del Toro, Fernando Meirelles, Walter Salles and Juan José Campanella), this book brings a new perspective to the films of Latin America's transnational auteurs.

**II Globo** Bruno Mascitelli, Simone Battiston, James Jupp, 2009 In 2009 Australia's leading Italian-language newspaper *II Globo* marks 50 years of publication. It has been at the forefront of the heights and the challenges of Italian post-war migration to Australia. *II Globo* has been viewed as a leading community institution making its presence felt on Italian related issues.

**Voices of Challenge in Australia's Migrant and Minority Press** Catherine Dewhirst, Richard Scully, 2021-12-03 This book brings together long-obscured histories to discuss Australia's cultural, social, and political diversity in depth. The history of Australia's migrant and minority print media reveals extensive

evidence for the nation's global connectedness, from the colonial era to today. A fascinating and complex picture of Australia's long-term transnational ties emerges from the smaller enterprises of individuals and communities in the distant and more recent past. This book explores the authentic voices of minority groups which challenged the dominant experiences, patterns, and debates that have shaped Australia.

**Globalization and Latin American Cinema** Sophia A. McClennen, 2018-05-25 Studying the case of Latin American cinema, this book analyzes one of the most public - and most exportable- forms of postcolonial national culture to argue that millennial era globalization demands entirely new frameworks for thinking about the relationship between politics, culture, and economic policies. Concerns that globalization would bring the downfall of national culture were common in the 1990s as economies across the globe began implementing neoliberal, free market policies and abolishing state protections for culture industries. Simultaneously, new technologies and the increased mobility of people and information caused others to see globalization as an era of heightened connectivity and progressive contact. Twenty-five years later, we are now able to examine the actual impact of globalization on local and regional cultures, especially those of postcolonial societies. Tracing the full life-cycle of films and studying blockbusters like *City of God*, *Motorcycle Diaries*, and *Children of Men* this book argues that neoliberal globalization has created a highly ambivalent space for cultural expression, one willing to market against itself as long as the stories sell. The result is an innovative and ground-breaking text suited to scholars interested in globalization studies, Latin-American studies and film studies.
