Current Advances in Mechanical Design and Production VII M.F. Hassan,S.M. Megahed,2000-01-31 The International Conference on Mechanical Design and Production has over the years established itself as an excellent forum for the exchange of ideas in these established fields. The first of these conferences was held in 1979. The seventh, and most recent, conference in the series was held in Cairo during February 15-17, 2000. International engineers and scientists gathered to exchange experiences and highlight the state-of-the-art research in the fields of mechanical design and production. In addition a heavy emphasis was placed on the issue of technology transfer. Over 100 papers were accepted for presentation at the conference. Current Advances in Mechanical Design & Production VII does not, however, attempt to publish the complete work presented but instead offers a sample that represents the quality and breadth of both the work and the conference. Ten invited papers and 54 ordinary papers have been selected for inclusion in these proceedings. They cover a range of basic and applied topics that can be classified into six main categories: System Dynamics, Solid Mechanics, Material Science, Manufacturing Processes, Design and Tribology, and Industrial Engineering and its Applications.

**When All That's Left of Me Is Love** Linda Campanella,2011-08 When All That's Left of Me Is Love is an intensely personal story about one family's determination to enjoy life while anticipating death. Linda Campanella's emotional account of her last year with her mother, Nancy Sachsse, wrote itself on the pages of her mind as she lay awake unable to sleep in the days and weeks following Nan's death one year and one day after a diagnosis of terminal cancer. It is a heartwarming memoir filled with insights and inspirations that will help anyone jolted into confronting the inevitability and sudden imminence of death. Join the author as she reconstructs and relives a year of living while dying and, in the process, comes to terms with the pain and permanence of her loss. When All That's Left of Me Is Love is indeed a sad story born of death, but it is above all an uplifting portrait of living, loving, believing, and letting go. It is a celebration of the special bond between mothers and daughters, a touching love story, a spiritual journey, a poetry lesson, and even a case for happy hour. This story of a daughter's undying love for her dying mother will move and inspire not only those who face or fear death but also those who love and embrace life. 'This book is truly a testament of love, as the title suggests. It is about love refined and deepened by grief and gratitude. It is a tribute to a mother who loved with her last breath and beyond. It is the story of a daughter who gives herself away through the gift of her pen.' -Sharon G. Thornton, Ph.D., Professor of Pastoral Theology at Andover Newton Theological School
