Hero on a Mission Donald Miller,2022-01-11 New York Times bestselling author Donald Miller shares the plan that led him to turn his life around. This actionable guide will teach you how to do the same through journaling prompts and goal-planning exercises. There are four characters in every story: The victim, the villain, the hero, and the guide. These four characters live inside us. If we play the victim, we're doomed to fail. If we play the villain, we will not create genuine bonds. But if we play the hero or guide, our lives will flourish. The hard part is being self-aware enough to know which character we are playing. In this book, bestselling author Donald Miller uses his own experiences to help you recognize if the character you are currently surfacing is helping you experience a life of meaning. He breaks down the transformational, yet practical, plan that took him from slowly giving up to rapidly gaining a new perspective of his own life's beauty and meaning, igniting his motivation, passion, and productivity, so you can do the same. In Hero on a Mission, Donald's lessons will teach you how to: Discover when you are playing the victim and villain. Create a simple life plan that will bring clarity and meaning to your goals ahead. Take control of your life by choosing to be the hero in your story. Cultivate a sense of creativity about what your life can be. Move beyond just being productive to experiencing a deep sense of meaning. Donald will help you identify the many chances you have of being the hero in your life, and the times when you are falling into the trap of becoming the victim. Hero on a Mission will guide you in developing a unique plan that will speak to the challenges you currently face so you can find the fulfillment you have been searching for in your life and work.

How to Be a Hero Florence Parry Heide, 2016-10-04 Once upon a time, there was a nice boy and his name was Gideon. He lived in a nice house, and he had nice parents and lots of toys. But Gideon wasn't satisfied. He wanted to be a hero. You know, a hero, with his name on the front page of the newspaper. That sort of thing. So how does anyone get to be a hero, anyway? Heroes have to be strong. Heroes have to be brave. Heroes have to be clever. Don't they? With wry humor, Florence Parry Heide and Chuck Groenink explore how we choose our idols in a witty story that leaves it to readers to decide the real nature of heroism. Plus, this is the fixed format version, which looks almost identical to the print edition.

The Hero Ron Woods, 2002 Nobody would believe Dennis Leeper was a hero. He was the kind of kid you hid from when he pedaled his rickety bike down the road. But Jamie couldn't say no when his father asked him to include Dennis in the raft project. And someone needed to hold the line when Jamie and his cousin Jerry finally got the raft in the river. But they should have known that Dennis couldn't be trusted to hold onto it. Without paddles and out of people's sight, the three boys are swept downstream--toward the dams, the steep falls, and three separate destinies. One swims to shore. One is rescued. And one never returns alive. Overcome by guilt and the fear that Dennis's father will take revenge for his son's death, Jamie tells everyone how he survived: Dennis was a hero. The question is: Will anyone believe it? From the Hardcover edition.

The Hero's Journey Joseph Campbell, 2003 Joseph Campbell, arguably the greatest mythologist of our time, was certainly one of our greatest storytellers.

What Makes a Hero? Elizabeth Svoboda, 2013-08-29 An entertaining investigation into the biology and psychology of why we sacrifice for other people Researchers are now applying the lens of science to study heroism for the first time. How do biology, upbringing, and outside influences intersect to produce altruistic and heroic behavior? And how can we encourage this behavior in corporations, classrooms, and individuals? Using dozens of fascinating real-life examples, Elizabeth Svoboda explains how our genes compel us to do good for others, how going through suffering is linked to altruism, and how acting heroic can greatly improve your mental health. She also reveals the concrete things we can do to encourage our most heroic selves to step forward. It's a common misconception that heroes are heroic just because they're innately predisposed to be that way. Svoboda shows why it's not simply a matter of biological hardwiring and how anyone can be a hero if they're committed to developing their heroic potential.

Hero-type Barry Lyga, 2008 Feeling awkward and ugly is only one reason sixteen-year-old Kevin is uncomfortable with the publicity surrounding his act of accidental heroism, but when a reporter photographs him apparently being unpatriotic, he steps into the limelight to encourage people to think about what the symbols of freedom really mean. 35,000 first printing.

In Quest of the Hero Otto Rank, Fitzroy Richard Somerset Raglan, Alan Dundes, 1990-11-21 *In Quest of the Hero* makes available for a new generation of readers two key works on hero myths: Otto Rank's *Myth of the Birth of the Hero* and the central section of Lord Raglan's *The Hero*. Amplifying these is Alan Dundes's fascinating contemporary inquiry, *The Hero Pattern and the Life of Jesus*. Examined here are the patterns found in the lore surrounding historical or legendary figures like Gilgamesh, Moses, David, Oedipus, Odysseus, Perseus, Heracles, Aeneas, Romulus, Siegfried, Lohengrin, Arthur, and Buddha. Rank's monograph remains the classic application of Freudian theory to hero myths. In *The Hero* the noted English ethnologist Raglan singles out the myth-ritualist pattern in James Frazer's many-sided *Golden Bough* and applies that pattern to hero myths. Dundes, the eminent folklorist at the University of California at Berkeley, applies the theories of Rank, Raglan, and others to the case of Jesus. In his introduction to this selection from Rank, Raglan, and Dundes, Robert Segal, author of the major study of Joseph Campbell, charts the history of theorizing about hero myths and compares the approaches of Rank, Raglan, Dundes, and Campbell.
