How Dov Seidman, 2011-09-09 The flood of information, unprecedented transparency, increasing interconnectedness-and our global interdependence-are dramatically reshaping today's world, the world of business, and our lives. We are in the Era of Behavior and the rules of the game have fundamentally changed. It is no longer what you do that matters most and sets you apart from others, but how you do what you do. What's are commodities, easily duplicated or reverse-engineered. Sustainable advantage and enduring success for organizations and the people who work for them now lie in the realm of how, the new frontier of conduct. For almost two decades, Dov Seidman's pioneering organization, LRN, has helped some of the world's most respected companies build do it right, winning cultures and inspire principled performance throughout their organizations. Seidman's distinct vision of the world, business, and human endeavor has helped enable more than 15 million people doing business in more than 120 countries to outbehave the competition. In *HOW: Why HOW We Do Anything Means Everything*, Dov Seidman shares his unique approach with you. Now updated and expanded, *HOW* includes a new Foreword from President Bill Clinton and a new Preface from Dov Seidman on why how we behave, lead, govern, operate, consume, engender trust in our relationships, and relate to others matters more than ever and in ways it never has before. Through entertaining anecdotes, surprising case studies, cutting-edge research in a wide range of fields, and revealing interviews with a diverse group of leaders, business executives, experts, and everyday people on the front lines, this book explores how we think, how we behave, how we lead, and how we govern our institutions and ourselves to uncover the values-inspired hows of twenty-first-century success and significance. Divided into four comprehensive parts, this insightful book: Exposes the forces and factors that have fundamentally restructured the world in which organizations operate and their people conduct themselves, placing a new focus on their hows Provides frameworks to help you understand those hows and implement them in powerful and productive ways Helps you channel your actions and decisions in order to thrive uniquely within today's new realities Sheds light on the systems of how-the dynamics between people that shape organizational culture-and introduces a bold new vision for leading and winning through self-governance The qualities that many once thought of as soft-values, trust, and reputation-are now the hard currency of success and the ultimate drivers of efficiency, performance, innovation, and growth. With in-depth insights and practical advice, *HOW* will help you bring excellence and significance to your business endeavors- and your life-and refocus your efforts in powerful new ways. If you want to stand out, to thrive in our fast changing, hyper-connected, and hypertransparent world, read this book and discover *HOW*.

Who Not How Dan Sullivan, Dr. Benjamin Hardy, 2020-10-20 The world's foremost entrepreneurial coach shows you how to make a mindset shift that opens the door to explosive growth and limitless possibility--in your business and your life. Have you ever had a new idea or a goal that excites you... but not enough time to execute it? What about a goal you really want to accomplish...but can't because instead of taking action, you procrastinate? Do you feel like the only way things are going to get done is if you do them? But what if it wasn't that way? What if you had a team of people around you that helped you accomplish your goals (while you helped them accomplish theirs)? When we want something done, we've been trained to ask ourselves: How can I do this? Well, there is a better question to ask. One that unlocks a whole new world of ease and accomplishment. Expert coach Dan Sullivan knows the question we should ask instead: Who can do this for me? This may seem simple. And it is. But don't let the lack of complexity fool you. By mastering this question, you will quickly learn how billionaires and successful entrepreneurs like Dan build incredible businesses and personal freedom. This book will teach you how to make this essential paradigm-shift so you can:

- Build a successful business effectively while not killing yourself
- Immediately free-up 1,000+ hours of work that you shouldn't be doing anyway
- Bypass the typical scarcity and decline of aging and other societal norms
- Increase your vision in all areas of life and build teams of WHOs to support you in that vision
- Never be limited in your goals and ambitions again
- Expand your abundance of wealth, innovation, relationships, and joy
- Build a life where everything you

do is your choice--how you spend your time, how much money you make, the quality of your relationships, and the type of work you do Making this shift involves retraining your brain to stop limiting your potential based on what you solely can do and instead focus on the nearly infinite and endless connections between yourself and other people as well as the limitless transformation possible through those connections.

How to Tame a Fox (and Build a Dog) Lee Alan Dugatkin, Lyudmila Trut, 2017-03-23 This true story of an amazing breeding experiment in Siberia is “part science, part Russian fairy tale, and part spy thriller” (The New York Times Book Review). Tucked away in Siberia, there are furry, four-legged creatures with wagging tails and floppy ears that are as docile and friendly as any lapdog. But despite appearances, these are not dogs—they are foxes. They are the result of the most astonishing experiment in breeding ever undertaken—imagine speeding up thousands of years of evolution into a few decades. In 1959, biologists Dmitri Belyaev and Lyudmila Trut set out to do just that, starting with a few dozen silver foxes from fox farms in the USSR and attempting to recreate the evolution of wolves into dogs in real time in order to witness the process of domestication. This is the extraordinary, untold story of this remarkable undertaking. Most accounts of the natural evolution of wolves place it over a span of about 15,000 years, but within a decade, Belyaev and Trut’s fox breeding experiments had resulted in puppy-like foxes with floppy ears, piebald spots, and curly tails. Along with these physical changes came genetic and behavioral changes, and with each generation, they became increasingly interested in human companionship. To date, fifty-six generations of foxes have been domesticated. In this book Trut, along with biologist and science writer Lee Dugatkin, tells the story of the adventure, science, politics, and love behind it all. Dugatkin and Trut take us inside this path-breaking experiment in the midst of the brutal Siberian winters to reveal how scientific history is made and continues to be made today. “The science is profound, but the authors write accessibly and engagingly—and their vulpine subjects are awfully cute, too. Of compelling interest to any animal lover.” —Kirkus Reviews (starred review) “A cheerful, easy-to-read account. . . . spin[s] complex genetic science into a fascinating story about adorable foxes.” —Publishers Weekly “An extraordinary story.” —Times Literary Supplement

How To Clear The Negative Ego Joshua Stone,2001-02-07 There is no more important lesson in life to understand, then it is your thoughts that create your reality! Your thoughts create your feelings, emotions, behavior and what you attract and magnetize into your life. Many people think that we see with our eyes. The truth is we see through our consciousness, minds and belief system! There are in truth only two philosophies and feelings and emotions in life. The philosophy and feeling of fear, and the philosophy and feeling of Love. The key to realizing God is to only think and feel from your Love based/Spiritual/Christ/Buddha mind. This is why the Bible states, Let this mind be in you that was in Christ Jesus! It is by mastering our mind that all negative feeling and emotions can be released and one can learn to live in self mastery, centeredness, unconditional love, joy, peace, forgiveness, nonjudgmentalness and equanimity at all times!
