Hunger Roxane Gay,2017-06-13 From the New York Times bestselling author of *Bad Feminist*: a searingly honest memoir of food, weight, self-image, and learning how to feed your hunger while taking care of yourself. “I ate and ate and ate in the hopes that if I made myself big, my body would be safe. I buried the girl I was because she ran into all kinds of trouble. I tried to erase every memory of her, but she is still there, somewhere. . . . I was trapped in my body, one that I barely recognized or understood, but at least I was safe.” In her phenomenally popular essays and long-running Tumblr blog, Roxane Gay has written with intimacy and sensitivity about food and body, using her own emotional and psychological struggles as a means of exploring our shared anxieties over pleasure, consumption, appearance, and health. As a woman who describes her own body as “wildly undisciplined,” Roxane understands the tension between desire and denial, between self-comfort and self-care. In *Hunger*, she explores her past—including the devastating act of violence that acted as a turning point in her young life—and brings readers along on her journey to understand and ultimately save herself. With the bracing candor, vulnerability, and power that have made her one of the most admired writers of her generation, Roxane explores what it means to learn to take care of yourself: how to feed your hungers for delicious and satisfying food, a smaller and safer body, and a body that can love and be loved—in a time when the bigger you are, the smaller your world becomes.

Hunger Knut Hamsun,2012-06 *Hunger* by Knut Hamsun - The Original Classic Edition Finally available, a high quality book of the original classic edition. This is a new and freshly published edition of this culturally important work, which is now, at last, again available to you. Enjoy this classic work today. These selected paragraphs distill the contents and give you a quick look inside: From there his parents moved when he was only four to settle in the far northern district of Lofoden--that land of extremes, where the year, and not the day, is evenly divided between darkness and light; where winter is a long dreamless sleep, and summer a passionate dream without sleep; where land and sea meet and intermingle so gigantically that man is all but crushed between the two--or else raised to titanic measures by the spectacle of their struggle. ...But when Kareno, the irreconcilable rebel of *At the Gates* of the Kingdom, the heaven-storming truth-seeker of *The Game of Life*, and the acclaimed radical leader in the first acts of *Sunset Glow*, surrenders at last to the powers that be in order to gain a safe and sheltered harbor for his declining years, then another man of 29 stands ready to denounce him and to take up the rebel cry of youth to which he has become a traitor. Hamsuns ironical humor and whimsical manner of expression do more than the plot itself to knit the plays into an organic unit, and several of the characters are delightfully drawn, particularly the two women who play the greatest part in Karenos life: his wife Eline, and Teresita, who is one more of his many feminine embodiments of the passionate and changeable Northland nature. ...From 1897 to 1912 Hamsun produced a series of volumes that simply marked a further development of the tendencies shown in his first novels: *Siesta*, short stories, 1897; *Victoria* a novel with a charming love story that embodies the tenderest note in his production, 1898; *In Wonderland*, travelling sketches from the Caucasus, 1903; *Brushwood*, short stories, 1903; *The Wild Choir*, a collection of poems, 1904; *Dreamers*, a novel, 1904; *Struggling Life*, short stories and travelling sketches, 1905; *Beneath the Autumn Star* a novel, 1906; *Benoni*, and *Rosa*, two novels forming to some extent sequels to *Pan*, 1908; *A Wanderer Plays with Muted Strings*, a novel, 1909; and *The Last Joy*, a shapeless work, half novel and half mere uncoordinated reflections, 1912. ...I turned to a shop window and stopped in order to give him an opportunity of getting ahead, but when, after a lapse of some minutes, I again walked on there was the man still in front of me--he too had stood stock still, --without stopping to reflect I made three or four furious onward strides, caught him up, and slapped him on the shoulder.

Hunger Sharman Apt Russell,2006-09-05 Every day, we wake up hungry. Every day, we break our fast. Hunger is both a natural and an unnatural human condition. In *Hunger*, Sharman Apt Russell explores the range of this primal experience. Step by step, Russell takes us through the physiology of hunger, from eighteen hours without food to thirty-six hours to three days to seven days to thirty days. In quiet, elegant prose, she asks a question as big as history and as everyday as skipping lunch: How does hunger work?

Big Hunger Andrew Fisher,2018-04-13 How to focus anti-hunger efforts not on charity but on the root causes of food insecurity, improving public health, and reducing income inequality. Food banks and food pantries have proliferated in response to an economic emergency. The loss of manufacturing jobs combined with the recession of the early 1980s and Reagan administration cutbacks in federal programs led to an explosion in the growth of food charity. This was meant to be a stopgap measure, but the jobs never came back, and the “emergency food system” became an industry. In *Big Hunger*, Andrew Fisher takes a critical look at the business of hunger and offers a new vision for the anti-hunger movement. From one perspective, anti-hunger leaders have been extraordinarily effective. Food charity is embedded in American civil society, and federal food programs have remained intact while other anti-poverty programs have been eliminated or slashed. But anti-hunger advocates are missing an essential element of the problem: economic inequality driven by low wages. Reliant on corporate donations of food and money, anti-hunger organizations have failed to hold business accountable for offshoring jobs, cutting benefits, exploiting workers and rural communities, and resisting wage increases. They have become part of a “hunger industrial complex” that seems as self-perpetuating as the more famous military-industrial complex. Fisher lays out a vision that encompasses a broader definition of hunger characterized by a focus on public health, economic justice, and economic democracy. He points to the work of numerous grassroots organizations that are leading the way in these fields as models for the rest of the anti-hunger sector. It is only through approaches like these that we can hope to end hunger, not just manage it.

Are the meds no longer working? Together, they set out to find the only thing that will quell their hunger: real food. It's a journey that will change everything Thalia thought she knew. But can a privy like her ever truly be part of a revolution?

Mother Hunger Kelly McDaniel,2021-07-20 An insatiable need for sex and love. Periods of overeating or starving. A pattern of unstable and painful relationships. Does this sound painfully familiar? Trauma counselor Kelly McDaniel has seen these traits over and over in clients who feel trapped in cycles of harmful behaviors-and are unable to stop. Many of us find ourselves stuck in unhealthy habits simply because we don't see a better way. With *Mother Hunger*, McDaniel helps women break the cycle of destructive behavior by taking a fresh look at childhood trauma and its lasting impact. In doing so, she destigmatizes the shame that comes with being under-mothered and misdiagnosed. McDaniel offers a healing path with powerful tools that include therapeutic interventions and lifestyle changes in service to healthy relationships. The constant search for mother love can be a lifelong emotional burden, but healing begins with knowing and naming what we are missing. McDaniel is the first clinician to identify *Mother Hunger*, which demystifies the search for love and provides the compass that each woman needs to end the

struggle with achy, lonely emptiness, and come home to herself.

Hunger Martin Caparros,2020-02-25 Nothing less than astonishing...—Booklist (starred review) From a renowned international journalist comes a galvanizing international bestseller about mankind's oldest, most persistent, and most brutal problem—world hunger. There are now over 800 million starving people in the world. An average of 25,000 men and women, and in particular children, perish from hunger every day. Yet we produce enough food to feed the entire human population one-and-a-half times over. So why is it that world hunger remains such a deadly problem? In this crucial and inspiring work, award-winning author Martín Caparrós travels the globe in search of an answer. His investigation brings him to Africa and the Indian subcontinent where he witnesses starvation first-hand; to Chicago where he documents the greed of corporate food distributors; and to Buenos Aires where he accompanies trash scavengers in search of something to eat. An international bestseller when it first appeared, this first-ever English language edition has been updated by Caparrós to consider whether conditions that have improved or worsened since the book's European publication. With its deep reflections and courageous journalism, Caparrós has created a powerful and empathic work that remains committed to ending humankind's longest ongoing crisis.

When German troops surround Leningrad in the fall of 1941, he becomes a captive in the siege. As food supplies dwindle, residents eat the bark of trees, barter all they own for flour, and trade sex for food. In the darkest winter hours of the siege, the institute's scientists make a pact to leave untouched the precious storehouse of seeds that they believe is the country's future. But such a promise becomes difficult to keep when hunger is grows undeniable. Based on true events from World War II, *Hunger* is a private story about a man wrestling with his own morality. Sacred Hunger Barry Unsworth,2012-01-10 Winner of the Booker Prize A historical novel set in the eighteenth century, *Sacred Hunger* is a stunning, engrossing exploration of power, domination, and greed in the British Empire as it entered fully into the slave trade and spread it throughout its colonies. Barry Unsworth follows the failing fortunes of William Kemp, a merchant pinning his last chance to a slave ship; his son who needs a fortune because he is in love with an upper-class woman; and his nephew who sails on the ship as its doctor because he has lost all he has loved. The voyage meets its demise when disease spreads among the slaves and the captain's drastic response provokes a mutiny. Joining together, the sailors and the slaves set up a secret, utopian society in the wilderness of Florida, only to await the vengeance of the single-minded, young Kemp.

Zero Hunger Aaron Ansell,2014-05-19 When Luiz Inacio Lula da Silva of Brazil's Workers' Party soared to power in 2003, he promised to end hunger in the nation. In a vivid ethnography with an innovative approach to Brazilian politics, Aaron Ansell assesses President Lula's flagship antipoverty program, Zero Hunger (Fome Zero), focusing on its rollout among agricultural workers in the poor northeastern state of Piaui. Linking the administration's fight against poverty to a more subtle effort to change the region's political culture, Ansell rethinks the nature of patronage and provides a novel perspective on the state under Workers' Party rule. Aiming to strengthen democratic processes, frontline officials attempted to dismantle the long-standing patron-client relationships--Ansell identifies them as intimate hierarchies--that bound poor people to local elites. Illuminating the symbolic techniques by which officials attempted to influence Zero Hunger beneficiaries' attitudes toward power, class, history, and ethnic identity, Ansell shows how the assault on patronage increased political awareness but also confused and alienated the program's participants. He suggests that, instead of condemning patronage, policymakers should harness the emotional energy of intimate hierarchies to better facilitate the participation of all citizens in political and economic development.

Ending Book Hunger Lea Shaver,2020-02-18 An eye-opening exploration of “book hunger”—the unmet need for books in underserved communities—and efforts to universalize access to print Worldwide, billions of people suffer from book hunger. For them, books are too few, too expensive, or do not even exist in their languages. Lea Shaver argues that this is an educational crisis: the most reliable predictor of children’s achievement is the size of their families’ book collections. This book highlights innovative nonprofit solutions to expand access to print. First Book, for example, offers diverse books to teachers at bargain prices. Imagination Library mails picture books to support early literacy in book deserts. Worldreader promotes mobile reading in developing countries by turning phones into digital libraries. Pratham Books creates open access stories that anyone may freely copy, adapt, and translate. Can such efforts expand to bring books to the next billion would-be readers? Shaver reveals the powerful roles of copyright law and licensing, and sounds the clarion call for readers to contribute their own talents to the fight against book hunger.

Betting on Famine Jean Ziegler,2013-08-06 Few know that world hunger was very nearly eradicated in our lifetimes. In the past five years, however, widespread starvation has suddenly reappeared, and chronic hunger is a major issue on every continent. In an extensive investigation of this disturbing shift, Jean Ziegler—one of the world’s leading food experts—lays out in clear and accessible terms the complex global causes of the new hunger crisis. Ziegler’s wide-ranging and fascinating examination focuses on how the new sustainable revolution in energy production has diverted millions of acres of corn, soy, wheat, and other grain crops from food to fuel. The results, he shows, have been sudden and startling, with declining food reserves sending prices to record highs and a new global commodities market in ethanol and other biofuels gobbling up arable lands in nearly every continent on earth. Like Raj Patel’s pathbreaking Stuffed and Starved, Betting on Famine will enlighten the millions of Americans concerned about the politics of food at home—and about the forces that prevent us from feeding the world’s children.

Hunger Knut Hamsun,1920 One of the most important and controversial writers of the 20th century, Knut Hamsun made literary history with the publication in 1890 of this powerful, autobiographical novel recounting the abject poverty, hunger and despair of a young writer struggling to achieve self-discovery and its ultimate artistic expression. The book brilliantly probes the psychodynamics of alienation and obsession, painting an unforgettable portrait of a man driven by forces beyond his control to the edge of self-destruction. Hamsun influenced many of the major 20th-century writers who followed him, including Kafka, Joyce and Henry Miller. This book is required reading in world literature courses. Unabridged republication of the 1921 George Egerton translation.
