The Positive Habit Fiona Brennan, 2019-03-01 Love, calmness, confidence, gratitude, hope and happiness: the six emotions that tip the balance of our mindset in favour of a positive outlook rather than a negative one. Wouldn't it be great to feel more of these positive emotions? Now you can with Fiona Brennan's ultimate manual for the mind. With a chapter on each emotion, and practical steps on how to cultivate them, the plan utilises mindfulness, habit loops, positive psychology and neuroscience to help soothe anxiety and stress. It will show you how to train your brain to embrace negative thoughts with courage and love before transforming them into positive ones. Accompanied by audio-hypnotherapy meditations that take just a few minutes a day, split between morning and evening, it will transform your mental health as you doze off peacefully to the sleep-time audio and start the day happy with the seven-minute morning ritual. Take control of your emotional health and build your ladder to happiness so that you flourish as you develop The Positive Habit. 'Life-changing! Manifest the habit of happiness and success.' Hypnotic Gastric Band Paul McKenna, Ph.D., 2016-01-05 More than 50 percent of Americans are overweight and looking for a solution. At last, there has been a weight-loss breakthrough that's easy and has a significant success rate: Paul McKenna's Hypnotic Gastric Band. Gastric band surgery, a radical operation that reduces the available space in the stomach, is a drastic—though often highly effective—treatment that's often a last resort. Hypnotic Gastric Band offers similar results without the risks of surgery: this psychological procedure works to convince the unconscious mind that a gastric band has been put in place, helping the body to behave as if a band were physically present—so it's easy to eat less and lose weight at last, while still feeling completely satisfied. Dr. McKenna spent years researching this groundbreaking process with leading medical experts in weight loss. He describes it as the closest thing to real magic I have ever experienced, except this procedure isn't magic, it's grounded in solid science. All our

decisions about food are made in the mind, which in many ways is like a computer. Hypnosis helps to reprogram the computer so that when people eat, they feel full faster. With the Hypnotic Gastric Band there is no dangerous physical surgery, no forbidden food, and no miserable dieting. Instead, the Hypnotic Gastric Band helps people make healthier food choices, enjoy their food more, and eat less without effort and without feeling deprived. The book comes with free digital downloads of guided hypnosis and detailed instructions to install your Hypnotic Gastric Band and to adjust it as the weight comes off. Just read the short book, then download the essential 25-minute hypnotic trance and start reprogramming your mind to eat less.
