Metaheuristics in Machine Learning: Theory and Applications Diego Oliva, This book is a collection of the most recent approaches that combine metaheuristics and machine learning. Some of the methods considered in this book are evolutionary, swarm, machine learning, and deep learning. The chapters were classified based on the content; then, the sections are thematic. Different applications and implementations are included; in this sense, the book provides theory and practical content with novel machine learning and metaheuristic algorithms. The chapters were compiled using a scientific perspective. Accordingly, the book is primarily intended for undergraduate and postgraduate students of Science, Engineering, and Computational Mathematics and is useful in courses on Artificial Intelligence, Advanced Machine Learning, among others. Likewise, the book is useful for research from the evolutionary computation, artificial intelligence, and image processing communities.

Sustaining the Soil Chris Reij, Ian Scoones, Calmilla Toulmin, 2013-11-19 Indigenous soil and water conservation practices are rarely acknowledged in the design of conventional development projects. Instead, the history of soil and water conservation in Africa has been one of imposing external solutions without regard for local practice. There is a remarkably diverse range of locally developed and adapted technologies for the conservation of water and soil, well suited to their particular site and socio-economic conditions. But such measures have been ignored, and sometimes even overturned, by external solutions. *Sustaining the Soil* documents farmers' practices, exploring the origins and adaptations carried out by farmers over generations, in response to changing circumstances. Through a comparative analysis of conservation measures - from the humid zones of West Africa to the arid lands of the Sudan, from rock terraces in Morocco to the grass strips of Swaziland - the book explores the various factors that influence adoption and adaptation; farmers' perceptions of conservation needs; and the institutional and policy settings most favorable to more effective land husbandry. For the first time on an Africa-wide scale, this book shows that indigenous techniques work, and are being used successfully to conserve and harvest soil and water. These insights combine to suggest new ways forward for governments and agencies attempting to support sustainable land management in Africa, involving a fusion of traditional and modern approaches, which makes the most of both the new and the old.

Serpihan Hati Alnira, 2020-06-29 Setelah hubungannya berakhir dengan Nadhira karena perbedaan keyakinan, Willy tidak berani lagi untuk merasakan jatuh cinta. Namun tidak ada yang bisa menampik kedatangan cinta bukan? Di saat dia berjanji pada dirinya sendiri untuk tidak jatuh cinta, dia malah terjebak kembali ke dalam perasaan itu lagi. Namun lagi-lagi Willy harus merasakan kehilangan cintanya, tetapi kali ini puluhan kali lipat lebih menyakitkan. Alexandria, perempuan ceria yang membuat Willy percaya untuk membangun rumah tangga dan memberikannya malaikat kecil bernama Olivia, harus meninggalkannya selama-lamanya. Willy kembali terpuruk, meski sudah dua tahun kepergian istri tercintanya, Willy masih belum mau mencari pengganti Lexa. Hal ini membuat sahabatnya resah dan berusaha menjodohkan Willy dengan perempuan bernama Abriana. Sifat Abriana yang cuek tetapi keibuan dan dekat dengan Olivia membuat Willy perlahan bisa mulai mencintai perempuan itu, begitu pula dengan Abriana yang membuka hatinya untuk Willy, namun di saat Abriana menginginkan hubungan yang lebih serius, Willy tidak bisa menjanjikan apapun. Willy masih terikat dengan masa lalunya.

Sámi Media and Indigenous Agency in the Arctic North Coppélie Cocq, Thomas A. DuBois, 2020-01-09 Digital media–GIFs, films, TED Talks, tweets, and more–have become integral to daily life and, unsurprisingly, to Indigenous people's strategies for addressing the historical and ongoing effects of colonization. In *Sámi Media and Indigenous Agency in the Arctic North*, Thomas DuBois and Coppélie Cocq examine how Sámi people of Norway, Finland, and Sweden use media to advance a social, cultural, and political agenda anchored in notions of cultural continuity and self-determination. Beginning in the 1970s, Sámi have used Sámi-language media—including commercially produced musical recordings, feature and documentary films, books of literature and poetry, and magazines—to communicate a sense of identity both within the Sámi community and within broader Nordic and international arenas. In more contemporary contexts—from YouTube music videos that combine rock and joik (a traditional Sámi musical genre) to Twitter hashtags that publicize protests against mining projects in Sámi lands—Sámi activists, artists, and cultural workers have used the media to undo layers of ignorance surrounding Sámi livelihoods and rights to self-determination. Downloadable songs, music festivals, films, videos, social media posts, images, and tweets are just some of the diverse media through which Sámi activists transform how Nordic majority populations view and understand Sámi minority communities and, more globally, how modern states regard and treat Indigenous populations.

Uralic Essive and the Expression of Impermanent State Casper de Groot, 2017-11-15 This volume is the first book length study into the

essive, a relatively unknown case marker like English 'as (a child)'. It focuses on the distribution of the essive in contemporary Uralic languages with special attention to the opposition between permanent and impermanent state. The volume presents large sets of new data and insights into the use of the essive in nineteen Uralic languages on the basis of a typological linguistic questionnaire. The typological variation is discussed within the linguistic domains of non-verbal main predication, secondary predication, complementation, and manner, temporal, and circumstantial adverbial phrases. The descriptions and analyses are presented in such a way that they are accessible to linguists in general, descriptive and theoretical linguists, and specialists in Uralic and/or linguistic typology. The data and approach offer many starting points for further investigations within but also outside the Uralic language family.

Law in the Service of Legitimacy Catherine Warrick,2016-12-05 Using gender and law in the political system of Jordan as a means of investigating broader issues surrounding the relationship between culture and political legitimacy, this volume offers an in-depth treatment of the laws that define, limit and expand women's rights. Arguing that gender issues aren't simply a 'special topic' in politics, but an indicator and symbol of the character of the political system as a whole, the significance of the politics of legitimacy as played out in issues of gender and law is not only about the content of policies and competition of interests, but about the power to determine the nature of the political system itself.

Deployment John Martin,2008 The world has failed the Darfur region, but devious politicians and generals have figured a way to polish their own images with no risk. They are going to use the National Guard. Sergeant Major Lucas Grant should have retired. Instead, he joined the Guard. The National Guard stands ready to provide humanitarian relief wherever they may be sent, but they never expected anything like Darfur. Grant finds himself in another shooting war, worse than anything he has known before. Islamic extremists want the country for Arab Muslims, the Sudanese Liberation Army wants it for African Muslims, and both sides want the Americans out. And there's a problem with one of their own soldiers. Based on current events in Darfur, American soldiers face the perils of helping the people no one cares about, and keeping each other alive while they do it.
