The Sacred Language of the Abakuá Lydia Cabrera, 2020-12-28 In 1988, Lydia Cabrera (1899–1991) published *La lengua sagrada de los Ñáñigos*, an Abakuá phrasebook that is to this day the largest work available on any African diaspora community in the Americas. In the early 1800s in Cuba, enslaved Africans from the Cross River region of southeastern Nigeria and southwestern Cameroon created Abakuá societies for protection and mutual aid. Abakuá rites reenact mythic legends of the institution's history in Africa, using dance, chants, drumming, symbolic writing, herbs, domestic animals, and masked performers to represent African ancestors. Criminalized and scorned in the colonial era, Abakuá members were at the same time contributing to the creation of a unique Cuban culture, including rumba music, now considered a national treasure. Translated for the first time into English, Cabrera's lexicon

documents phrases vital to the creation of a specific African-derived identity in Cuba and presents the first “insider’s” view of this African heritage. This text presents thoroughly researched commentaries that link hundreds of entries to the context of mythic rites, skilled ritual performance, and the influence of Abakuá in Cuban society and popular music. Generously illustrated with photographs and drawings, the volume includes a new introduction to Cabrera’s writing as well as appendices that situate this important work in Cuba’s history. With the help of living Abakuá specialists in Cuba and the US, Ivor L. Miller and P. González Gómez-Cásseres have translated Cabrera’s Spanish into English for the first time while keeping her meanings and cultivated style intact, opening this seminal work to new audiences and propelling its legacy in African diaspora studies.

Pragmatic Perspectives on Language and Linguistics Volume II Iwona Witczak-Plisiecka, 2013-01-16 Pragmatics of Semantically-Restricted Domains, the second volume of Pragmatic Perspectives on Language and Linguistics, edited by Iwona Witczak-Plisiecka, gathers papers which partly complement and develop the first volume, Speech Actions in Theory and Applied Studies (Cambridge Scholars Publishing, 2010). Most of the texts collected in this book, representative of advanced independent research and that of an informed exercise in the application of a pragmatic framework, result from the Fourth Symposium on “New Developments in Linguistic Pragmatics,” organized at the University of Łódź,

Poland, in May 2008. Accepting the inevitable failure of any attempt to pose a strict and clear-cut division between the research area of semantics and that of pragmatics, the volume focuses on pragmatics-oriented analyses of data which are best described as “semantically” limited. While Volume One concentrated on speech as a type of action, the present volume, without denying the inherently actional nature of language use, concentrates on limited contexts. Pragmatic phenomena in semantically-restricted domains are addressed from a variety of both theoretical and applied perspectives. The book is divided in three parts. Part One, “Pragmatics, Politics and Ideology,” gathers seven papers centered on issues pertaining to political linguistics. In Part Two, “The Pragmatics of Humour, Power and the Media,” there are eight papers which explore issues of politeness and modesty, pragmatic aspects of mediated and gendered discourse, or dynamicity of power relation in interaction. Part Three, “Focus on Textual Properties,” concentrates on text, excluding political discourse. It integrates discussions of equivalence and specialized translation, intertextual properties and pragmatically-motivated lexical choices in business communication, in law, and in science.
