Brightly Burning Alexa Donne,2018-05-01 “One of the most anticipated YA debuts of 2018, *Brightly Burning* is a gothic, romantic mystery with hints of *Jane Eyre*, *Marissa Meyer*, and *Kiera Cass*.” —*Entertainment Weekly* “*Brightly Burning* delivers a brooding gothic mystery and a swoony romance, all set in space. Donne’s atmospheric, twisty update of a cherished classic will keep you up late into the night!” —Elly Blake, NYT bestselling author of the *Frostblood Saga* Stella Ainsley leaves poverty behind when she quits her engineering job aboard the *Stalwart* to become a governess on a private ship. On the *Rochester*, there’s no water ration, more books than one person could devour in a lifetime, and an AI who seems more friend than robot. But no one warned Stella that the ship seems to be haunted, nor that it may be involved in a conspiracy that could topple the entire interstellar fleet. Surrounded by mysteries, Stella finds her equal in the brooding but kind nineteen-year-old Captain Hugo. When several attempts on his life spark more questions than answers, and the beautiful Bianca Ingram appears at Hugo’s request, his unpredictable behavior causes Stella’s suspicions to mount. Without knowing who to trust, Stella must decide whether to follow her head or her heart. Alexa Donne’s lush and enthralling reimagining of the classic *Jane Eyre*, set among the stars, will seduce and beguile you.

The Idea Hunter Andy Boynton,Bill Fischer,2011-04-04 A different way of discovering and developing the best business ideas Jack Welch once said, Someone, somewhere has a better idea. In this myth-busting book, the authors reveal that great business ideas do not spring from innate creativity, or necessarily from the brilliant minds of people. Rather, great ideas come to those who are in the habit of looking for great ideas all around them, all the time. Too often, people fall into the trap of thinking that the only worthwhile idea is a thoroughly original one. Idea Hunters know better. They understand that valuable ideas are already out there, waiting to be found - and not just in the usual places. Shows how to expand your capacity to find and develop winning business ideas Explains why ideas are a critical asset for every manager and professional, not just for those who do creative Reveals how to seek out and select the ideas that best serve your purposes and goals and define who you are, as a professional Offers practical tips on how to master the everyday habits of an Idea Hunter, which include cultivating great conversations The book is filled with illustrative accounts of successful Idea Hunters and stories from thriving idea companies. Warren Buffet, Walt Disney, Thomas Edison, Mary Kay Ash, Twitter, and Pixar Animation Studios are among the many profiled.

Ideas Against Ideocracy Mikhail Epstein,2021-09-09 This groundbreaking work by one of the world's foremost theoreticians of culture and scholars of Russian philosophy gives for the first time a systematic examination of the development of Russian philosophy during the late Soviet period. Countering the traditional view of an intellectual wilderness under the Soviet regime, Mikhail Epstein provides a

comprehensive account of Russian thought of the second half of the 20th century that is highly sophisticated without losing clarity. It provides new insights into previously mostly ignored areas such as late-Soviet Russian nationalism and Eurasianism, religious thought, cosmism and esoterism, and postmodernism and conceptualism. Epstein shows how Russian philosophy has long been trapped in an intellectual prison of its own making as it sought to create its own utopia. However, he demonstrates that it is time to reappraise Russian thought, now freed from the bonds of Soviet totalitarianism and ideocracy but nevertheless dangerously engaged into new nationalist aspirations and metaphysical radicalism. We are left with not only a new and exciting interpretation of recent Russian intellectual history, but also the opportunity to rethink our own philosophical heritage.

The Sociology of Educational Ideas Julia Evetts,2017-05-08 This study, first published in 1973, examines the principles that lie behind educational dilemmas, and helps to clarify the difficulties of explanation, justification and practical action in the educational system. This title will be of interest to students of sociology and education.

Greek and Roman Political Ideas Melissa Lane,2014-05-01 What is politics? What are the origins of political philosophy? What can we learn from the Greeks and Romans? In *Greek and Roman Political Ideas*, acclaimed classics scholar Melissa Lane introduces the reader to the foundations of Western political thought, from the Greeks, who invented democracy, to the Romans, who created a republic and then transformed it into an empire. Tracing the origins of political philosophy from Socrates to Cicero to Plutarch, Lane reminds us that the birth of politics was as much a story of individuals as ideas.

The Flow of Management Ideas Stefan Heusinkveld,Marlieke van Grinsven,Claudia Groß,David Greatbatch,Timothy Clark,2021-06-10 The widespread promotion of management ideas, their regular inclusion in textbooks and business school curricula and their use in organizational change programs has engendered debates about the impact of these ideas on management and organizational practice. Based on analyses of managerial audience members' activities and related meaning-making prior to, during and after guru events with leading management thinkers, this book sheds new light on how management practitioners come to use management ideas in the different relevant contexts of their working lives. The authors argue that a broader, more differentiated and more dynamic view of managerial audiences is essential in understanding the impact of management ideas as well as the nature of contemporary

managerial work. For scholars and students in organisation studies, knowledge management and management consultancy, as well as reflective management practitioners.
