Everything in its Right Place Brad Osborn Ph.D., 2016-10-03 More than any rock artist since The Beatles, Radiohead's music inhabits the sweet spot between two extremes: on the one hand, music that is wholly conventional and conforms to all expectations of established rock styles, and, on the other hand, music so radically experimental that it thwarts any learned notions. While averting mainstream trends but still achieving a significant level of success in both US and UK charts, Radiohead's music includes many surprises and subverted expectations, yet remains accessible within a framework of music traditions. In *Everything in its Right Place: Analyzing Radiohead*, Brad Osborn reveals the functioning of this reconciliation of extremes in various aspects of Radiohead's music, analyzing the unexpected shifts in song structure, the deformation of standard 4/4 backbeats, the digital manipulation of familiar rock 'n' roll instrumentation, and the expected resolutions of traditional cadence structures. Expanding on recent work in musical perception, focusing particularly on form, rhythm and meter, timbre, and harmony, *Everything in its Right Place* treats Radiohead's recordings as rich sonic ecosystems in which a listener participates in an individual search for meaning, bringing along expectations learned from popular music, classical music, or even Radiohead's own compositional idiolect. Radiohead's violations of these subjective expectation-realization chains prompt the listener to search more deeply for meaning within corresponding lyrics, biographical details of the band, or intertextual relationships with music, literature, or film. Synthesizing insights from a range of new methodologies in the theory of pop and rock, and specifically designed for integration into music theory courses for upper level undergraduates, *Everything in its Right Place* is sure

to find wide readership among scholars and students, as well as avid listeners who seek a deeper understanding of Radiohead's distinctive juxtapositional style.

The Gulf Crisis and its Global Aftermath Gad Barzilai, Aharon Klieman, Gil Shidlo, 2016-02-05 The crisis in the Gulf of 1990-1 affected more than just the regional powers in the area. Rippling outward, its military, economic and political effects were felt throughout the international political system, testing US steadfastness in the face of Saddam Hussein's political survival, European ability to form a united front on foreign policy issues and the effectiveness of the UN in confronting international aggression. The rationale behind this book, first published in 1993, is to investigate and analyse the various aspects of the crisis, especially in regard to the interactions between internal and international prospects for a new order in the Middle East. It also examines the wider effects of the war, and includes analysis of Europe, America and the Soviet Union. Each one of the essays chosen for this volume has been written by an expert in their field. This collaboration between historians, regional specialists and political scientists, integrating a variety of research methods in the framework of one book, will be useful to a wide range of readers.

It's Not A Diet Davinia Taylor, 2021-05-27 'A personal, fun and positive book encouraging dietary diversity and NOT calorie counting' Professor Tim Spector, author of *The Diet Myth* and *Spoon-Fed* 'Empowering' Hello! magazine Why stress causes weight gain How fasting makes you less hungry Why sunflower oil is unhealthy How cold showers can cut your carb cravings 'If I could give you one bit of advice right now, it would be to take all the energy you're putting into fad diets and put it into becoming the most genuinely healthy version of you. If you've got a plan, you're already halfway there. And now you've got this book, you've got one.' Davinia Taylor was overweight, depressed and unmotivated. She couldn't walk around the block, let alone go for a run or do an exercise class, and she struggled to keep up with her four young sons. In desperation she turned to biohacking to sort her head out - the unexpected bonus was that she lost nearly three stone and has kept it off for years through a series of health tricks from cold showers, to MCT oil, to ancestral eating. She spent tens of thousands of pounds on specialists and Harley Street doctors, trying the most cutting-edge therapies available, only to discover that the true secrets of feeling amazing are very easy and affordable. Start with eating for your mental health, and weight loss is an effortless side effect. Divided into four sections: Mood, Food, Movement and Rest, the book takes a holistic approach to weight loss, reminding you that true health is not just about what you eat. *It's Not a Diet* concludes with a two-week reset programme to put Davinia's advice into action easily and achievably.

It's Like Heaven Dorothy H. Jordan, 2020 In 1982 Dorothy H. Jordan founded Camp Sunshine to provide children with cancer a safe, normal childhood experience, to show them that others share their challenges, and to help them find community and support. In 1983 approximately forty campers between the ages of seven and eighteen attended the first summer camp, held in the north Georgia mountains. Thirty-five years later, more than four hundred campers attended the 2018 summer camp, and several hundred more children and family members participated in more than 150 additional recreational, educational, and supportive Camp Sunshine programs held throughout the year in metro Atlanta, Savannah, and other areas of Georgia. Today Camp Sunshine, a nonprofit organization, has hundreds of dedicated volunteers who help the leadership staff of the camp with its multiple year-round programs, as well as pediatric oncology nurses and other medical professionals who take care of the campers' medical needs while they attend those programs. *It's Like Heaven* documents the story of the first thirty-five years of Camp Sunshine through the voices of campers, their nurses, counselors, and other volunteers. Each chapter is a former camper's first-person story about childhood cancer and the Camp Sunshine journey, followed by reflections on the camper's experience by the camper's nurse or another member of the camp

community, creating a unique narrative of each camper's struggle and path toward healing. Every story includes photos of both the camper and the camper's mentor as well as several photos that illustrate the connections, bonds, and strength of community created through Camp Sunshine.

Chicago: Its History and its Builders, Volume 4 Josiah Seymour Currey, Maybe there has never been a more comprehensive work on the history of Chicago than the five volumes written by Josiah S. Currey - and possibly there will never be. Without making this work a catalogue or a mere list of dates or distracting the reader and losing his attention, he builds a bridge for every historically interested reader. The history of Windy City is not only particularly interesting to her citizens, but also important for the understanding of the history of the West. This volume is number four out of five and features hundreds of biographies of the most important Chicago citizens.

History of the Inquisition from Its Establishment Till the Present Time William Sime, 2019-12-16
History of the Inquisition from Its Establishment Till the Present Time by William Sime Among the numerous and varied methods which the Popish Church has adopted, to maintain its usurped sway over the minds and bodies of men, none has been more effectual than the erection of the Inquisition. Established for the purpose of taking cognizance of what it styles heresy, many are the victims that this tribunal has doomed to the rack and the flames. This book broaches this ugly part of European history in a blunt and factual way to ensure it never fades into obscurity.

Mind and Its World 1 Sourcebook Dzogchen Ponlop Rinpoche, Khenpo Tsültrim Gyamtso Rinpoche, Āchārya Lama Tenpa Gyaltzen, Āchārya Sherab Gyaltzen, 2021-01-23 Mind and Its World I begins a detailed analysis of the subjective side of experience. It examines mind and how it perceives its world in valid and invalid ways based on the Classifications of Mind, which provides divisions and definitions of the types of mind identified in the epistemological tradition of Dignaga and Dharmakirti. The key point is the discernment of the aspects of mind that validly perceive things the way they are, which are distinguished from those aspects of mind that are mistaken and tainted by fundamental delusion, and thus keep one bound in samsara. It also introduces the two Hinayana philosophical systems, the Vaibhashika and Sautrantika schools, covering the two truths and the process of perception. Selected readings, analytical meditations, study questions, review summaries are included in the sourcebook.

The Postcolonial City and its Subjects Rashmi Varma, 2011-08-05 This book considers twentieth and twenty-first century literary and cultural formations of the postcolonial city and the constitution of new subjects within it. Varma offers a reading of both historical and contemporary debates on urbanism through the filter of postcolonial fictions and the cultural fields surrounding and containing them. In particular, she presents a representational history of London, Nairobi and Bombay in the twentieth and twenty-first centuries and engages three key theoretical frameworks—the city within postcolonial theory and culture (its troubled salience in the construction of postcolonial public spheres and identities, from local, rural, ethnic/tribal, and regional to national, cosmopolitan and transnational subjects and spaces); postcolonial fictions as constituting a new world literary space and as a site of the articulation of contending narratives of urban space, global culture and postcolonial development; and postcolonial feminist citizenship as a universal political project challenging current neo-liberal and post neo-liberal contractions and eviscerations of public

spaces and rights.

The Cinema and Its Shadow Alice Maurice, 2013-03-15 The Cinema and Its Shadow argues that race has defined the cinematic apparatus since the earliest motion pictures, especially at times of technological transition. In particular, this work explores how racial difference became central to the resolving of cinematic problems: the stationary camera, narrative form, realism, the synchronization of image and sound, and, perhaps most fundamentally, the immaterial image—the cinema’s “shadow,” which figures both the material reality of the screen image and its racist past. Discussing early “race subjects,” Alice Maurice demonstrates that these films influenced cinematic narrative in lasting ways by helping to determine the relation between stillness and motion, spectacle and narrative drive. The book examines how motion picture technology related to race, embodiment, and authenticity at specific junctures in cinema’s development, including the advent of narratives, feature films, and sound. In close readings of such films as *The Cheat*, *Shadows*, and *Hallelujah!*, Maurice reveals how the rhetoric of race repeatedly embodies film technology, endowing it with a powerful mix of authenticity and magic. In this way, the racialized subject became the perfect medium for showing off, shoring up, and reintroducing the cinematic apparatus at various points in the history of American film. Moving beyond analyzing race in purely thematic or ideological terms, Maurice traces how it shaped the formal and technological means of the cinema.

Method Acting and Its Discontents Shonni Enelow, 2015-07-09 Winner of the 2016 George Jean Nathan Award *Method Acting and Its Discontents: On American Psycho-Drama* provides a new understanding of a crucial chapter in American theater history. Enelow’s consideration of the broader cultural climate of the late 1950s and early 1960s, specifically the debates within psychology and psychoanalysis, the period’s racial and sexual politics, and the rise of mass media, gives us a nuanced, complex picture of Lee Strasberg and the Actors Studio and contemporaneous works of drama. Combining cultural analysis, dramaturgical criticism, and performance theory, Enelow shows how Method acting’s contradictions reveal powerful tensions inside mid-century notions of individual and collective identity.

Modern Liberty and Its Discontents Pierre Manent, 2000-01-01 In this book, distinguished French philosopher Pierre Manent addresses a wide range of subjects, including the Machiavellian origins of modernity, Tocqueville’s analysis of democracy, the political role of Christianity, the nature of totalitarianism, and the future of the nation-state. As a whole, the book constitutes a meditation on the nature of modern freedom and the permanent discontents which accompany it. Manent is particularly concerned with the effects of modern democracy on the maintenance and sustenance of substantial human ties. *Modern Liberty and its Discontents* is both an important contribution to an understanding of modern society, and a significant contribution to political philosophy in its own right.

It’s Not Rocket Science Clive Whichelow, Hugh Murray, 2014-02-06 Over last thirty years, new technology, fashion, and social set-ups have spawned new clichés galore. Everything on the Internet is available at the ‘click of a mouse’, TV presenters ask the audience to ‘give it up’ when they want them to

applaud, call centres tell us 'we value your call' even though 'all our operators are busy'. And if you're 'gobsmacked' by all this you may be told to 'get a life', 'chill out' or 'whatever'. It's Not Rocket Science sifts through all aspects of modern life to find the most prevalent, ubiquitous and downright irritating cliches of our age. This high-octane, caffeine-fuelled, dictionary of cliches highlights the freshly-hackneyed phrases we're being subjected to 24/7. So how good is that? And what's not to like?

A Left that Dares to Speak Its Name Slavoj Žižek, 2020-04-14 With irrepressible humor, Slavoj Žižek dissects our current political and social climate, discussing everything from Jordan Peterson and sex "unicorns" to Greta Thunberg and Chairman Mao. Taking aim at his enemies on the Left, Right, and Center, he argues that contemporary society can only be properly understood from a communist standpoint. Why communism? The greater the triumph of global capitalism, the more its dangerous antagonisms multiply: climate collapse, the digital manipulation of our lives, the explosion in refugee numbers – all need a radical solution. That solution is a Left that dares to speak its name, to get its hands dirty in the real world of contemporary politics, not to sling its insults from the sidelines or to fight a culture war that is merely a fig leaf covering its political and economic failures. As the crises caused by contemporary capitalism accumulate at an alarming rate, the Left finds itself in crisis too, beset with competing ideologies and prone to populism, racism, and conspiracy theories. **A Left that Dares to Speak Its Name** is Žižek's attempt to elucidate the major political issues of the day from a truly radical Leftist position. The first three parts explore the global political situation and the final part focuses on contemporary Western culture, as Žižek directs his polemic to topics such as wellness, Wikileaks, and the rights of sexbots. This wide-ranging collection of essays provides the perfect insight into the ideas of one of the most influential radical thinkers of our time.
