Jigsaw Sybille Bedford,2018-06-05 Shortlisted for the Booker Prize, Bedford's autobiographical novel paints a vivid picture of life in 1920s Europe between the wars. Sybille Bedford placed the ambiguous and inescapable stuff of her own life at the center of her fiction, and in *Jigsaw*—her fourth and final novel, which was shortlisted for the 1989 Booker Prize—she did it with particular artistry. “What I had in mind,” she was later to say, “was to build a novel out of the events and people who had made up, and marked, my early youth...Truth here was an artistic, not moral, requirement...It involved...writing about myself, my feelings, my actions.” And so she assembled the puzzle pieces of her singular past into a picture of her “unsentimental education.” We learn of a childhood spent alone with her father, “a stranded man of the world” living a life of “ungenteel poverty in quite grand surroundings,” a château, that is, deep in the German countryside, with wine but little else for him and his young daughter to hold body and soul together. We learn of her return to Italy and her mother, “the one character I wished to keep minor and knew all along that it could not be done,” and the dark secret consuming her mother’s life. Finally, she tells us how she lived with and learned from Aldous and Maria Huxley on the French Riviera, developing the sense of purpose and determination that made her the great writer she would become.

Jigsaw Bob Graham,2022-07-12 Serendipity and positive thinking come into play as a family searches for a missing puzzle piece in Bob Graham’s enchanting story with a sweet surprise ending. “Oh, let’s do it!” say Kitty and Katy and Mom when a thousand-piece jigsaw puzzle mysteriously arrives in the mail. “I have time on my hands,” agrees Dad. Starting in winter with the edges, by autumn they’re almost done, only to discover that one piece is missing. Mom is sure that it must have accidentally gone out with the trash, so the Kellys pile into the car to comb through the local dump (“shouldn’t take long”). There they uncover forgotten letters, train tickets, discarded newspapers, and old photos yellow with age, but finding the missing piece is starting to seem like wishful thinking. “Let’s wish, then,” says Katy. As in all of Bob Graham’s work, the beauty here is in the details, with visual perspectives that offer a bird’s-eye view or take us underfoot, wordless sequences letting us in on a secret. Is it sheer luck—or perhaps the power of hope—that creates an ending to the story?

Jigsaw Reading and Writing Activities John N. Sivell,Lily Hui-E Yang,1993 This reproducible activities kit emphasises academic reading, writing and discussion skills. The target audience for these materials is adult or young-adult students in high school, college, or college/university entrance courses. It has been devised to give students the chance to think, talk and write about real life topics. The book is structured in three units, each individual unit has four jigsaw parts, which are used first for reading and discussion and then, when they are thoroughly familiar to students, as examples for analysis and imitation in the process of improving writing skills. The book concentrates on realistic writing, not just exercises. There are drills and practice on specific language points, but only in preparation for much freer writing activities. The main thing is for students to develop their own arguments about subjects that matter. Includes an extensive Teacher's Notes on how to exploit the materials.
