Jumpstart Into MAT Greg Roskopf,2021-04 Say Goodbye to Muscle Dysfunction once and for all with Muscle Activation Techniques. This revolutionary approach will give your body the tools to recover, run faster, perform harder, and crush the competition. Greg Roskopf coupled stellar observation skills with his knowledge and expertise in exercise science to develop a paradigm shift. Suffering chronic pain for years from a falling accident when he was nineteen, Greg fervently sought solutions not only for himself but also for his clients. Greg's research led to an epiphany: Muscle tightness wasn't the only cause of limited range of motion, Muscle weakness also played a role ? and a BIG ONE. The muscle tightness was merely a symptom of the root problem; muscle weakness.Using Muscle Activation Techniques to activate and strengthen muscles can result in reduced pain, few injuries, and better overall performance levels. This is the shift Greg hopes to inspire: techniques focused on treating the weak muscles over the tight ones. This Jumpstart into MAT program will teach you:1) The correlation between muscle weakness and muscle tightness.2) Basic principles and introductory-level skills for understanding the MAT process.3) How to implement the MAT process into daily work with clients.4) Tools to identify and correct muscular imbalances. In Jumpstart into MAT, Greg Roskopf hopes practitioners will adopt the paradigm shift and learn new skills to allow them to better serve their athletes and clients. He lays the foundational tools to help Physical and Rehabilitative Health professionals treat the problem rather than the symptom. By doing so, they have a better chance of minimizing repeated muscle tightening, recurring pain, and further injury.

Jumper Cables W. Tim Dodd,2012-12-18 Jumper Cables Go ahead and ping-pong that item in your head and what comes to mind? If, as I do, you envision an essential part of a cars emergency pack stowed away in a dirty corner of your cars trunk, this will take on a parallel meaning as I explain. Jumper cables are not too expensive and most drivers have been tutored ad infinitum to always have a pair of these in the car at all times just in case the battery is dead or is having the last rites administered as the key is turned (always at a very inopportune time) and hear that sickening click click - click sound. Life offers disabilities and obstacles to everyone. Jumper Cables, the right help at the right time, is about not becoming a victim but to confront and challenge the disabilities and obstacles. It is about an attitude of continuous improving of self with determination and commitment. Jumper Cables and its use is a symbolic illustration of my professional and personal journey. Take a second to examine where you are in life. Is your battery getting low needs recharged? How is your career? Are you happy with decisions you have made in life? What about regrets you have encountered? How strong are your devoted relationships to your family? What about your commitment to faith? Your dedication to your country? Are you happy with yourself; personal appearance; intelligence? Do you really feel fulfilled? These are very difficult questions that people tend to ignore as they live their day-to-day events. Then one day a person wakes up and to realize that they are not who or where they want to be in life; via a battery malfunctioned. The battery stopped working and the help wasnt there.
