*Wine Production and Quality* Keith Grainger,Hazel Tattersall,2015-12-29 Gourmand Award for the No. 1 Best Wine Book in the World for Professionals Since the publication of *Wine Production: Vine to Bottle* (2005) and *Wine Quality: Tasting and Selection* (2009), there has been a great deal of change in the wine industry, and the perceptions of critics and expectations of consumers have shifted. *Wine Production and Quality, Second Edition* brings together its two predecessors in one updated and considerably expanded volume. This comprehensive guide explores the techniques of wine production in the vineyard and winery, and considers their impact upon the taste, style and quality of wine in the bottle. Part 1 of the book provides a structured yet easily readable understanding of wine production, from vine to bottle. The impact of natural factors, including climate and soil, is considered, together with the decisions made and work undertaken in the vineyard and winery. Part 2 looks at quality in wines: the concepts and techniques of tasting are detailed, along with the challenges in recognising and assessing quality. Also discussed are the steps producers may take, and the limitations they may face, in creating quality wines. The book will prove valuable to beverage industry professionals, wine trade students, wine merchants, sommeliers, restaurateurs , and wine lovers as well as those entering (or thinking of entering) the highly competitive world of wine production.

**Stalin's Wine Cellar** John Baker,Nick Place,2021-07-20 The adventure of a lifetime to buy Stalin's secret multimillion dollar wine cellar located in Georgia; it is the Raiders of the Lost Ark of wine. In the late 1990s, John Baker was known as a purveyor of quality rare and old wines. He was the perfect person for an occasional business partner to approach with a mysterious wine list that was different to anything John, or his second-in-command, Kevin Hopko, had ever come across. The list was discovered to be a comprehensive catalogue of the wine collection of Nicholas II, the last Tsar of Russia. The wine had become the property of the state after the Russian Revolution of 1918, during which Nicholas and his entire family were executed. Now owned by Stalin, the wine was discreetly removed to a remote Georgian winery when Stalin was concerned the advancing Nazi army might overrun Russia. Half a century later, the wine was rumoured to be hidden underground and off any known map. John and Kevin embarked on an audacious, colourful and potentially dangerous journey to Georgia to discover if the wines actually existed; if the bottles were authentic and whether the entire collection could be bought and transported to a major London auction house for sale. Stalin's Wine Cellar is a wild, sometimes rough ride through the glamorous world of high-end wine.
