*Keeping Company* Tami Hoag, 2010-09-28 From #1 New York Times bestselling author Tami Hoag comes a classic novel of mismatched lovers who give a whole new meaning to the phrase “Fake it till you make it.” Sensible corporate lawyer Alaina Montgomery has been frustrating her matchmaking friends for years. But this time they’ve really tried to set her up with the wrong guy: Dylan Harrison, a free-spirited single dad who runs a ramshackle bar and bait shop. Appropriately enough, she meets him on the way to a science-fiction-themed masquerade party. When cops mistake the costumed pair for a lady of the evening and her client, Alaina and Dylan end up in jail together. And soon they hatch a plan to foil the matchmakers once and for all by

pretending to be a couple. What begins as a good-natured ruse quickly blossoms into a real romance, as these two polar opposites discover that desire can't be so easily disguised.

*Keeping the Republic* Christine Barbour, Gerald C.

Wright, 2016-11-19 This refreshed and dynamic Eighth Edition of *Keeping the Republic* revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what, and how they should get it. The exploding possibilities of the digital age make this task all the more urgent and complex. Christine Barbour

and Gerald Wright, the authors of this bestseller, continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it. The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic.

Keeping it Living Douglas Deur, Nancy J. Turner, 2005 Keeping It Living brings together some of the world's most prominent specialists on Northwest Coast cultures to examine traditional cultivation practices from Oregon to Southeast Alaska. It explores tobacco gardens among the Haida and Tlingit, managed camas plots among the Coast Salish of Puget Sound and the Strait of Georgia, estuarine root gardens along the central coast of British Columbia, wapato maintenance on the Columbia and Fraser Rivers, and tended berry plots up and down the entire coast. With contributions from a host of experts, Native American scholars and elders, Keeping It Living documents practices of manipulating plants and their environments in ways that enhanced culturally preferred plants and plant communities. It describes how indigenous peoples of this region used and cared for over 300 species of plants, from the lofty red cedar to diminutive plants of backwater bogs.
