White Kids Margaret A. Hagerman, 2020-02-01 Winner, 2019 William J. Goode Book Award, given by the Family Section of the American Sociological Association Finalist, 2019 C. Wright Mills Award, given by the Society for the Study of Social Problems Riveting stories of how affluent, white children learn about race American kids are living in a world of ongoing public debates about race, daily displays of racial injustice, and for some, an increased awareness surrounding diversity and inclusion. In this heated context,

sociologist Margaret A. Hagerman zeroes in on affluent, white kids to observe how they make sense of privilege, unequal educational opportunities, and police violence. In fascinating detail, Hagerman considers the role that they and their families play in the reproduction of racism and racial inequality in America. *White Kids*, based on two years of research involving in-depth interviews with white kids and their families, is a clear-eyed and sometimes shocking account of how white kids learn about race. In doing so, this book explores questions such as, “How do white kids learn about race when they grow up in families that do not talk openly about race or acknowledge its impact?” and “What about children growing up in families with parents who consider themselves to be ‘anti-racist’?” Featuring the actual voices of young, affluent white kids and what they think about race, racism, inequality, and privilege, *White Kids* illuminates how white racial socialization is much more dynamic, complex, and varied than previously recognized. It is a process that stretches beyond white parents’ explicit conversations with their white children and includes not only the choices parents make about neighborhoods, schools, peer groups, extracurricular activities, and media, but also the choices made by the kids themselves. By interviewing kids who are growing up in different racial contexts—from racially segregated to meaningfully integrated and from politically progressive to conservative—this important book documents key differences in the outcomes of white racial socialization across families. And by observing families in their everyday lives, this book explores the extent to which white families, even those with anti-racist intentions, reproduce and reinforce the forms of inequality they say they reject.

The Kids' Book of Questions Gregory Stock, 2015-03-10
Kids love to be asked questions almost as much as they

love to ask them. And asking is important—parents know the value of having meaningful conversations with their kids, especially as family time is under continuous assault from gadgets and devices. Now the book that solves those needs is back—announcing a fresh new edition of *The Kids' Book of Questions*. Including subjects like the Internet, school violence, and climate change, the book remains a timeless treasure. Here is a collection of questions designed to challenge, entertain, provoke, and expand young minds. These are the questions that let kids discover how they feel; let people know what they think; raise issues that everyone loves to discuss. Gregory Stock, author of the original #1 bestselling *Book of Questions*, took his question-asking ways into schools and came back with over 200 questions, including Thorny dilemmas: Would you rather have a job you didn't like that paid a lot or a job you loved that paid just enough to get by? Embarrassing challenges: Would you kiss someone in front of your whole class for \$250? Provocative ideas: What things do you think your parents do just to set an example for you? Intriguing fantasies: If you could text any famous person and be sure they'd read and answer your text, who would you write to and what would you say? There is only one requirement: Give an honest answer. Then be amazed to see where one little question leads.

Kids in Danger Ross Campbell, 1995 In the midst of a violent society, this book helps parents teach their children how to handle conflict, develop a respect for others and for authority, and learn how to handle anger.

Kids First David Kirp, 2011-03-01 It may take a village to raise a child, but most American families are struggling, with diminishing social support, to do the job on their own. While parents work longer hours for less and the costs of childcare, healthcare, and college skyrocket, the share of the U.S. budget spent on kids has fallen 22 percent since 1960. More and more children may well not make it to a healthy, productive adulthood. That's terrible for them--and for us as well. It doesn't have to be this way. In this book, renowned expert David L. Kirp clarifies the importance of investing wisely in children. He outlines a visionary Kids First policy agenda that's guided by a golden rule principle: Every child deserves what's good enough for a child you love. And he offers lively and inspiring, on-the-ground accounts of five big cradle-to-college initiatives that can change the arc of all children's lives: strong support for parents; high-quality early education; linking schools and communities to improve what both offer children; giving all youngsters access to a caring and stable adult mentor; and providing kids a nest egg to help pay for college or kick-start a career.
