L'exploitation minière en Afrique Punam Chuhan-Pole, Andrew L. Dabalen, Bryan Christopher Land, 2019-10-29 Le boom des ressources naturelles en Afrique a tiré la croissance dans toute la région, sans contribuer de manière substantielle à améliorer le bien-être et les moyens de subsistance des citoyens. Les personnes vivant dans les pays africains richement dotés en ressources naturelles sont moins alphabétisées de 3 %, ont une espérance de vie plus faible de 4,5 ans et affichent des taux de malnutrition plus élevés chez les femmes et les enfants que dans les pays de la région n'ayant pas de ressources naturelles. Cette lenteur dans la réduction de la pauvreté est souvent attribuée à la croissance économique tirée par les ressources naturelles + la dénommée malédiction des ressources naturelles. Au-delà de l'impact global, les communautés vivant à proximité des centres miniers souffrent-elles également d'une malédiction des ressources naturelles ? L'exploitation minière en Afrique + Les communautés locales en tirent-elles parti ? examine comment l'exploitation aurifère à grande échelle dans trois pays + le Ghana, le Mali et la Tanzanie + affecte les moyens de subsistance et les communautés locales. L'analyse et les résultats des auteurs concluent qu'en moyenne, les communautés minières bénéficient d'avantages sociaux positifs bien que limités. L'étude définit trois grands canaux + marché, fiscal et environnemental + pouvant affecter les localités. Les auteurs appliquent ce cadre d'analyse à l'exploitation aurifère à grande échelle dans les trois pays de l'étude et ils utilisent des méthodes économétriques solides pour évaluer ces effets au niveau local. Si le défi de l'extraction des ressources naturelles est traité dans toutes ses dimensions, des pistes pour une prospérité partagée et une meilleure égalité peuvent être ouvertes, créant ainsi une vie meilleure pour les familles et améliorant les perspectives des pays dans lesquels elles vivent. Ce livre a pour objectif d'éclairer les politiques publiques et le comportement des entreprises concernant le bien-être des communautés situées à proximité des sites d'extraction et les opportunités que l'activité minière peut leur offrir.

Supersingular p-adic L-functions, Maass-Shimura Operators and Waldspurger Formulas Daniel Kriz, 2021-11-09 A groundbreaking contribution to number theory that unifies classical and modern results This book develops a new theory of p-adic modular forms on modular curves, extending Katz's classical theory to the supersingular locus. The main novelty is to move to infinite level and extend coefficients to period sheaves coming from relative p-adic Hodge theory. This makes it possible to trivialize the Hodge bundle on the infinite-level modular curve by a canonical differential that restricts to the Katz canonical differential on the ordinary Igusa tower. Daniel Kriz defines generalized p-adic modular forms as sections of relative period sheaves transforming under the Galois group of the modular curve by weight characters. He introduces the fundamental de Rham period, measuring the position of the Hodge filtration in relative de Rham cohomology. This period

can be viewed as a counterpart to Scholze's Hodge-Tate period, and the two periods satisfy a Legendre-type relation. Using these periods, Kriz constructs splittings of the Hodge filtration on the infinite-level modular curve, defining p-adic Maass-Shimura operators that act on generalized p-adic modular forms as weight-raising operators. Through analysis of the p-adic properties of these Maass-Shimura operators, he constructs new p-adic L-functions interpolating central critical Rankin-Selberg L-values, giving analogues of the p-adic L-functions of Katz, Bertolini-Darmon-Prasanna, and Liu-Zhang-Zhang for imaginary quadratic fields in which p is inert or ramified. These p-adic L-functions yield new p-adic Waldspurger formulas at special values.

Roger L'Estrange and the Making of Restoration Culture Beth

Lynch, 2017-03-02 Roger L'Estrange (1616-1704) was one of the most remarkable, significant and colourful figures in seventeenth-century England. Whilst there has been regular, if often cursory, scholarly interest in his activities as Licensor and Stuart apologist, this is the first sustained book-length study of the man for almost a century. L'Estrange's engagement on the Royalist side during the Civil war, and his energetic pamphleteering for the return of the King in the months preceding the Restoration earned him a reputation as one of the most radical royalist apologists. As Licensor for the Press under Charles II, he was charged with preventing the printing and publication of dissenting writings; his additional role as Surveyor of the Press authorised him to search the premises of printers and booksellers on the mere suspicion of such activity. He was also a tireless pamphleteer, journalist, and controversialist in the conformist cause, all of which made him the *bête noire* of Whigs and non-conformists. This collection of essays by leading scholars of the period highlights the instrumental role L'Estrange played in the shaping of the political, literary, and print cultures of the Restoration period. Taking an interdisciplinary approach the volume covers all the major aspects of his career, as well as situating them in their broader historical and literary context. By examining his career in this way the book offers insights that will prove of worth to political, social, religious and cultural historians, as well as those interested in seventeenth-century literary and book history.

Depuis les années 1990, les images des médias, principalement des écrans télé, m'intéressent comme matériau de réflexion et création plastiques. Je crée ainsi des dichotomies en re-photographiant des détails d'images d'actualité que je combine à mes photographies du quotidien prises en quelque sorte dans la même temporalité, mais à différents endroits du monde. Cette démarche artistique renvoie à une re-présentation qui devient le lieu d'une expérimentation où la photographie rencontre la poésie et le réel confronte à la fiction.
