Berigte uit die Dorsland en ander pioniersgewestes PJ Van der Merwe,2017-07-17 e;Kort na sy aanstelling as lektor op Stellenbosch het die historikus P.J. van der Merwe aandag begin skenk aan die Noordweste. Die gebied was destyds grootliks onbekend aan mense buite die geweste. Soos vandag nog was daar destyds onsekerheid oor die grense van die streek en sy sub-streke ... Berigte uit die Dorsland, wat sy dogter, Margaretha Schaefer, saamgestel het, bevat meer as 200 tydskrif- en koerantartikels uit sy pen. Die artikels, gebaseer op sy onderhoude en waarnemings, bied 'n rykdom aan belangrike inligting, wat hy versamel het tydens twee uitgebreide besoeke aan die Noordweste en omliggende dele ... Lank voor die meeste historici het hy besef dat 'n persoonlike onderhoud met iemand wat 'n bepaalde ervaring gehad het 'n waardevolle historiese bron kan wees. Dit was egter noodsaaklik om die getuienis te toets en met die getuienis van ander mense te kontroleer. Die artikels in Die Burger, Die Huisgenoot, Landbouweekblad en Sarie Marais word vergesel van uitstekende foto's wat Van der Mewe met sy kamera geneem het.'e; - Hermann Giliomee

Reports from the Dorsland and other Pioneering Regions PJ van der Merwe,2020-07-13 'Shortly after his appointment as lecturer in Stellenbosch, historian PJ van der Merwe turned his attention to the Northwest. In those days the region was mostly unknown to people outside this part of the world. Like today, there was uncertainty then about the boundaries of this region and its sub-regions ... Berigte uit die Dorsland, compiled by Van der Merwe's daughter, Margaretha Schäfer, contains more than 200 of his magazine and newspaper articles. The articles, based on interviews and observations, offer a wealth of important information that he gathered during two extensive visits to the Northwest and surrounding regions ... He realised, long before most historians, that a personal interview with someone, who has had a particular experience, was an important historical source. But, it was essential to test the evidence and verify it with that of other people. The articles in Die Burger, Die Huisgenoot, Die Landbouweekblad and Sarie Marais are accompanied by excellent photographs taken by Van der Merwe.' HERMANN GILIOME

#Journalism4.0 #Joernalistiek4.0 Lizette Rabe,2018-03-01 Stellenbosch University's Department of Journalism celebrates its 40th anniversary with this publication reflecting on the four decades between 1978 and 2018 and all that happened behind 26 Crozier Street's front door. But, in essence, it celebrates a lot more. It is an assessment of the importance of the media's essential role in a democracy. This collection of essays, therefore, is a celebration of the inalienable right of freedom of expression, especially in the form of media freedom.

Game Farm and Hunting Tourism Peet van der Merwe,Lindie du Plessis,2014-04-01 Wildlife tourism, of which game farms form an important part, is one of South Africa's biggest tourism products with more game conserved and land under protection than all provincial and national parks combined. Therefore wildlife tourism, especially hunting, is a very important source of income for the country and contributes to job creation in rural provinces like Limpopo, Northern Cape, North West and Eastern Cape. This book places emphasis on hunting (trophy and biltong), game farm development for tourism purposes, game management, game farming and the law, and important future trends. The book is aimed at game farm owners, hunters, hunting outfitters, professional hunters and students in search of knowledge concerning game farm and hunting tourism.

Silk, Mohair, Cashmere and Other Luxury Fibres R R Franck,2001-10-29 Although none of the luxury fibres, including silk, is produced in large quantities, their particular and unique qualities of fineness, softness, warmth and pleasurable handle mean that they occupy a very important place in the luxury apparel and fine furnishing trades. This book covers all aspects of the growth, physical characteristics, production, marketing and consumption of silk, mohair, cashmere, camelhair, Alpaca, Llama, Vicuna, Guanaco, Yak and Musk Ox fibres. The image of these fabrics is of course all important and the book describes in detail those rare occasions when a lower priced and lower quality version of a luxury fibre has damaged its overall reputation. Some natural fibres covered here including spider silk are also increasingly finding applications within the technical textiles sector where their high performance thermal properties and bio-mimetic qualities in particular, are very useful. This is an essential reference for all those involved in any part of the luxury fibre trade. Covers all aspects of the growth, physical characteristics, production, marketing and consumption of silk, mohair, cashmere, camelhair, Alpaca, Llama, Vicuna, Guanaco, Yak and Musk Ox fibres Describes the rare occasions when a lower priced and lower quality version of a luxury fibre has damaged its overall reputation

Annual Bibliography of the History of the Printed Book and Libraries Department of Information & Collections,2005-12-21 The Annual Bibliography of the History of the Printed Book and Libraries aims at recording articles of scholarly value which relate to the history of the printed book, to the history of arts, crafts, techniques and equipment, and of the economic social and cultural environment, involved in its production, distribution, conservation and description.

Illustrated Handbook of Succulent Plants Heidrun E.K. Hartmann,2001-11-06 This handbook, consisting of six volumes, covers over 9000 taxa of succulents (excluding cacti), which have the ability to store water in their stems, leaves, or underground organs. In addition to the volumes on Monocotyledons and Dicotyledons, separate volumes are devoted to those families with predominantly succulent members, which show an especially great diversity, namely Aizoaceae, Asclepiadaceae and Crassulaceae. Following an alphabetical listing of families, genera and species, detailed descriptions are given, including the taxonomy with synonyms, data on the distribution and ecology, references, and keys to genera, species or subspecies. Over 2000 superb colour photographs complete this inventory of succulent plants.
