Lesbian Histories and Cultures Bonnie Zimmerman, 2000 To reflect this crucial fact, The Encyclopedia of Lesbian and Gay Histories and Cultures has been prepared in two separate volumes to assure that both histories receive full, unbiased attention and that a broad range of human experience is covered.--BOOK JACKET.

Queer Studies Brett Beemyn, Mickey Eliason, Michele Eliason, 1996-07 An anthology of expanded versions of papers presented at a November 1994 conference held at the University of Iowa, with sections on issues of identity and queer theory in practice. Essays are distinguished by their accessibility to undergraduates and non-academic readers, and cover areas that have often been marginalized by queer studies in the past, such as race, transgender, bisexuality, and s/m. Subjects include recontextualizing butch in 20th-century lesbian culture, and scientific racism and the invention of the homosexual body. Annotation copyright by Book News, Inc., Portland, OR

Lesbian Friendships Jacqueline S. Weinstock, Esther Rothblum, 1996-08 Friends as lovers; lovers as friends; ex-lovers as friends; ex-lovers as family; friends as family; communities of friends; lesbian community. These are just a few of the phrases heard often in the daily discourse of lesbian life. What significance do they have for lesbians? Do lesbians view friends as family and what does this analogy mean? What sorts of friendships exist between lesbians? What sorts of friendships do lesbians form with non-lesbian women, or with men? These and other questions regarding the kinds of friendships lesbians imagine and experience have rarely been addressed. *Lesbian Friendships* focuses on actual accounts of friendships involving lesbians and examines a number of issues, including the transition from friends to lovers and/or lovers to friends, erotic attraction in friendship, diverse identities among lesbians, and friendships across sexuality and/or gender lines.

The Disappearing L Bonnie J. Morris, 2016-07-29 Investigates the rise and fall of US American lesbian cultural institutions since the 1970s. LGBT Americans now enjoy the right to marry—but what will we remember about the vibrant cultural spaces that lesbian activists created in the 1970s, 80s, and 90s? Most are vanishing from the calendar—and from recent memory. *The Disappearing L* explores the rise and fall of the hugely popular women-only concerts, festivals, bookstores, and support spaces built by and for lesbians in the era of woman-identified activism. Through the stories unfolding in these chapters, anyone unfamiliar with the Michigan festival, Olivia Records, or the women’s bookstores once dotting the urban landscape will gain a better understanding of the era in which artists and activists first dared to celebrate lesbian lives. This book offers the backstory to the culture we are losing to mainstreaming and assimilation. Through interviews with older activists, it also responds to recent attacks on lesbian feminists who are being made to feel that they’ve hit their cultural expiration date. “*The Disappearing L* is both an “insider” story and a well-written analysis of a neglected piece of cultural history. Morris delivers convincing arguments about why the lesbian-feminist era was important not only to the individuals who lived it but also to a broader understanding of what has come to be called “LGBT” history. No one could be better positioned to write this book than Morris.” — Lillian Faderman, author of *The Gay Revolution: The Story of the Struggle*

Lesbians and Lesbian Families Joan Laird, 1999 This cutting-edge collection of articles examines the sociocultural context of the lives of lesbians and lesbian families and reveals how new insights about lesbian identities, experiences, and relationships can be integrated into clinical theory and practice. A family therapist, Joan Laird presents several clinical approaches to working with lesbians as individuals and in couple and parenting relationships and to viewing sexual orientation in its full complexity of race, class, gender, and cultural identity. Rich with clinical case studies and research on

the everyday lives of lesbian families, this book includes chapters on the strategic language of self-disclosure, the family lives of lesbian mothers, and lesbian mothers who come out to their adolescent children.

Historical Dictionary of the Lesbian and Gay Liberation Movements JoAnne

Myers, 2013-09-19 Not so long ago hardly anything was said of the Lesbian Liberation Movement and the Gay Liberation Movement, indeed, the terms gay and lesbian were not even used if some other expression could be found. Today, by contrast, hardly a day passes when something important does not occur, and is carried by the major media and disseminated on more personal levels through blogs and the social media. If anything, there is perhaps too much “news” and not enough “information.” Obviously, a book like this cannot keep up with the news, but it can do something equally important when it comes to information, by reminding us of the past and what has been going on and just how fast events are moving. The Historical Dictionary of the Lesbian and Gay Liberation Movements covers the history of this movement through a cross-referenced dictionary with over 1000 entries on specific countries and regions, influential historical figures, laws that criminalized same-sex sexuality, various historical terms that have been used to refer to aspects of same-sex love, and contemporary events and legal decisions. Including a comprehensive chronology and bibliography, this book is an excellent access point for students, researchers, and anyone interested in learning more about the struggle for equality.

Handbook of Lesbian and Gay Studies Diane Richardson, Steven Seidman, 2002-11-18

The creation of a new field of lesbian and gay studies over the past thirty years has been a fascinating project. This volume brings together key authors in the field in 26 major essays and provides a clear sense of just how much has been achieved. It is a guide to the state of the art, and invaluable for

scholars throughout the world' - Ken Plummer, Professor of Sociology, University of Essex; and Editor of *Sexualities* 'This book is unique in lesbian and gay studies. From politics to health, cyber-queers to queer families, the review essays in this volume cover all the important bases of GLB history and politics. The Introduction is a simple and accessible overview of the changing faces of theory and research over many decades. This book is bound to be an important resource in a burgeoning field' - Janice Irvine, Associate Professor of Sociology, University of Massachusetts, Amherst 'The Handbook of Gay and Lesbian Studies, assembled by two leading theorists of sexuality, makes available more than two dozen new cutting-edge essays in gay studies. Essential for social science scholars and students of gay/queer studies' - David F. Greenberg, Professor of Sociology, New York University With this benchmark work, lesbian and gay studies comes of age. Drawing from a rich team of global contributors and carefully structured to elucidate the core issues in the field, it constitutes an unparalleled resource for teaching, research and debate. The volume is organized into 4 sections:

- History and Theory This covers the roots of lesbian and gay studies, the institutionalization of the subject in the Academy, the 'naturalness' of heterosexuality, science and sexuality, the comparative sociology of homosexualities and the heterosexual/homosexual division.
- Identity and Community This examines the formation of gay and lesbian identities communities and movements, 'cyber-queer' research, sexuality and space, generational issues in lesbian and gay lifecycles and the subject of bisexuality
- Institutions This investigates questions of the governance of sexualities, lesbian and gay health, sexualities and education, religion and homosexuality, homosexuality and the law, gay and lesbian workers, homosexuality and the family, and lesbian, gay and queer encounters with the media and popular culture
- Politics This explores the formation of the gay and lesbian movements, impact of globalization, antigay and lesbian violence, nationalism and transnationalism in lesbian and gay

studies and sexual citizenship. The result is an authoritative book that demarcates the field, stimulates critical discussion and provides lesbian and gay studies with an enriching focal reference point. It is, quite simply, a breakthrough work that will galvanize discussion and research for years to come.

Minority Stress and Lesbian Women Virginia R. Brooks, 1981

Inventing Lesbian Cultures Ellen Lewin, 1996-12-31 This pioneering collection of essays explores some of the many and varied ways that women might use a particular idea of being lesbian to invent themselves, to understand how they are connected in the world, and to imagine notions of community. Focused through an anthropological lens, contributors explore a wide range of expressions that bind different lesbian communities together—from dance club culture to lesbian wedding ceremonies, from lesbian life in the 1920s to lesbian motherhood today. As a whole, *Inventing Lesbian Cultures in America* shows how communities and identities allow for a sense of collective meaning for lesbians today. Defined in terms of culture, the activities, alliances, and identities that make up the experience of being lesbian imbue their lives with dignity and stability. *Inventing Lesbian Cultures in America* will become required reading for anyone interested in gender and sexual identity.

Lesbian Geographies Kath Browne, Eduarda Ferreira, 2016-03-03 It has long been recognised that the spatialisation of sexual lives is always gendered. Sexism and male dominance are a pervasive reality and lesbian issues are rarely afforded the same prominence as gay issues. Thus, lesbian geographies continue to be a salient axis of difference, challenging the conflation of lesbians and gay men, as well as the trope that homonormativity affects lesbians and gay men in the same ways. This volume explores lesbian geographies in diverse geographical, social and cultural contexts and

presents new approaches, using English as a working language but not as a cultural framework. Going beyond the dominant trace of Anglo-American perspectives of research in sexualities, this book presents research in a wide range of countries including Australia, Argentina, Israel, Canada, USA, Russia, Poland, Spain, Hungary and Mexico.

Lesbian Health Phyllis N. Stern, 2013-01-11 The sexual orientation of lesbians is just one factor in their lives, yet providers of healthcare often assume everyone is heterosexual and counsel their clients accordingly. This book contains a series of scientific investigations by leading authorities in the field into multiple problems lesbians face when seeking healthcare. Should lesbians disclose their sexual orientation? Can it be kept of the record? Where can lesbians go if they feel unable to trust traditional medicine and what is the history of the scientific and medical community towards lesbians? How are lesbians viewed by college students today? Lesbians are treated in this book as women first; their sexual orientation is just one factor in their lives.

Un/Popular Culture Kathleen Martindale, 1997-01-01 Offers a lucidly written analysis of the complex and provocative terrain of lesbian literary and cultural theory.

Lesbian Family Life, Like the Fingers of a Hand Valory Mitchell, 2013-09-13 In this book, an array of approaches - first person and theoretical accounts, clinical understandings, qualitative and quantitative research - are brought to bear on controversial or under-discussed topics in lesbian family life. From conception all the way to care for elderly parents, this book takes a fresh look at lesbian family relationships. Topics include: butch/femme couples, infidelity, the psychological meaning of family for lesbians, age-discrepant couples, lesbian nuns as family, Listservs as family, intentional family for aging women, women raising sons, mothers who come out late in life, mothers and children in situations of domestic violence, lack of support for lesbian domestic violence

survivors, death of a partner, psychological issues in the use of sperm donors or surrogates, and middle-aged lesbians caring for homophobic elderly parents. Some authors use self psychology and Jungian psychology to describe aspects of family life. The richness and diversity of topics makes it a text on lesbian lives. Therapists and academics from throughout the U.S. have contributed to this collection. Many lesbian women, as well as teachers (it can be a text) and mental health professionals who work with children, families, couples and elderly will find useful material here. This book was published as a special issue of the Journal of Lesbian Studies.

The Gay and Lesbian Liberation Movement Margaret Cruikshank, 1992 First Published in 1992. Routledge is an imprint of Taylor & Francis, an informa company.

Lesbians of Color Hilda Hidalgo, 2013-10-18 Broaden your understanding of lesbians of color, their perspectives, and their needs from a human services point of view. *Lesbians of Color: Social and Human Services* helps you understand the ways in which lesbians of color perceive important issues related to their oppression and discrimination by the dominant social service community. The authors' personalized accounts graphically depict the deep-seated impacts of society's racism, sexism, and homophobia. This insightful book suggests effective ways of changing detrimental practices and agency policies that perpetuate oppression and discrimination, and it enhances your interactions with lesbians of color. Chapters build on "feminist standpoint theory," a theory of inquiry enlightened by authors' firsthand knowledge that helps you move from an intellectual to an empathic grasp of the points made by each author. The use of standpoint theory gives you a different way of gaining insight and understanding of the experiences of lesbians of color. It acts as a springboard for valuing and celebrating the experiences and perspectives of lesbians of color so you can, in turn, provide more sensitive and effective services to members of this population. Among the topics explored in *Lesbians*

of Color are: specific ways white practitioners should behave to demonstrate their sensitivity and respect for lesbians of color insight as to how “need perceptions” and “problem diagnosis” varies when the practitioner listens to and understands lesbians of color specific identity issues that affect the emotional well-being of adopted lesbians visibility and activism as contributors to the mental health of lesbians of color how visibility and activism are essential in creating positive changes in policies and practices for lesbians of color This volume is useful for professionals involved in direct service practice with lesbian clients and for administrators of social service agencies. The book is also a helpful guide for educators in professional preparation programs who must introduce students to issues related to lesbians of color.

Fashioning Sapphism Laura Doan, 2001-01-03 The highly publicized obscenity trial of Radclyffe Hall's *The Well of Loneliness* (1928) is generally recognized as the crystallizing moment in the construction of a visible modern English lesbian culture, marking a great divide between innocence and deviance, private and public, New Woman and Modern Lesbian. Yet despite unreserved agreement on the importance of this cultural moment, previous studies often reductively distort our reading of the formation of early twentieth-century lesbian identity, either by neglecting to examine in detail the developments leading up to the ban or by framing events in too broad a context against other cultural phenomena. *Fashioning Sapphism* locates the novelist Radclyffe Hall and other prominent lesbians—including the pioneer in women's policing, Mary Allen, the artist Gluck, and the writer Bryher—within English modernity through the multiple sites of law, sexology, fashion, and literary and visual representation, thus tracing the emergence of a modern English lesbian subculture in the first two decades of the twentieth century. Drawing on extensive new archival research, the book interrogates anew a range of myths long accepted without question (and still in circulation)

concerning, to cite only a few, the extent of homophobia in the 1920s, the strategic deployment of sexology against sexual minorities, and the rigidity of certain cultural codes to denote lesbianism in public culture.

The Lesbian Periodicals Index Clare Potter, 1986 Author and subject index for lesbian periodicals.

Lesbian Philosophies and Cultures Jeffner Allen, 1990-01-01 The lesbians who have contributed to this book are theorists and activists who write as members of diverse lesbian cultures. Each lesbian has her ways of knowing, her voices, approaches, methodologies, languages. Each lesbian reflects, directly and indirectly, her relations to her own and to other ethnicities, races, social classes, physical abilities, ages, and nationalities. Each lesbian has distinctive perspectives on lesbian existence, friendships and sexualities, separatism and coalition building, theories of knowledge and ethics, language and writing. *Lesbian Philosophies and Cultures* is a hybrid site for discussion of, work on, and delight in this sometimes uneasy, sometimes painful, sometimes surprising and wonderful, lesbian pluralism. For this collection, some of the contributors have chosen to write in essay style, and some have chosen to write in fiction, autobiography, poetic prose and experimental forms. The contributors, all of whom live currently in the u.s.a. or quebec, are: Joyce Trebilcot, Vivienne Louise, Kitty Tsui, Ann Ferguson, Julia Penelope, Marthe Rosenfeld, Claudia Card, Anna Lee, María Lugones, Edwina Franchild, Caryatis Cardea, Baba Copper, Bette S. Tallen, Michèle Causse, Sarah Lucia Hoagland, Nett Hart, Marilyn Frye, Kim Hall, Jacquelyn N. Zita, Monique Wittig, Nicole Brossard, Gloria E. Anzaldúa, Jeffner Allen.

Lesbian Health Institute of Medicine, Health Sciences Section, Health Sciences Policy Program, Neuroscience and Behavioral Health Program, Committee on Lesbian Health Research Priorities, 1999-06-11 Women's health, as a field of study, is a developing discipline. Health theories in

general have been based on studies of men. However, in recent years, more attention has shifted to women's health, realizing the disparities between men and women in relation to their health. During the last two decades, a similar shift has occurred for a group of women—lesbian women—to further identify and specify their health needs. Over the past decade, lesbians have organized to call for attention to the health issues of this community, resulting in several federally funded research initiatives. This book offers a comprehensive view of what is known about lesbian health needs and what questions need further investigation, including: How do we define who is lesbian? Are there unique health issues for lesbians? Are lesbians at higher or lower risk for such health problems as AIDS, sexually transmitted diseases, breast cancer, mental disorders, and substance abuse? How does homophobia affect lesbian health and the funding of research on lesbian health? How do lesbian health needs fit into the health care system and the larger society? What risk and protective factors shape the physical and mental health of lesbians? The book discusses how to determine which questions to ask about sexual orientation, the need to obtain information without violating privacy, the importance of considering racial and ethnic diversity in the study of lesbians, strategies for exchanging information among researchers and disseminating findings to the public, and mechanisms for supporting greater numbers of researchers. Lesbian Health takes a frank look at the political pressures, community attitudes, and professional concerns uniquely affecting the study of lesbian health issues. The book explores many other issues including the potential for transferring findings in this field to other population groups, including other rare populations and women in general.

Boots of Leather, Slippers of Gold Elizabeth Lapovsky Kennedy, Madeline D. Davis, 2013-10-08
When most lesbians had to hide, how did they find one another? Were the bars of the 1940s and 1950s more fun than the bars today? Did Black and white lesbians socialize together? Boots of

Leather, Slippers of Gold is a ground-breaking account of the growth of the lesbian community in Buffalo, New York from the mid-1930s to the early 1960s. Drawing on oral histories collected from 45 women, it is the first comprehensive history of a working-class lesbian community. These poignant and complex stories provide a new look at Black and white working-class lesbians as powerful agents of historical change. Their creativity and resilience under oppressive circumstances constructed a better life for all lesbians and expanded possibilities for all women. Based on 13 years of research, Boots of Leather, Slippers of Gold ranges over topics including sex, relationships, coming out, butch-fem roles, motherhood, aging, racism, work, oppression, and pride. Kennedy and Davis provide a unique insider's perspective on butch-fem culture and trace the roots of gay and lesbian liberation to the determined resistance of working-class lesbians. The book begins by focusing on the growth and development of community, culture, and consciousness in the bars and open house parties of the 1930s, '40s, and '50s. It goes on to explore the code of personal behavior and social imperative in butch-fem culture, centering on dress, mannerisms, and gendered sexuality. Finally the book examines serial monogamy, the social forces which shaped love and break-ups, and the changing nature and content of lesbian identity. Capturing the full complexity of lesbian culture, this outstanding book includes extensive quotes from narrators that make every topic a living document, a composite picture of the lives of real people fighting for respect and for a place that would be safe for their love.
