Ideal for those departments whose budgets have been reduced but who still want to improve key processes and functions.

**The Revised EBA-Lite Methodology** International Monetary Fund. Strategy, Policy, & Review Department, International Monetary Fund. Western Hemisphere Dept., 2019-07-03 The Methodology review identified three broad areas for improving the EBA-Lite methodology: (1) expanding the fundamentals and policy determinants in the CA and REER regressions to better capture the external balance of EBA-Lite countries; (2) identifying alternatives to regression models for external assessments of large exporters of exhaustible commodities; and (3) a revised approach for the assessment of external sustainability in highly indebted economies. Accordingly, the revised methodology consists of three modules: 1) Regression Module 2) Module for External Assessments of Exporters of Exhaustible Commodities 3) Module for the Assessment of External Sustainability

*Lite Leadership* Bennett Annan PsyD EdD, 2021-07-06 Many workplaces have become dark, confused, and in shambles—the COVID-19 pandemic has pushed some companies into crisis. Even though it's easy to see employees are disillusioned, unmotivated, and uninspired, problems continue to fester. Conventional leadership strategies have helped us develop the internet, go to outer space, and create nuclear bombs. But too often, leaders themselves have made choices at the expense of humanity. A new kind of global leader, a LeaderLITE®, has emerged as a result of globalization. These leaders can deal with multifaceted intellectual and cultural issues, while also being sensitive to the ethical needs of the people they serve. Lite Leadership is necessary for every forward-thinking executive. In this book, you will learn how to become a LeaderLITE®, a holistic leader who attends to all three of components of a human being: mind, body, and spirit. You will also learn how to develop the perfect combination of your Physical health, Emotional stability, Personal growth, Spiritual resilience, and Environmental culture to form your own PEPSE® system of leadership that no longer settles for anything less than the best for mankind. Finally, you will learn how Lite Leadership will help you lead and manage people so they can quickly adapt to this new world of globalization.

*Green-lite* G. Bruce Doern, Graeme Auld, Christopher Stoney, 2015-11-01 Anchored in the core literature on natural resources, energy production, and environmental analysis, Green-lite is a critical examination of Canadian environmental policy, governance, and politics drawing out key policy and governance patterns to show that the Canadian story is one of complexity and often weak performance. Making a compelling argument for deeper historical analysis of environmental policy and situating environmental concerns within political and fiscal agendas, the authors provide extended discussions on three relatively new features of environmental policy: the federal-cities and urban sustainability regime, the federal-municipal infrastructure regime, and the regime of agreements with NGOs and businesses that often relegate governments to observing participants rather than being policy leaders. They probe the Harper era's muzzling of environmental science and scientists, Canada's oil sands energy and resource economy, and the government's core Alberta and Western Canadian political base. The first book to provide an integrated, historical, and conceptual examination of Canadian environmental policy over many decades, Green-lite captures complex notions of what environmental policy and green agendas seek to achieve in a business-dominated economy of diverse energy producing technologies, and their pollution harms and risks.

**Inflation Targeting Lite' in Small Open Economies** International Monetary Fund,2005-09-01 This paper develops a new macrofinance model for small open economies, allowing the investigation of Mauritius's experience with 'inflation targeting lite' as described in Stone (2003). It finds that this monetary policy regime has been associated with a general reduction in inflation, principally through a reduction in inflation expectations. The credibility the Bank of Mauritius has established with its 'inflation targeting lite' regime has allowed it to shift from an emphasis on exchange rate targeting towards inflation targeting. By estimating a model in which the yield curve is modeled explicitly we are able to obtain estimates of inflation expectations.

*Methodological Note on EBA-Lite* International Monetary Fund. Strategy, Policy, & Review Department,2016-08-02 The Fund has taken important steps to enhance its external sector assessments since the launch of the External Balance Assessment (EBA) methodology and the External Sector Report (ESR) in 2012, which provides a multilaterally consistent assessment of the largest economies' external sector positions and policies. With scope for strengthening external sector assessments of non-EBA countries, the 2014 Triennial Surveillance Review (TSR) called for the application of EBA's conceptual innovations to a broader set of countries. Following the 2014 TSR, the Managing Director's Action Plan proposed developing EBA-lite to extend the EBA methodology to a broader group of countries where adequate data is available. In the fall of 2014, the launch of the EBA-lite methodology for current account assessments provided the first extension of EBA approach for non-EBA countries. In summer 2015, the real exchange rate index model and the external sustainability approach were added to the EBA-lite framework. This note serves as a reference for the EBA-lite methodology. It provides: (i) motivations for developing EBA-lite and guidance for its use; (ii) technical explanations of all three EBA-lite approaches; and (iii) suggestions on how to articulate staff assessments of the external sector informed by model results.
