**The History of Lithuania** Zigmantas Kiaupa,2002

1939 Šarūnas Liekis,2010 This gripping and well-documented account of the history of the town of Vilnius and its surrounding region from the Polish ultimatum of March 1938, which forced Lithuania to open diplomatic relations with Poland, to the incorporation of Lithuania into the Soviet Union in June 1940 is set against the evolution of Lithuania's relations with her neighbours during this crucial period. It is a major contribution to the outbreak of war in September 1939 and the subsequent evolution of Nazi Soviet relations. Prof. Liekis presents a remarkable history based on archival sources never before utilized in any English-language study. In revealing the geopolitical, ideological, economic, social and ethnic dimensions of an immense tragedy in the heart of Europe, the author provides a new perspective on the unraveling of a society and nation during the initial days of World War II as prelude to the most violent period in European history.--Publisher's description.

Lost and Found Aušra Paulauskienė,2007 Ausra Paulauskiene's book Lost and Found: The Discovery of Lithuania in American Fiction targets American as well as European scholars in the fields of literature, ethnic studies and immigration. The author discovers obscure texts on Lithuania and alerts Western and Eastern academia to their significance as well as the reasons for their neglect. For the first time, Abraham Cahan's autobiography The Education of Abraham Cahan and Ezra Brudno's autobiographical novel The Fugitive receive an extensive coverage, while Goldie Stone's My Caravan of Years and Margaret Seebach's That Man Donaleitis (sic) receive their first scholarly consideration ever. The author argues that misrepresentations, misattributions and exclusions of Lithuanian legacy in the U.S. were produced by major political events of the twentieth century.

**The Making and Breaking of Soviet Lithuania** Violeta Davoliūtė,2014-01-03 Appearing on the world stage in 1918, Lithuania suffered numerous invasions, border changes and large scale population displacements.The successive occupations of Stalin in 1940 and Hitler in 1941, mass deportations to the Gulag and the elimination of the Jewish community in the Holocaust gave the horrors of World War II a special ferocity. Moreover, the fighting continued after 1945 with the anti-Soviet insurrection, crushed through mass deportations and forced collectivization in 1948-1951. At no point, however, did the process of national consolidation take a pause, making Lithuania an improbably representative case study of successful nation-building in this troubled region. As postwar reconstruction gained pace, ethnic Lithuanians from the countryside – the only community to remain after the war in significant numbers – were mobilized to work in the cities. They streamed into factory and university alike, creating a modern urban society, with new elites who had a surprising degree of freedom to promote national culture. This book describes how the national cultural elites constructed a Soviet Lithuanian identity against a backdrop of forced modernization in the fifties and sixties, and how they subsequently took it apart by evoking the memory of traumatic displacement in the seventies and eighties, later emerging as prominent leaders of the popular movement against Soviet rule.

*Lithuania 700 Years* Albertas Gerutis,1969 Lithuania 700 Years explores the nation's history from its undecided origins to its struggle for independence. The Lithuanians have been linked to various ancient peoples including the Romans, Greeks, Alans, Herulli, Thracians, Goths, and others. Numerous ethnogenetic theories have evolved, with some of the oldest theories based on comparisons of languages and religious customs, while others dealt with the subject in an more academic manner. The Liths, or Lithuanians, united in the 12th century under the rule of Mindaugas, who became king in 1251. Through marriage, one of the later Lithuanian rulers became the king of Poland (Ladislaus II) in 1386, uniting the countries. In 1410, the Poles and Lithuanians defeated the powerful Teutonic Knights at Tannenberg. From the 14th to the 16th century, Poland and Lithuania made up one of medieval Europe's largest empires, stretching from the Black Sea almost to Moscow. The two countries formed a confederation for almost 200 years, and in 1569 they formally united. Russia, Prussia, and Austria partitioned Poland in 1772, 1792, and 1795. As a consequence, Lithuania came under Russian rule after the last partition. Russia attempted to immerse Lithuania in Russian culture and language, but anti-Russian sentiment continued to grow. Following World War I and the collapse of Russia, Lithuania declared independence (1918), under German protection. The republic was then annexed by the Soviet Union in 1940. From June 1941 to 1944, it was occupied by German troops, with whom Lithuania served in World War II. Some 240,000 Jews were massacred in Lithuania during the Nazi years. In 1944, the Soviets again annexed Lithuania.

**The Litvaks** Dov Levin,2000 Lithuania was home to the great yeshivot of Jewish learning, as well as nationalistic movements such as Hovevei Zion, the Bund, and the Mizrachi. **Litva: The Rise and Fall of the Grand Duchy of Lithuania** Norman Davies,2013-02-19 The fascinating history of a Baltic empire's dominance and decline—excerpted from internationally bestselling author Norman Davies's Vanished Kingdoms Vanished Kingdoms introduces readers to once-powerful European empires that have left scant traces on the modern map. In this excerpt from his widely acclaimed book, Norman Davies tells the ill-fated story of the Grand Duchy of Lithuania. Founded in the mid-thirteenth century in one of the continent's first settled regions, where the oldest of its Indo-European languages is spoken, the Grand Duchy at its peak was the largest country in Europe, stretching from the Baltic to the Black Sea, and it commanded yet greater influence after uniting with its western neighbor, the Kingdom of Poland, to form the Polish-Lithuanian Commonwealth. The Grand Duchy's huge territory included the great cities of Kiev, Vilnius, Riga, Minsk, and Brest. Despite being ahead of its time as an elective republic in an age of absolute monarchy, power struggles and foreign incursions led to its ultimate demise and forced partition by Russia, Prussia, and Austria in 1795. In this selection from a work The Boston Globe has called “commendably accessible, magisterial, and uncommonly humane,” Davies chronicles these rich yet unfamiliar chapters in the history of modern Lithuania, Belarus, and Latvia with his signature acuity and verve.

Lithuania Thomas Lane,2014-04-08 Lithuania restored her independence, after half a century of Soviet occupation, in the immediate aftermath of the failed Moscow coup in August 1991. As the multi-national Soviet

state disintegrated, Lithuania evolved, without war or violence, from a communist state and a command economy to a liberal democracy, a free market, and a society guaranteeing human and minority rights. Lithuania therefore offers a notable example of peaceful transition, all the more impressive in the light of the bloody conflict elsewhere in the former Soviet Union of Yugoslavia, where the aspirations to independence of the constituent republics were either violently resisted or dissolved into inter-ethnic violence. Equally remarkable has been Lithuania's determination to 'return to Europe' after half a century of separation, even at the price of submerging its recently restored sovereign rights in the supranational European Union. The cost of membership in western economic and security organizations are judged to be worth paying to prevent Lithuania's being drawn once again into a putative Russian sphere of influence. On the threshold of a new millennium therefore, Lithuania has made a pragmatic accommodation to the demands of becoming a modern European state, whilst vigorously resisting the dilution of her rich cultural and historical traditions. These twin themes of accommodation and resistance are Lithuania's historical legacy to the current generations of Lithuanians as they integrate into European institutions and continue the modernization process.

Lithuania 700 Years Albertas Gerutis,1984

**Lithuania in the 1920s** Robert Wayne Heingartner,2009 Robert W. Heingartner kept this diary during his two year service as American consul in Kaunas, the provisional capital of Lithuania, 1926-1928. First titling the work *Impressions of Kaunas*, he wanted to record all his impressions of this small city about which he actually knew very little. He started with negative impressions, but he soon came to like it. He watched its growth with considerable sympathy. The diary's appeal lies in its picture of daily life in Kaunas as the provisional capital of a newly independent small state – the conditions of life in the city, the social life of the diplomats, and backstage episodes in the life of the foreign diplomats. The diary records some unusual details about the family of Antanas Smetona, the ruler of Lithuania from 1926 to 1940, and it abounds in interesting commentary on the attitudes of both Lithuanians and foreigners. Alfred Erich Senn, the editor of the diary, is emeritus professor of history at the University of Wisconsin – Madison in the USA as well as Visiting Professor at Vytautas Magnus University in Kaunas, Lithuania. He has written extensively on the history of Lithuania in the twentieth century. His father, Alfred Senn, was professor of Lithuanian language at the University of Lithuania in Kaunas at the time Heingartner was working there.

Lithuania 1940 Alfred Erich Senn,2007-01-01 In June 1940, as Nazi troops marched into Paris, the Soviet Red Army marched into Lithuania, Latvia, and Estonia; seven weeks later, the USSR Supreme Soviet ratified the Soviet takeover of these states. For half a century, Soviet historians insisted that the three republics had voluntarily requested incorporation into the Soviet Union. Now it has become possible to examine the events of that tumultuous time more carefully. Alfred Erich Senn, the author of books on the formation of the Lithuanian state in 1918-1920 and on the reestablishment of that independence in 1988-1991, has produced a fascinating account of the Soviet takeover, juxtaposing a picture of the disintegration and collapse of the old regime with the Soviets' imposition of a new order. Discussing the historiography and the living memory of the events, he uses the image of a "shell game" that focused attention on the work of a supposedly "non-communist" government while in the hothouse conditions of military occupation Moscow undermined the state's independent institutions and introduced a revolution from above.

**The Fight for Lithuanian Independence** Charles River,2020-11-09 \*Includes pictures \*Includes a bibliography for further reading Modern day Lithuania is a small country bordering the Baltic Sea with a population of less than 3 million people, but despite its relative size, the nation has exerted an influential role on the history of the region. More recently, in the 20th century, Lithuania was caught between much larger powers in two world wars and then the Cold War. Along with neighbors Latvia and Estonia, Lithuania was one of the only states to truly break free of the Soviet Union when the latter dissolved in 1991. Now entrenched in the EU's political and security bloc, Lithuania has seen unprecedented economic growth and prosperity, although Vilnius is still wary of the Russian giant on its doorstep. The end of the Cold War brought Lithuania the independence it had sought for almost 200 years and had only briefly attained in the 1918-39 Interwar Period. This is due in large measure to its location, as Lithuania is wedged between Poland and the Russian exclave of Kaliningrad to the south, Belarus to the east and Latvia to the north. The country's capital city is Vilnius and next largest city is Kaunas. Covering an area of 65,000 square kilometers, although at various stages of its history this was much greater, Lithuania borders the Baltic Sea to the west. Indeed, it is perhaps best to think of the country as a Baltic one, and as with the other Baltic states, Lithuania has been at the crossroads of events involving European, Middle Eastern, and Asian powers. For centuries, its main relationships were with Poland, Sweden, and the burgeoning Rus peoples, later Russia and Ukraine. Subsequently Germany would become an important player in the Baltics, while Russia's Romanov dynasty coveted access to the Baltic sea lanes, inevitably meaning Lithuania would come into its sights. Given everything going on around it, it should come as little surprise that Lithuania's history during the 20th century revolved around the remarkable resilience of its people in the face of aggression and imperialism from first Russia, then Nazi Germany, then the Soviet Union. *The Fight for Lithuanian Independence: The History and Legacy of Lithuania in the 20th Century* examines the geopolitics of the region, Lithuania's place in it, and the most important events in Lithuania's recent history. Along with pictures depicting important people, places, and events, you will learn about Lithuania like never before.

**Lithuania** Melanie Waldron,2012-12-03 Lithuania offers complete coverage of this fascinating country, including sections on history, geography, wildlife, infrastructure and government, and culture. It also includes a detailed fact file, maps and charts, and a traceable flag.

Lithuania V. Stanley Vardys,Judith Sedaitis,1997 An exploration of the survival and development of the Lithuanian people, once caught in epochal struggles between the Russian and German states, and now restored to independence.
