Loving Hugh Nini, Neal Treadwell, 2020-10-14 Loving: A Photographic Story of Men in Love, 1850-1950 portrays the history of romantic love between men in hundreds of moving and tender vernacular photographs taken between the years 1850 and 1950. This visual narrative of astonishing sensitivity brings to light an until-now-unpublished collection of hundreds of snapshots, portraits, and group photos taken in the most varied of contexts, both private and public. Taken when male partnerships were often illegal, the photos here were found at flea markets, in shoe boxes, family archives, old suitcases, and later online and at auctions. The collection now includes photos from all over the world: Australia, Bulgaria, Canada, Croatia, France, Germany, Japan, Greece, Latvia, the United States, the United Kingdom, Russia, and Serbia. The subjects were identified as couples by that unmistakable look in the eyes of two people in love - impossible to manufacture or hide. They were also recognized by body language - evidence as subtle as one hand barely grazing another - and by inscriptions, often coded. Included here are ambrotypes, daguerreotypes, glass negatives, tin types, cabinet cards, photo postcards, photo strips, photomatics, and snapshots - over 100 years of social history and the development of photography. Loving will be produced to the highest standards in illustrated book publishing. The photographs - many fragile from age or handling - have been digitized using a technology derived from that used on surveillance satellites and available in only five places around the world. Paper and other materials are among the best available. And Loving will be manufactured at one of the world's elite printers. Loving, the book, will be up to the measure of its message in every way. In these delight-filled pages, couples in love tell their own story for

the first time at a time when joy and hope - indeed human connectivity - are crucial lifelines to our better selves. Universal in reach and overwhelming in impact, *Loving* speaks to our spirit and resilience, our capacity for bliss, and our longing for the shared truths of love.

All About Love bell hooks, 2018-01-30 A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' Love Song to the Nation trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Wired for Love Stan Tatkin, 2012-01-02 What the heck is my partner thinking? is a common refrain in romantic relationships, and with good reason. Every person is wired for love differently, with different habits, needs, and reactions to conflict. The good news is that most people's minds work in predictable ways and respond well to security, attachment, and rituals, making it possible to actually neurologically prime the brain for greater love and fewer conflicts. *Wired for Love* is a complete insider's guide to

understanding a partner's brain and promoting love and trust within a romantic relationship. Readers learn ten scientific principles they can use to avoid triggering fear and panic in their partners, manage their partners' emotional reactions when they do become upset, and recognize when the brain's threat response is hindering their ability to act in a loving way. By learning to use simple gestures and words, readers can learn to put out emotional fires and help their partners feel more safe and secure. The no-fault view of conflict in this book encourages readers to move past a warring brain mentality and toward a more cooperative loving brain understanding of the relationship. Based in the sound science of neurobiology, attachment theory, and emotion regulation research, this book is essential reading for couples and others interested in understanding the complex dynamics at work behind love and trust in intimate relationships.

Receiving Love Harville Hendrix, Helen LaKelly Hunt, 2004-10-05 This groundbreaking book from the best-selling authors of *Getting the Love You Want* and coauthors of *Giving the Love that Heals* is the first to address the biggest unexplored issue facing couples today: Most of us are better at giving love than accepting it. We don't realize all the ways that our resistance to appreciation, praise, compliments, and accepting help from others hurts us and cripples our relationships. Many partners learn how to give love, but many more undermine their relationships by for-getting something that is equally important -- learning to receive it. According to the authors, the root of the problem is the self-rejection that began in childhood, when our parents and caretakers unintentionally failed to nurture or directly rejected traits, characteristics, or im-pulses when we were children. We end up rejecting in ourselves whatever our caretakers ignored or

rejected in the course of our childhoods. When we become adults, this makes it impossible to let in the love we want and need, even when our partners offer it. As a result, we dismiss compliments, minimize gestures of affection, and create obstacles to true intimacy. In this book, Harville Hendrix and Helen LaKelly Hunt, co-creators of Imago Relationship Therapy, offer a definitive guide to breaking the shackles of self-rejection and embracing the love our partners offer. *Receiving Love* is a very personal book for Drs. Hendrix and Hunt, and much of their own journey is the inspiration for it. Drawing on their renowned expertise, the wide clinical experience of hundreds of Imago therapists, and their own personal experience, the authors are able to offer detailed guidance on how to conquer the problems that come from self-rejection and embrace the gifts that are abundant in every person's life, if only we knew how to accept them. With its groundbreaking theory, challenging processes, and inspiring examples, this book holds the key to loving relationships that last.

A Book About Love Jonah Lehrer, 2016-07-12 "Jonah Lehrer has a lot to offer the world...The book is interesting on nearly every page...Good writers make writing look easy, but what people like Lehrer do is not easy at all." -David Brooks, The New York Times Book Review Science writer Jonah Lehrer explores the mysterious subject of love. Weaving together scientific studies from clinical psychologists, longitudinal studies of health and happiness, historical accounts and literary depictions, child-rearing manuals, and the language of online dating sites, Jonah Lehrer's *A Book About Love* plumbs the most mysterious, most formative, most important impulse governing our lives. Love confuses and compels us—and it can destroy and define us. It has inspired our greatest poetry, defined our societies and our beliefs, and

governs our biology. From the way infants attach to their parents, to the way we fall in love with another person, to the way some find a love for God or their pets, to the way we remember and mourn love after it ends, this book focuses on research that attempts, even in glancing ways, to deal with the long-term and the everyday. The most dangerous myth of love is that it's easy, that we fall into the feeling and then the feeling takes care of itself. While we can easily measure the dopamine that causes the initial feelings of "falling" in love, the partnerships and devotions that last decades or longer remain a mystery. This book is about that mystery. Love, Lehrer argues, is not built solely on overwhelming passion, but, fascinatingly, on a set of skills to be cultivated over a lifetime.

The World Book of Love Leo Bormans, 2018-10-15 * A record of worldwide scientific research on hope* Including a selection of ten of the world's most hopeful projects* Full of inspiring examples After the worldwide success of The World Book of Happiness and The World Book of Love, author Leo Bormans has spent two years studying the scientific research on hope and meeting the most prominent experts in the field. Hope is not a luxury of the privileged few. It represents a universal psychological resource that can be found in all corners of the world. Hope is all of this: a tool for envisioning definable goals, a coping resource, an expression of trust and openness as well as a spiritual gift earned by faith or ritual. In the course of a lifetime every individual is apt to experience these different shades of hope. The World Book of Hope is an inspiring quest to the breadth and depth of hope. It offers a universal framework for understanding and using the most powerful tool of mankind: hope. Without hope there is no life. In this book, 100 professional researchers from all over the world share what we know about

hope. Not spiritual philosophy but evidence-based knowledge of recent experiments and life-long research, set in a language everybody understands. This book unveils the secret power of hope in love and relationships, study and work, health and illness, education and care, freedom and prison, management and leadership, therapy and economy, youth and old age. It even shows how we can make pessimism work and how we can benefit from post-traumatic growth: one door closes, another one opens.

Field Notes on Love Jennifer E. Smith, 2019-03-05 Utterly romantic. --Jenny Han, NYT bestselling author of *To All the Boys I've Loved Before* The bestselling author of *Windfall* and *The Statistical Probability of Love at First Sight* returns with a meet-cute romance about Hugo and Mae, two teens who are thrown together on a cross-country train trip that will teach them about love, each other, and the futures they can build for themselves. When she stumbles across Hugo's ad for a replacement Margaret Campbell (her full name!), she's certain it's exactly the adventure she needs to shake off her disappointment and jump-start her next film.
