Human-Centric Decision-Making Models for Social Sciences Peijun Guo,Witold Pedrycz,2013-11-01 The volume delivers a wealth of effective methods to deal with various types of uncertainty inherently existing in human-centric decision problems. It elaborates on comprehensive decision frameworks to handle different decision scenarios, which help use effectively the explicit and tacit knowledge and intuition, model perceptions and preferences

in a more human-oriented style. The book presents original approaches and delivers new results on fundamentals and applications related to human-centered decision making approaches to business, economics and social systems. Individual chapters cover multi-criteria (multiattribute) decision making, decision making with prospect theory, decision making with incomplete probabilistic information, granular models of decision making and decision making realized with the use of non-additive measures. New emerging decision theories being presented as along with a wide spectrum of ongoing research make the book valuable to all interested in the field of advanced decision-making. The volume, self-contained in its nature, offers a systematic exposure to the concepts, design methodologies, and detailed algorithms. A prudent balance between the theoretical studies and applications makes the material suitable for researchers and graduate students in information, computer sciences, psychology, cognitive science, economics, system engineering, operation research and management science, risk management, public and social policy.

Marriage as a National Fiction Dagmar Stöferle, 2023-02-15 There is a prehistory of the adultery novel, which became a pan-European literary paradigm in the second half of the 19th century. In the wake of the French Revolution, secular marriage legislation emerges, producing a metaphorical surplus that is still effective today. Using legal history and canonical literary texts from Rousseau to Goethe and Manzoni to Hugo and Flaubert, this book traces how marriage around 1800 became a figure of reflection for the modern nation-state. In the process, original contributions to the philology of the individual texts emerge. At the same time, law and literature are made fruitful for a historical semantics of

society and community. This book is a translation of an original German 1st edition "Ehe als Nationalfiktion" by Dagmar Stöferle, published by J.B. Metzler, imprint of Springer-Verlag GmbH Germany, part of Springer Nature in 2020. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). The author (with the support of Chris Owain Carter) has subsequently revised the text further in an endeavour to refine the work stylistically.
