Masters of Doom David Kushner,2003-04-24 Masters of Doom is the amazing true story of the Lennon and McCartney of video games: John Carmack and John Romero. Together, they ruled big business. They transformed popular culture. And they provoked a national controversy. More than anything, they lived a unique and rollicking American Dream, escaping the broken homes of their youth to co-create the most notoriously successful game franchises in history—Doom and Quake—until the games they made tore them apart. Americans spend more money on video games than on movie tickets. Masters of Doom is the first book to chronicle this industry's greatest story, written by one of the medium's leading observers. David Kushner takes readers inside the rags-to-riches adventure of two rebellious entrepreneurs who came of age to shape a generation. The vivid portrait reveals why their games are so violent and why their immersion in their brilliantly designed fantasy worlds offered them solace. And it shows how they channeled their fury and imagination into products that are a formative influence on our culture, from MTV to the Internet to Columbine. This is a story of friendship and betrayal, commerce and artistry—a powerful and compassionate account of what it's like to be young, driven, and wildly creative. “To my taste, the greatest American myth of cosmogenesis features the maladjusted, antisocial, genius teenage boy who, in the insular

laboratory of his own bedroom, invents the universe from scratch. Masters of Doom is a particularly inspired rendition. Dave Kushner chronicles the saga of video game virtuosi Carmack and Romero with terrific brio. This is a page-turning, mythopoeic cyber-soap opera about two glamorous geek geniuses—and it should be read while scarfing down pepperoni pizza and swilling Diet Coke, with Queens of the Stone Age cranked up all the way.”—Mark Leyner, author of *I Smell Esther Williams*

Mr Masters T. L. Swan,2018-05-28 He is powerful, older and my boss, a lethal combination. Job satisfaction has taken on a whole new meaning. When I lied on my resume, I didn't expect it to matter. I mean any child would love me; I was born to be a nanny. I applied for a position working for a woman, or so I thought. But Julian Masters is definitely all man...the kind you dream of licking chocolate from. The first day was bad. The kids were the spawn of the devil and I spied through a window and caught him doing something obscene.... and equally fascinating. The second day was worse, he caught me snooping in his bathroom cabinet in my skimpy pyjamas and all hell broke loose. On the third day, I ran over him in a golf cart. And by day four I had decided that I wanted that chocolate...all of it. Melted....on me. But intelligent, widowed Judges don't fall for ditzy nannies. Or do they?

The History of Karate and the Masters Who Made It Mark I. Cramer,2018-07-24 A concise yet comprehensive history of traditional Okinawan and Japanese karate, with biographies of the great karate masters This concise-yet-comprehensive history of traditional Okinawan and Japanese karate includes authoritative biographies of the great karate masters of the past and the philosophical issues they faced as karate changed and evolved. Bringing a fresh understanding to the study of the martial arts, Mark I. Cramer dispels many of the often-repeated martial-arts myths as he details the lineages of the modern styles of karate and describes the social, cultural, and political events that influenced them. While most books focus on a single style of karate or the biography of just one of the great teachers, this book offers a well-researched and detailed overview. By bringing all of this knowledge together in one volume, Cramer—an award-winning inductee into the USA Karate Federation’s Hall of Fame—fills a crucial gap.

The Masters Curt Sampson,2010-11-10 The Masters golf tournament weaves a hypnotic spell. It is the toughest ticket in sports, with black-market tickets selling for \$10,000 and more. Success at Augusta National breeds legends, while failure can overshadow even the most brilliant of careers. But as Curt Sampson, author of the bestselling Hogan, reveals in *The Masters*, a cold heart beats behind the warm antebellum façade of this famous Augusta course. And that heart belongs to the man who killed himself on the grounds two decades ago. Club and tournament founder Clifford Roberts, a New York stockbroker, still seems to run the place from his grave. An elusive and reclusive figure, Roberts pulled the strings that made the Masters the greatest golf tournament in the world. His story—including his relationship with presidents, power brokers, and every golf champion from Bobby Jones to Arnold Palmer to Jack Nicklaus—has never been told. Until now. *The Masters* is an amazing slice of history, taking us inside the presidency of Dwight D. Eisenhower, Augusta's most famous member. It is a look at how the new South coexists with the old South: the relationships between blacks and whites, between Southerners and Northerners, between rich and poor—with such characters as James Brown, the Godfather of Soul; the great boxer

Beau Jack; and Frank Stranahan, the playboy golfer and the only white pro ever banned from the tournament. The Masters is a spellbinding portrait of a tournament unlike any other.

Masters Theses in the Pure and Applied Sciences Wade H. Shafer, 2013-11-21 Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor, Michigan, with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 20 (thesis year 1975) a total of 10,374 theses titles from 28 Canadian and 239 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. The organization of Volume 20 is identical to that of past years. It consists of theses titles arranged by discipline and by university within each discipline.

The Masters of Wisdom J. Bennett, 2018-08-05 The Masters of Wisdom is the last book to have been published during the John Bennett's lifetime, and is probably the most unusual, having little in common with his previously published works, except in serving a number of discrete objectives. Originally planned to be incorporated into a single volume to be entitled Gurdjieff and the Masters of Wisdom this work was separated from what became Gurdjieff: Making a New World which eventually was published a year earlier in 1973. In the last years of Bennett's life, he had been deeply affected by his close association with the Turkish mystic, Hasan Lutfi Shushud, and originally a contract was drawn up with a London publishing house for the combined work, in which both men were signed as joint authors. However, before anything was written, Shushud abruptly withdrew his support for the project, ostensibly on the grounds of a disagreement with the publishers. Only after Bennett's death in 1974, Shushud indicated privately that he found Gurdjieff's teaching and methods offensive. There is however some overlap between the two books, and The Masters of Wisdom draws on Gurdjieff's resources as well as material provided by Hasan Shushud. The Masters of Wisdom is unlike Bennett's other books not only in the way it is constructed, which appears to be somewhat out of balance, but also in the content. The first three chapters provide an overview of material presented 8 years earlier in the fourth volume of The Dramatic Universe, of the Earth as single intelligent whole, in which humanity plays an increasingly active role and - must accept greater responsibility. These chapters provide an introduction to Chapter 4 which presents an account of the Christ Event

not to be found anywhere else, and by Bennett's own account, arising out of insights vouchsafed to him privately by Gurdjieff. The next chapter serves as a bridge to the second major detailed message Bennett shares, which concerns the extraordinary period spanning at least 350 years, when a group of men within a single unbroken tradition played a pivotal and benign role in otherwise catastrophic events. It is not clear why Bennett devotes an entire chapter to Genghis Khan in a book entitled *The Masters of Wisdom* except that he appears to have been an exceptionally gifted individual whom Bennett apparently admired for his great self-control, and his willingness to accept guidance from a spiritual director. The researches Bennett completed in his last years led him to certain conclusions which may not have been fully expressed in this account. Unlike Bennett's other books, *The Masters of Wisdom* contains hidden messages, and also occult elements which are accessible to those able to access them. *Beelzebub's Tales to His Grandson* and *The Dramatic Universe* showed the transformative power of books, but like *Meetings with Remarkable Men* this book imparts information which remains hidden except from those readers who find the key. The book is also unlike any of Bennett's other books in containing secret magic elements, opening mystical channels. Since the text was left unfinished when Bennett died, it is not possible to know for certain whether the message of the book is complete or would have included other material such as the very detailed accounts that Bennett gave to his student in the last months - the esoteric phase - of the Third Basic Course. Overall the message is of the planet we inhabit seen as a single indivisible whole, of which we human beings are an important element, but which is subordinate to the Cosmic forces.
