Death by Meeting Patrick M. Lencioni, 2010-06-03 A straightforward framework for creating engaging and exciting business meetings Casey McDaniel had never been so nervous in his life. In just ten minutes, The Meeting, as it would forever be known, would begin. Casey had every reason to believe that his performance over the next two hours would determine the fate of his career, his financial future, and the company he had built from scratch. "How could my life have unraveled so quickly?" he wondered. In his latest page-turning work of business fiction, best-selling author Patrick Lencioni provides readers with another powerful and thought-provoking book, this one centered around a cure for the most painful yet underestimated problem of modern business: bad meetings. And what he suggests is both simple and revolutionary. Casey McDaniel, the founder and CEO of Yip Software, is in the midst of a problem he created, but one he doesn't know how to solve. And he doesn't know where or who to turn to for advice. His staff can't help him; they're as dumbfounded as he is by their tortuous meetings. Then an unlikely advisor, Will Peterson, enters Casey's world. When he proposes an unconventional, even radical, approach to solving the meeting problem, Casey is just desperate enough to listen. As in his other books, Lencioni provides a framework for his groundbreaking model, and makes it applicable to the real world. Death by Meeting is nothing

short of a blueprint for leaders who want to eliminate waste and frustration among their teams and create environments of engagement and passion.

From the creator of the viral sensation 10 Tricks to Appear Smart in Meetings comes the must-have book you never knew you needed, 100 Tricks to Appear Smart in Meetings. In it, you will learn how to appear smart in less than half the time it takes to actually learn anything. You know those subtle tricks your coworkers are all guilty of? The constant nodding, pretend concentration, useless rhetorical questions? These tricks make them seem like they know what they're doing when in fact they have no clue. This behavior is so ingrained, so subtle, and so often mistaken for true intelligence that identifying it, calling it out, or compiling it into an exhaustive digest has never been attempted. Until now. Complete with illustrated tips, examples, and scenarios, 100 Tricks gives you actionable ways to use words like “actionable,” in order to sound smart. Every type of meeting is covered, from general meetings where you stopped paying attention almost immediately, to one-on-one meetings you zoned out on, to impromptu meetings you were painfully subjected to at the last minute. It's all here. Open this book to any page and find an easy-to-digest trick with an even easier-to-digest illustration, guiding you on: how to nail the big meeting by pacing and nodding most effective ways to listen to your coworkers while still completely ignoring them the key to making your presentations “interactive.” If you hadn't noticed these behaviors before, you will see them now—from your colleagues, your managers, and soon yourself. Each trick is a mirror to the reality of what happens in meetings, told in the form of hilariously bad advice—advice that you might just want to take. But probably not. But maybe.

Click Michael Wilkinson, Richard Smith, 2013-08 How much time does your organization waste in unfocused, unengaging and unproductive virtual meetings? Virtual meetings are on the rise. Unfortunately, most meeting leaders don't know the strategies for executing masterful virtual meetings.

As a result, most virtual meetings: Don't start on time because people have difficulty with the technology Don't have a defined purpose due to lack of preparation Don't keep people engaged due to escalated multi-tasking Don't address conflict because the leader often doesn't see the body language information that communicates silent disagreement Don't deal with dysfunction because the meeting leader is distracted with the technology CLICK for Strategies CLICK: The Virtual Meetings Book provides meeting leaders with 60 comprehensive strategies for planning and executing masterful virtual meetings. In its twelve chapters, you'll find strategies and answers to these questions and more: How do you keep engagement high in a virtual meeting? How do you eliminate unnecessary virtual meetings? What are the key features that differentiate various online meeting platforms? How do you reduce the likelihood that your meeting will be derailed by technical issues? What if only a few people are remote? Or, what if you, the meeting leader, are the only one remote? How do you ask questions that receive lots of responses instead of that dreaded silence? What are the common virtual meeting dysfunctions, and how do you prevent them? How do you make sure you get quality results from every virtual meeting? Authors Michael Wilkinson and Richard Smith, leaders in the #1 meeting facilitation and facilitation training company in the US, show you how to deliver masterful virtual meetings, every time.

How to Fix Meetings Graham Allcott, Hayley Watts, 2021-05-13 'An accessible thought provoking book that offers something of interest to anyone responsible for organising (or participating in) meetings.' Jackie Weaver, Chief Officer of the Cheshire Association of Local Councils Zoom fatigue? Calendar full of meetings that could just be an email? Online and offline, too much valuable time is wasted in meetings. Often little advance planning takes place, resulting in productivity drains rather than productivity gains. Providing realistic and practical advice, productivity professionals Graham Allcott and Hayley Watts show how to reduce the amount of time you spend in meetings, and ensure that the ones that you do attend are genuine opportunities to collaborate and get things done. Learn how to hold and attend meetings where the focus is on the outcome; get to grips with the 40-20-40 Continuum, so that only 20 per cent of your attention for each meeting is spent in the meeting itself – the rest is in the preparation and the follow-through; and understand when it's necessary to say that you won't be attending – and how best to do so.

Marriage Meetings for Lasting Love Marcia Naomi Berger, 2014-01-15 Most couples — because they watch so many of their peers divorce and are themselves the products of failed marriages — don't have many successful long-term-relationship role models. Parenting and communication issues are perennial, while some challenges, like increasingly 24-7 work lives and economic hardships, mark the current decade. Despite all this, psychotherapist and clinical social worker Marcia Naomi Berger asserts that most couples can make love last — they just need to learn how. Berger answers this need with a deceptively simple prescription: have an interruption-free thirty-minute (or even shorter) meeting each week and follow an agenda that includes the kind of appreciation and planning for fun that foster intimacy and pave the way for collaborative conflict resolution. Berger has refined these techniques while working with hundreds of couples — with results that are both practical and profound.

How to Lead an Effective Meeting (and get the results you want) Dick Massimilian, 2016-06-05 It seems these days that everyone hates meetings. How many times have you heard someone say, We have too many meetings, or I am booked so solid every day in meetings I never have time to get anything done, or I'm back-to-back... But when you talk to people, it isn't that they hate meetings; it's that they don't like meetings in which nothing gets done. No one is sure why the meeting was called, or why half the people are in the room, or what exactly is supposed to get done, or what was decided. We complain about meetings, but we seem to attend more and more of them. This book is for people who need to lead effective meetings, in any context. It is a blueprint for how to have your meetings work, defined as, meetings that achieve the results you want to achieve, in the meeting and afterwards. It's a how-to guide for using the time you spend planning, organizing and conducting meetings wisely. It's about getting results through meetings. Why are effective meetings important? Meeting quality matters. Well-run organizations have well-run meetings. Sloppily run organizations have sloppily run meetings. What are the signs of a bad meeting? The meeting starts late. There is no agenda. The meeting runs over. No one is sure what if anything was decided or accomplished. The same meeting to discuss the same topic seems to be held over and over again. No one knows what the next steps are or who is supposed to follow up whom for what. Someone monopolizes the meeting and someone else talks in circles, while yet someone else seems to simply rephrase and repeat what has already been said. Nothing discourages people, whether volunteers or employees, like feeling they are wasting their time. Too many meetings waste time. They sap morale, and leave people frustrated or irritated. This is a shame, as leading an effective meeting is not rocket science once you have a blueprint. If you have an allergic reaction to wasting time in meetings, this book is for you. It is divided into five principal sections: - Preparation - Invitation - Agenda - Delivery - Follow Up The sections outline the five phases of a meeting. For your meeting to be successful (again, defined as, a meeting that achieves the results you want to achieve), you must execute each phase successfully. Meetings versus Presentations The tips in this book are intended to apply to both meetings, in which various people interact in a more-or-less informal setting, and presentations, occasions on which a speaker presents material to an audience in a structured, more-or-less formal setting. Some principles apply more directly to meetings, others to presentations. All are relevant to both.

The Meeting Book Helen Chapman, 2016-09-26 Meetings are alive Whether it's a few people meeting over coffee or 100 people in a conference room, meetings happen all the time. They are a constantly changing and living pattern; a connection of minds, content and process. Every meeting, no matter how large or small, has the potential to be a dynamic interaction of human brains. The possibilities for success are endless and yet organizations persist in forcing themselves into a rigid straight jacket of endless agendas, boring monologues and tedious PowerPoint. Where agendas are long and aimless. Where people stop each other talking. Where creativity is stifled. Where things go around in circles or grind to a halt. Where time is lost. Now is the time to make a change; to adapt to a better way of working. Now is the time for to take responsibility whether you Attend, Chair or Facilitate meetings; it's over to you to help lead the way. Whether you're problem-solving, innovating, strategizing, visioning, aligning or simply informing-you have more influence than you think. You just need to know how. This book will show you the 3 Big Twists to make all types of meeting successful so that you can begin a new meeting habit that others will want to follow. LID Publishing's popular Concise Advice Lab notebooks are designed to be quick and comprehensive brainstorming tools for busy professionals. The small trim size makes it easy to take along in a briefcase or purse. Interior pages are matte finish, so ink won't smear, and there's plenty of space to jot notes.
