The Usefulness of Useless Knowledge Abraham Flexner,Robbert Dijkgraaf,2017-02-21 A short, provocative book about why useless science often leads to humanity's greatest technological breakthroughs A forty-year tightening of funding for scientific research has meant that resources are increasingly directed toward applied or practical outcomes, with the intent of creating products of immediate value. In such a scenario, it makes sense to focus on the most identifiable and urgent problems, right? Actually, it doesn't. In his classic essay *The Usefulness of Useless Knowledge*, Abraham Flexner, the founding director of the Institute for Advanced Study in Princeton and the man who helped bring Albert Einstein to the United States, describes a great paradox of scientific research. The search for answers to deep questions, motivated solely by curiosity and without concern for applications, often leads not only to the greatest scientific discoveries but also to the most revolutionary technological breakthroughs. In short, no quantum mechanics, no computer chips. This brief book includes Flexner's timeless 1939 essay alongside a new companion essay by Robbert Dijkgraaf, the Institute's current director, in which he shows that Flexner's defense of the value of the unobstructed pursuit of useless knowledge may be even more relevant today than it was in the early twentieth century. Dijkgraaf describes how basic research has led to major transformations in the past century and explains why it is an essential precondition of innovation and the first step in social and cultural change. He makes the case that society can achieve deeper understanding and practical progress today and tomorrow only by truly valuing and substantially funding the curiosity-driven pursuit of useless knowledge in both the sciences and the humanities.

Halfway Home Reuben Jonathan Miller,2021-02-02 A persuasive and essential (Matthew Desmond) work that will forever change how we look at life after prison in America through Miller's stunning, and deeply painful reckoning with our nation's carceral system (Heather Ann Thompson). Each year, more than half a million Americans are released from prison and join a population of twenty million people who live with a felony record. Reuben Miller, a chaplain at the Cook County Jail in Chicago and now a sociologist studying mass incarceration, spent years alongside prisoners, ex-prisoners, their friends, and their families to understand the lifelong burden that even a single arrest can entail. What his work revealed is a simple, if overlooked truth: life after incarceration is its own form of prison. The idea that one can serve their debt and return to life as a full-fledge member of society is one of America's most nefarious myths. Recently released individuals are faced with jobs that are off-limits,

apartments that cannot be occupied and votes that cannot be cast. As *The Color of Law* exposed about our understanding of housing segregation, *Halfway Home* shows that the American justice system was not created to rehabilitate. Parole is structured to keep classes of Americans impoverished, unstable, and disenfranchised long after they've paid their debt to society. Informed by Miller's experience as the son and brother of incarcerated men, captures the stories of the men, women, and communities fighting against a system that is designed for them to fail. It is a poignant and eye-opening call to arms that reveals how laws, rules, and regulations extract a tangible cost not only from those working to rebuild their lives, but also our democracy. As Miller searchingly explores, America must acknowledge and value the lives of its formerly imprisoned citizens. Karena tak punya teman, Circe mencarinya di dunia manusia, dan mengembangkan kemampuannya sebagai penyihir. Zeus, yang merasa terancam, mengasingkannya ke pulau terpencil. Circe mengasah bakatnya dan bertemu banyak tokoh paling termasyhur dalam mitologi, di antaranya Minotaur, Daedalus dan Icarus, Medea, dan Odysseus yang lihai. Tetapi wanita yang hanya sendirian akan menghadapi banyak bahaya, dan Circe tanpa sengaja membangkitkan murka manusia dan dewa-dewa, sehingga mesti berhadapan dengan dewa Olympus yang paling menakutkan dan pendendam. Untuk melindungi apa yang paling dicintainya, Circe harus mengerahkan seluruh kekuatannya dan memilih dengan tegas, apakah hendak berpihak kepada dewa-dewa yang telah melahirkannya, atau manusia yang telanjur disayanginya.

Soul Food Adrian Miller, 2013-08-15 2014 James Beard Foundation Book Award, Reference and Scholarship Honor Book for Nonfiction, Black Caucus of the American Library Association In this insightful and eclectic history, Adrian Miller delves into the influences, ingredients, and innovations that make up the soul food tradition. Focusing each chapter on the culinary and social history of one dish--such as fried chicken, chitlins, yams, greens, and red drinks--Miller uncovers how it got on the soul food plate and what it means for African American culture and identity. Miller argues that the story is more complex and surprising than commonly thought. Four centuries in the making, and fusing European, Native American, and West African cuisines, soul food--in all its fried, pork-infused, and sugary glory--is but one aspect of African American culinary heritage. Miller discusses how soul food has become incorporated into American culture and explores its connections to identity politics, bad health raps, and healthier alternatives. This refreshing look at one of America's most celebrated, mythologized, and maligned cuisines is enriched by spirited sidebars, photographs, and twenty-two recipes.

Hikertrash Erin Miller, 2014-12-03 Teetering awkwardly on the brink of insanity, unable to handle life in snowy, cold, ultra-conservative North Idaho, Carl and Erin sold their house and set out in search of a new place to call home. Suddenly finding themselves completely free of responsibilities, jobless, and with a little spare cash in the bank, it didn't take long before their serious search for a new life took some unexpected twists and turns. What do you think we should do when we return to the States? Erin asked Carl, as they sat outside a tiny cafe sipping coffee. It was a question that had been plaguing her for weeks as they budget travelled across South East Asia in an attempt to avoid winter (and reality). I've been thinking about it, and I think we should thru-hike the Pacific Crest Trail. Was Carl's totally unexpected reply. Spend months on end traipsing through the wilderness,

petting bunnies and chasing rainbows, as they hiked 2,660 miles from Mexico to Canada? How could Erin possibly say no? Life Rule #1: Never, ever, turn down an adventure. Friends wagered they wouldn't last a week, but before they knew it, days turned into months as they made their way across America at three miles an hour. As Carl and Erin morphed into Bearclaw and Hummingbird, they found that being hikertrash suited them. Though they will both admit the trail was life altering, there were no great epiphanies, no magic answers to all of life's burning questions, no ah-ha moments when suddenly life made sense. This is not a tale of personal growth. Through blisters and shin splints, jaw-dropping landscapes and craptastically unspectacular forests, searing heat and pouring rain, complete hilarity and utter exhaustion, this is the story of what day-to-day life is really like on one of America's greatest trails. As told through Hummingbird's journal entries, this is the story of life on the trail - the people you meet, the things you see, and how, mile by mile, you eventually become Hikertrash. Includes: 6 Overview Maps to Follow our Journey 19 Black & White Photos of Sights Along the Trail Leave No Trace Tips Our Gear Lists Our Trail Recipes What Is Hikertrash? Hikertrash: a long distance hiker, shabby and homeless in appearance, rarely bathed and rank in odor, more at home outdoors than in society, with a deep reverence and respect for all things wild.
