**No Book but the World** Leah Hager Cohen, 2015-04-07 A lush, gripping, psychologically complex novel that asks: How much do siblings owe one another? At the edge of a woods, on the grounds of a defunct "free school," Ava and her brother, Fred, share a dreamy and seemingly idyllic childhood—a world defined largely by their imaginations, a celebration of curiosity and the natural environment, and each other's presence. Their parents, progressive educators, believe passionately that children develop best without formal instruction or societal constraint. Everyone is aware of Fred's oddness—the word "autism" is whispered—but his parents' fierce disapproval of labels keeps him free of clinical evaluation, diagnosis, or intervention, and constantly at Ava's side. Decades later, Fred is arrested for a shocking crime, and Ava is frantic to piece together the story of what actually happened. A boy is dead. Fred is held in a county jail. But could he really have done what he's accused of? By now their parents are long gone, and the siblings have fallen out of touch, which causes Ava considerable guilt. Who is left to reach Fred? To explain him and his innocence to the world? Convinced that she alone can ensure he is regarded with sympathy, Ava tells their enthralling story. A writer of enormous craft, Leah Hager Cohen brings her trademark intelligence and storytelling to a psychologically gripping, richly ambiguous novel that suggests we may ultimately understand one another best not with facts alone, but through our imaginations.

**The Book with No Pictures** B. J. Novak, 2014-09-30 A #1 New York Times bestseller, this innovative and wildly funny read-aloud by award-winning humorist/actor B.J. Novak will turn any reader into a comedian—a perfect gift for any special occasion! You might think a book with no pictures seems boring and serious. Except . . . here's how books work. Everything written on the page has to be said by the person reading it aloud. Even if the words say . . . BLORK. Or BLUURF. Even if the words are a preposterous song about eating ants for breakfast, or just a list of astonishingly goofy sounds like BLAGGITY BLAGGITY and GLIBBITY GLOBBITY. Cleverly irreverent and irresistibly silly, *The Book with No Pictures* is one that kids will beg to hear again and again. (And parents will be happy to oblige.)

Amusing matching of picture and text will have children laughing out loud and happy to read and re-read the story for a long time to come.

**The No Club** Linda Babcock, Brenda Peyser, Lise Vesterlund, Laurie Weingart, 2022-05-03 In this "long overdue manifesto on gender equality in the

workplace, a practical playbook with tips you can put into action immediately...simply priceless" (Angela Duckworth, bestselling author of *Grit*), *The No Club* offers a timely solution to achieving equity at work: unburden women's careers from work that goes unrewarded. The No Club started when four women, crushed by endless to-do lists, banded together to get their work lives under control. Running faster than ever, they still trailed behind male colleagues. And so, they vowed to say no to requests that pulled them away from the work that mattered most to their careers. This book reveals how their over-a-decade-long journey and subsequent groundbreaking research showing that women everywhere are unfairly burdened with "non-promotable work," a tremendous problem we can—and must—solve. All organizations have work that no one wants to do: planning the office party, screening interns, attending to that time-consuming client, or simply helping others with their work. A woman, most often, takes on these tasks. In study after study, professors Linda Babcock (bestselling author of *Women Don't Ask*), Brenda Peyser, Lise Vesterlund, and Laurie Weingart—the original "No Club"—document that women are disproportionately asked and expected to do this work. The imbalance leaves women overcommitted and underutilized as companies forfeit revenue, productivity, and top talent. The No Club walks you through how to change your workload, empowering women to make savvy decisions about the work they take on. The authors also illuminate how organizations can reassess how they assign and reward work to level the playing field. With hard data, personal anecdotes from women of all stripes, self- and workplace-assessments for immediate use, and innovative advice from the authors' consulting Fortune 500 companies, this book will forever change the conversation about how we advance women's careers and achieve equity in the 21st century.

No Sure Victory Gregory A. Daddis, 2011-06-01 Conventional wisdom holds that the US Army in Vietnam, thrust into an unconventional war where occupying terrain was a meaningless measure of success, depended on body counts as its sole measure of military progress. In No Sure Victory, Army officer and historian Gregory Daddis looks far deeper into the Army's techniques for measuring military success and presents a much more complicated-and disturbing-account of the American misadventure in Indochina. Daddis shows how the US Army, which confronted an unfamiliar enemy and an even more unfamiliar form of warfare, adopted a massive, and eventually unmanageable, system of measurements and formulas to track the progress of military operations that ranged from pacification efforts to search-and-destroy missions. The Army's monthly Measurement of Progress reports covered innumerable aspects of the fighting in Vietnam-force ratios, Vietcong/North Vietnamese Army incidents, tactical air sorties, weapons losses, security of base areas and roads, population control, area control, and hamlet defenses. Concentrating more on data collection and less on data analysis, these indiscriminate attempts to gauge success may actually have hindered the army's ability to evaluate the true outcome of the fight at hand--a roadblock that Daddis believes significantly contributed to the many failures that American forces suffered in Vietnam. Filled with incisive analysis and rich historical detail, No Sure Victory is not only a valuable case study in unconventional warfare, but a cautionary tale that offers important perspectives on how to measure performance in current and future armed conflict. Given America's ongoing counterinsurgency efforts in Iraq and Afghanistan, No Sure Victory provides valuable historical perspective on how to measure--and mismeasure--military success.

**No More Masterpieces** Lucy Bradnock, 2021 This groundbreaking account of postwar American art traces the profound influence of Antonin Artaud

Proposing an original reassessment of art from the 1950s to the 1970s, *No More Masterpieces* reveals how artistic practice in postwar America was profoundly shaped by the work of the rebellious French poet and dramatist Antonin Artaud (1896-1948). A generation of artists mobilized Artaud's countercultural ideas to imagine new forms of representation and to redefine the relationship between artist and audience. The book shows how Artaud's radical writings inspired the experimental theatrical work of John Cage, Rachel Rosenthal, and Allan Kaprow; the attack on artistic and social conventions launched by assemblage artists Wallace Berman and Bruce Conner; and the feminist work of Carolee Schneemann and Nancy Spero. Lucy Bradnock traces the dissemination of Artaud's writings in America and demonstrates how his interest in political and cultural disorder, the dangers of authority, and the unreliability of representation found fertile ground in the context of the Cold War, disillusionment with the ideals of Abstract Expressionism, and the early years of identity politics.

*Faith No More* Phil Zuckerman, 2015-06 During his 2009 inaugural speech, President Obama described the United States as a nation of Christians and Muslims, Jews and Hindus--and nonbelievers. It was the first time an American president had acknowledged the existence of this rapidly growing segment of the population in such a public forum. And yet the reasons why more and more people are turning away from religion are still poorly understood. In *Faith No More*, Phil Zuckerman draws on in-depth interviews with people who have left religion to find out what's really behind the process of losing one's faith. According to a 2008 study, so many Americans claim no religion (15%, up from 8% in 1990) that this category now outranks every other religious group except Catholics and Baptists. Exploring the deeper stories within such survey data, Zuckerman shows that leaving one's faith is a highly personal, complex, and drawn-out process. And he finds that, rather than the cliché of the angry, nihilistic atheist, apostates are life-affirming, courageous, highly intelligent and inquisitive, and deeply moral. Zuckerman predicts that this trend toward nonbelief will likely continue and argues that the sooner we recognize that religion is frequently and freely rejected by all sorts of men and women, the sooner our understanding of the human condition will improve. The first book of its kind, *Faith No More* will appeal to anyone interested in the New Atheism and indeed to anyone wishing to more fully understand our changing relationship to religious faith.

**See No Stranger** Valarie Kaur, 2020-06-16 An urgent manifesto and a dramatic memoir of awakening, this is the story of revolutionary love. Finalist for the Dayton Literary Peace Prize • "In a world stricken with fear and turmoil, Valarie Kaur shows us how to summon our deepest wisdom."—Elizabeth Gilbert, author of *Eat Pray Love* How do we love in a time of rage? How do we fix a broken world while not breaking ourselves? Valarie Kaur—renowned Sikh activist, filmmaker, and civil rights lawyer—describes revolutionary love as the call of our time, a radical, joyful practice that extends in three directions: to others, to our opponents, and to ourselves. It enjoins us to see no stranger but instead look at others and say: You are part of me I do not yet know. Starting from that place of wonder, the world begins to change: It is a practice that can transform a relationship, a community, a culture, even a nation. Kaur takes readers through her own riveting journey—as a brown girl growing up in California farmland finding her place in the world; as a young adult galvanized by the murders of Sikhs after 9/11; as a law student fighting injustices in American prisons and on Guantánamo Bay; as an activist working with communities recovering from xenophobic attacks; and as a woman trying to heal from her own experiences with police violence and sexual assault. Drawing from the wisdom of sages, scientists, and activists, Kaur reclaims love as an active, public, and revolutionary force that creates new possibilities for ourselves, our communities, and our world. *See No Stranger* helps us imagine new ways of being with each other—and with ourselves—so that together we can begin to build the world we want to see.
