Josh Kaufman has made a business out of distilling the core principles of business and delivering them quickly and concisely to people at all stages of their careers. His blog has introduced hundreds of thousands of readers to the best business books and most powerful business concepts of all time. In *The Personal MBA*, he shares the essentials of sales, marketing, negotiation, strategy, and much more. Read this book and in one week you will learn the principles it takes most people a lifetime to master.

*Personal Demons* Lisa Desrochers,2010-09-14 Frannie Cavanaugh is a good Catholic girl with a bit of a wicked streak. She has spent years keeping everyone at a distance---even her closest friends---and it seems as if her senior year is going to be more of the same . . . until Luc Cain enrolls in her class. No one knows where he came from, but Frannie can't seem to stay away from him. What she doesn't know is that Luc is on a mission. He's been sent from Hell itself to claim Frannie's soul. It should be easy---all he has to do is get her to sin, and Luc is as tempting as they come. Frannie doesn't stand a chance. But he has to work fast, because if the infernals are after her, the celestials can't be far behind. And sure enough, it's not long before the angel Gabriel shows up, willing to do anything to keep Luc from getting what he came for. It isn't long before they find themselves fighting for more than just Frannie's soul. But if Luc fails, there will be Hell to pay . . . for all of them. **Personal Data (Privacy) Law in Hong Kong A Practical Guide on Compliance (Second Edition)** Mr. Stephen Kai-yi WONG,Professor Guobin ZHU, The idea of a right to privacy, which arose in reaction to the rapid rise of newspapers, instant photography and the "paparazzi" of the 19th century, has evolved into a constitutional right in much of the developed world. It is enshrined in Hong Kong through Articles 28, 29, 30 and 39 of the Basic Law. Hong Kong stands proud as the first jurisdiction in Asia to enact legislation to safeguard personal data in the form of the Personal Data (Privacy) Ordinance, Cap 486 ("the Ordinance") which came into force in 1996. At its centre are the six Data Protection Principles based on the 1980 OECD Guidelines. The office of the Privacy Commissioner for Personal Data was created under this legislation to provide oversight and ensure compliance. The Octopus scandal in mid-2010 eventually led to substantial changes being made to the Ordinance that were enacted in 2012 and 2013, the main amendments being the Direct Marketing provisions and the provision of legal assistance and representation to aggrieved persons. In this digital age, the Ordinance is proving to be the main safeguard of our privacy rights. The Data Protection Principles seek to create broad common principles based on fairness that apply to the public and private sectors. The passage of twenty years since the enactment of the Ordinance has given rise to a substantial body of case law and administrative decisions on these principles and the other provisions of the Ordinance. The new amendments have already been the subject of judicial scrutiny. This publication, which replaces its predecessor, has the dual aim of becoming a practitioner's guide on the important subject of personal data privacy, containing, as it does, a detailed exposition of the principles and provisions in the Ordinance and a comprehensive source of reference materials, and of enabling the Privacy Commissioner to discharge his major duty to promote awareness and understanding of the Ordinance. The second edition includes not only a full discussion of these principles, but also summaries of all the seminal cases and Administrative Appeals Board rulings in this area, as well as a comprehensive list of all the pertinent cases.

*Building Personal Success* Leonard Campagnaro,2023-12-10 In this brief book, we invite readers to begin a journey toward inner guidance and managing their personal success. Starting a process of personal supervision is the first step towards transforming your own life, seeking a healthier state that is aligned with your needs and desires. The truth is that to become a more fulfilled person, it is essential to start this permanence at some point, and this involves changing the way you are. Each person is an architect of their personal universe, and if things do not meet your expectations, this signals the need for internal changes to obtain different results. Without a change to the internal configuration, the results will remain unchanged. In the following pages, we explore the 10 fundamental laws that will serve as a guide to achieving personal transformation and achieving your goals. We talk about these laws and principles that must be known and followed to achieve objectives aligned with your interests. When things don't work out as desired, we are often assuming it as laws of failure due to inappropriate thoughts and actions. There is a sequence of steps or procedures that must be followed to be successful in our objectives. By following these laws and procedures, success becomes a natural consequence, aligned with our desires. The main message of this work is that personal success is not a gift of fate or dependent on external factors. Success is an internal and individualized construction that requires personal planning and execution. Every success is based

on fundamental steps, without which success is not lasting. Someone can get rich by luck, but they are more likely to lose everything if they don't understand these fundamentals. On the other hand, someone who understands and applies these laws can rebuild their success even after losses. Personal fulfillment goes beyond possessing materials and is based on values such as emotional, mental and psychological well-being, personal fulfillment and individual growth. These developments cannot be guaranteed by luck, as they are the result of personal maturation. This work highlights the importance of internal transformation, emphasizing that personal reconfiguration is essential before seeking external success. This involves strengthening self-confidence, changing mindset and acquiring self-discipline. Therefore, each reader will find valuable information, practical strategies, and a logical approach to cultivating personal success. True success begins when you decide to rebuild yourself internally and direct your journey towards your goals. As you explore these fundamental laws, think of them as tools available to help you build a more meaningful and secure life. However, it is crucial to remember that the most important step is the firm decision to transform yourself internally, improve your quality of life and move towards your desired goals. Regardless of the knowledge acquired, personal decision is the determining step in the journey of personal guidance.

Each chapter is supplemented by summaries of the key cases for that topic and Part 2 contains all the relevant legislation. New coverage includes landmark cases, explaining and analysing their impact on practice: - Collins v Secretary of State for Business, Innovation and Skills (Court of Appeal, 2014) – an asbestos-related lung cancer case of 'seminal importance in relation to long tail industrial disease claims' - Platt v BRB (Residuary) Ltd (Court of Appeal, 2014) – examination of constructive knowledge in the context of limitation in disease cases - RE v GE (2015) – consideration of the court's discretion, conferred by section 33 of the Limitation Act 1980 in the context of a sexual abuse case - Abela v Baadarani (Supreme Court, 2013) – highlights an important shift of emphasis away from the traditional approach to service out of the jurisdiction and considerations of national sovereignty, and towards a more practical and pragmatic approach - Barton v Wright Hassall (Supreme Court, 2018) – a crucial judgment regarding whether litigants in person should be granted a special status in civil litigation
